HAS MADE A GOOD START.

The newspaper organs of the politicians who misruled this province for the past nine years are not pleased over the activity being displayed by Hon. Mr. Tweeddale in looking after the interests of the farmers, more especially those in the new settlements in Restigouche county, where there is a seed shortage. When a medical doctor or a commercial traveller ran the Agricultural Department, the people expected nothing, and were therefore not disappointed, but now, with a practical farmer in charge they look for tangible results from the large expenditure of public money made under the department's auspices. It is Hon. Mr. Tweeddale's intention to make the Department of Agriculture of real service to the farmers of the province. He has made a good start and he will keep right on, regardless of what the opposition press may say.

The former Liberal government built the International Railway and thereby opened up for settlement a large section of fertile land in the northern part of the province. Hon. Mr. Hazen, Mr. J. K. Flemming, Mr. B. Frank Smith and others who sat on the left of the Speaker in the Legislature at that time, strenuously fought against the proposal to grant aid to the International Railway, and declared that for years to come there would not be a single settler on the land which the line was to open up. The thriving settlements which have sprung up along the International show that these men were mightily poor prophets, to say the least. The settlers are there in hundreds—sturdy, hardworking men—but the government which was kicked out of office on February 24th never offered the slightest evidence to show that it was aware of the fact. Their calls for assistance fell upon deaf ears, and they were left to shift for themselves as best they could.

Hon. Mr. Tweeddale, unlike his predecessors in office, knows something of the drawbacks and disadvantages which settlers in this province must endure before their farms can be made to yield an adequate return for the expenditure of money and labor. It was largely through his efforts that a large area of fertile land in his own county of Victoria was purchased from the New Brunswick Railway Company at a nominal price and thrown open for settlement. It was one of the best business transactions ever put through by any government and Hon. Mr. Tweeddale has every reason to feel proud of his connection with it. The Minister of Agriculture thoroughly understands the case of the settlers in Restigouche county, and he is to be commended for taking prompt action to enable them to secure a supply of seed potatoes.

The great agricultural interests of this province will be perfectly safe in the hands of Hon. Mr. Tweeddale, and he will have the hearty support of the people in carrying out a vigorous policy of reform.

UNNECESSARY ALARM.

The Standard has discovered that Mr. E. S. Carter is to have an office in the government rooms at St. John, and seems to be very much alarmed over it. Here is what it says:

"The government offices are no place for a paid party official. Either Mr. Carter is taking the offices as a government official, or he goes there as a private citizen working for a particular political party. If the latter is the correct viewpoint, he should be given notice to quit without any delay. The government offices are for government officials, not for political organizers."

Under the old regime the deputy head of the Agricultural Department was an active partizan, and for years occupied an office in the government building in this city. When the election was called on he left his office and went out on the stump to work for "a particular political party." Having remained silent on that occasion, when a word of protest might have counted for something, there is no occasion for undue excitement on the part of the St. John organ at the present time.

Newcastle Leader: The Chatham world says, "Hon. Robert Murray, Provincial Secretary-Treasurer, has no

knowledge of finance." The die-hard Commodore imagines he is the financial critic of Canada. We would advise him to digest some of Ald. Gaynor's facts about the finances of Chatham, which have been in charge of the Commodore for some time. Mr. Murray is to be congratulated and his many friends are pleased that he was taken into the cabinet. The honorable member is a fighter and is quite capable of handling anything in the Legislature that sits to the left of the Speaker. He will do honor to old Northumberland.

The people of Grand Falls and vicinity turned out en masse last evening to greet Hon. W. E. Foster, the new Premier of New Brunswick. Premier Foster will sit in the next Legislature as the representative of Victoria, and last night's meeting marked the opening of his campaign. He delivered an able and business like address, a report of which will be found in another part of this issue. The policy of the new administration was outlined briefly and it is one which cannot fail to meet with the hearty approval of a great majority of the people, who will rejoice that the era of graft and misrule is at an end. Premier Foster was ably supported on the platform by Mr. F. B. Carvell, M.P., Hon. J. F. Tweeddale, Hon. L. A. Dugal, and Mr. James Burgess, ex-M.P. P.

The Liberal naval policy outlined by Sir Wilfrid Laurier was to provide a fleet which would guard our shores in time of war, and release British warships for service elsewhere. Unfortunately the Liberals went out of power in 1911 and their naval policy was not carried out. Now our coast towns and cities are to be under the protection of American ships of war.

