GERMAN SOCIALISTS PLANNING PEACE MOVE

Copenhagen, via London, April 13.—The mission of the German Socialist leader Philip Scheidemann, as has been anticipated, led him to the Scandinavian capitals to confer with the Socialist leaders who are endeavoring to mediate between the Russo-German Socialists with a view to bringing about peace.

Herr Scheidemann's visit to Copenhagen was managed with such care that his presence here was unknown except to his hosts, until after his departure for Germany yesterday. Herr Scheidemann came here from Stockholm. So far as is known, he met no Russians.

A WISE SELECTION.

It is highly improbable that any physician could be found who would deny there is a great big legitimate field wherein a good liniment proves a welcome and powerful ally. When need arises, therefore, it is only a question of wise selection on the part of the purchaser. If he obtains a liniment that can be used internally for coughs, colds, sore throat, cramps, chills, etc., and externally for sprains, strains, muscular rheumatism, various aches, pains, and almost any soreness, he is twice fortified against many of the common ailments that all flesh is heir to. For over 100 years Johnson's Anodyne Liniment has proved to be just such a double value liniment. This prescription of Dr. Abner Johnson's, an erstwhile old family physician, has attained its enviable record of more than a century of success purely on its wonderful merit. As a tribute to its remarkable healing, soothing and penetrating qualities, thousands of grateful users speak of Johnson's Anodyne Liniment as "an angel in disguise."

An Assurance

"Don't you think a holiday is more cheerful when there is a large family gathered about the festive board?" "I do," answered the sardonic person. "A large family is a glad assurance that there is not going to be enough turkey left to supply the menu for the next few days."

Indians say the best time to catch a deer is on Christmas night at twelve o'clock, when they believe the deer kneels.

In many countries where they go by the old calendar Christmas is celebrated January 6, the celebration being twelve days before.

SCORES OF MOOSE VISITED G.T.P. MAIN LINE DURING RECENT SNOW STORM

Montreal, April 5.—Reports received at Grand Trunk Pacific headquarters, in Montreal, from Superintendent Kirkpatrick, at Jasper, tell of remarkable visits to the railway line of large herds of moose.

A very heavy fall of snow between McBride and Prince George, British Columbia, on the main line of the Grand Trunk Pacific, made it very difficult for moose and caribou to find feed. With the surrounding country covered with a mantle of snow ten feet deep, the animals came down to the railway track, and the operating men had considerable difficulty in getting them off the right of way.

"When passing over the line with the snow plow," writes Supt. Kirkpatrick, "I personally counted over fifty moose in different places on the track, and we had to delay trains to avoid killing them. We did kill six or seven moose, but this was unavoidable as the animals ran some distance ahead of the trains then turned and charged the engine. There were some very humorous as well as painful incidents. Two buck moose ran ahead of our snow plow for about two miles, finally turned and charged the plow at full speed. The moose were not killed, however, as the snow from the plow pitched them up and threw them about fifty feet from the track. We watched them make their way down through the snow to the river, apparently uninjured."

MURDEROUS HUNS KNOWS NO PITY

The question many times is asked, "If we had not relieved Belgium, would not Germany have been in the last resort, compelled to feed the people?"

The best answer to that lies in what actually happened in Belgium in the early days of the war. In Charleroi the Germans compelled the municipal authorities to provide the bread necessary for the occupying troops. In reply to the burgomaster's protest that this would leave at least ten thousand inhabitants without the basis on which to sustain life, he was told: "That is no concern of ours; it is the fault of the Allies."

Exactly the same demands, with the same results, occurred at Liege, Brussels, Antwerp and similar thickly populated cities.

Today Belgium looks wistfully to the outside world, fearful lest its meagre rations—a little bread and soup daily—should be stopped, and all the horrors of famine submerge the country from Antwerp to Luxembourg. For in spite of the fact that the Relief Commission are carrying out their functions as effectively as ever—left strictly alone by the German government, according to their guarantee—supplies are running dangerously low.

The world's charity is waning. Canadians, come to the rescue of these helpless millions! Send a contribution to the nearest relief committee, or direct to the Belgian Relief Fund, 59 St. Peter street, Montreal.

Motion pictures are being extensively used in Italy to teach several million illiterate voters, enfranchised by a new law, how to prepare their ballots.

For household use a simple device has been invented in Germany which measures the proportion of carbonic acid gas in the air of a room.

The jolt has been taken out of the wheelbarrow by a Main man who has invented one with springs between the axle ends and side bars.

BABY'S OWN TABLETS AN EXCELLENT REMEDY

When the baby is ill—when he is constipated, has indigestion; colds, simple fevers or any other of the many minor ills of little ones—the mother will find Baby's Own Tablets an excellent remedy. They regulate the stomach and bowels thus banishing the cause of most of the ills of childhood. Concerning them Mrs. Paul Dinette, Cheneville, Que., writes:—"I can recommend Baby's Own Tablets to all mothers as I have used them for my little one for constipation and diarrhoea and have found them an excellent remedy." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

POINTED PARAGRAPHS

Pawnbrokers may possibly see the silver lining of your cloud. Necessity is the mother of invention; promotion is the step-father. When ambition crawls in at the window contentment flies out at the door. Many a man on the road to fortune doesn't know at what station to get off. A Quaker's advice to his son on his wedding day: "When these went a-courting I told thee to keep thy eyes wide open. Now that thee is married, I tell thee to keep them fast shut."

The "Sneeze-Wood" Tree
Among its many other peculiarities South Africa includes the "sneeze-wood" tree, which takes its name from the fact that one cannot cut it with a saw without sneezing. Even in planing the wood it will sometimes have the same effect. No insect or worm will touch it; it is very bitter to the taste, and its specific gravity is heavier than water. The color is light brown, the grain running very close and hard; it is, too, a nice looking wood, and takes a good polish. For dock work, piers, or jetties it is a most useful timber, keeping sound a long while under water.

Mrs. Alfred Winter, Castor, Alta., writes: "I would like every woman who is suffering from nerves or heart trouble to know how much Milburn's Heart and Nerve Pills have helped me. For two years I kept a hired girl, and was doctoring all the time. After having taken four boxes of your pills I am able to do all my own work. I would especially recommend them to women between 40 and 50, as at that time they are more liable to be far from well. One of my neighbors knows how they helped me, and she is now using them."

THE ROAD TO THE RIGHT.

YOU'VE met at least one of those few good old souls, who are constantly getting the worst of it when shopping, who don't believe in advertising. A hundred disappointing and instructive experiences have failed to teach him their plain lesson.

When he bought his first watch he was beguiled into buying one without a known name or a trustworthy guarantee. That watch—a poor timekeeper—cost him dearly by reason of missed appointments and missed trains, and for frequent repairs. Yet he paid the price of a good watch.

It is the same story with regard to his underwear, his shoes, and his fountain pen.

This good old soul's case is not unique. Many of us, if the truth be confessed, resemble him; we allow ourselves to be sold merchandise with an unknown brand or trade mark instead of buying merchandise which is well known to us through the medium of advertising. In slang language, we get "stung" pretty often.

In most of these cases we have ourselves to blame, for "the road to the right" thing to buy has been made plain by advertising.

There is no good reason for passing by the known thing, soundly guaranteed, to buy a dubious article, which, quality for quality, cannot be cheaper than the known, branded article.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