Canadian Troops continue to win honors on the battle field of France and Flanders. During the present week they captured Vimy Ridge, and they also ran up against the famous Prussian Guards and completely routed them. Just think of it! Canadian boys who a few months ago were at work in offices and shops and on farms, routing the Guards, the pride of the Prussian army.

Through Our Sieve

Hi Cost is the first fellow to feel the buoyancy of spring.

Yesterday was Friday the 13th and we didn't even get sunstruck.

Everybody is going to plan potatoes this spring unless something prevents.

Germany is convinced that everybody is out of step except her Willy!

Desire to be good is universal—but that is as near as some people ever get.

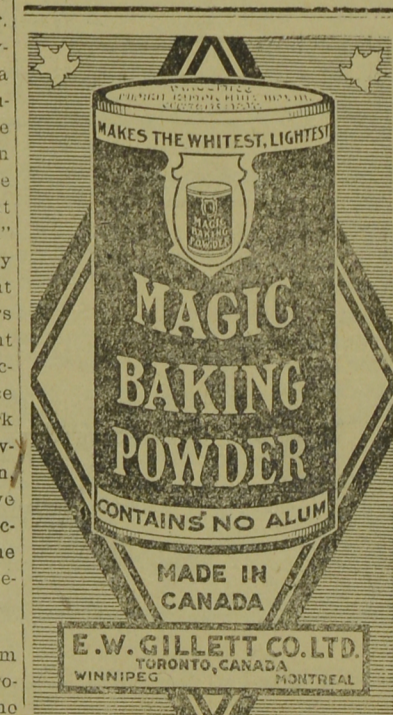

Too many cooks spoil the broth. In fact, too many spoil nearly everything they cook.

Looting and burning by the Germans as they retreat in France will not hurry along the advent of peace.

In these effete days of vacuum cleaners a discarded sceptor cannot even be used for the beating of carpets.

Among the unsung martyrs of the world must not be forgotten the newly married men who eat everything wifey cooks to keep from hurting her feelings.

The Kaiser's \$35,000 motor car, long held in England where it was being refitted, has at last been sold, but they might at least send him the shock absorbers, for which he has almost immediate use.

SHE PRAISES THEM FOR SHE FOUND THEM GOOD

WHAT MDE. TREMBLAY SAYS OF DODD'S KIDNEY PILLS.

She Had Bad Kidneys—She Took Dodd's Kidney Pills, and They Brought Health and Cheerfulness.

Tremblay Settlement, Gloucester Co. N. B., April 13.—(Special) Every corner of Quebec has some one ready to tell of splendid results secured from the use of Dodd's Kidney Pills. In their thirty years of relief work among the sufferers from sick kidneys they have made friends everywhere. Mde. Pierre Tremblay, of this place, is one of them.

"I praise Dodd's Kidney Pills," she says, "because I have found them good. I had bad kidneys. I took Dodd's Kidney Pills and they cured me. I think Dodd's Kidney Pills are the best of all kidney remedies."

The reason so many people so cheerfully bear testimony to the benefit they have received from Dodd's Kidney Pills is that they make a person healthy all over.

Dodd's Kidney Pills make healthy kidneys. Healthy kidneys strain all the impurities, all the seeds of disease, out of the blood. With pure blood coursing through the body every part of it finds energy and cheerfulness.

LIST OF CUSTOMERS PATHER EXCLUSIVE

Much Comment Heard on the Way That Produce From Experimental Station is Disposed of

Are the surplus products of the Fredericton Experimental Station disposed of under the patronage system? is a question which is frequently asked. In view of the fact that the station is owned and maintained by the people at a large expense, the question is a pertinent one and an answer should be forthcoming. The station was established for the benefit of the farmers, but, rightly or wrongly, the impression has got abroad that the direct benefits which accrue from it are reaped by citizens of Fredericton who do not till the soil for a living, but who support the party which now rules at Ottawa and are on friendly terms with the superintendent. The Auditor General's report shows that \$50,000 of public money was expended on the station in the year 1915, and to offset this there were receipts which amounted to about \$2,000. Pure bred stock and gilt-edged poultry are kept on the farm, and a superior grade of butter and eggs are disposed of each week. They are not offered for sale in the local market, but are disposed of to private individuals at prices which it is said are often below those which prevail in the country market. The evidence at hand goes to show that the station is conducted as a sort of close corporation for the benefit of a favored few. "I buy butter and eggs from the experimental farm, and get them cheaper than you do" is a statement which one frequently hears about the streets. It is usually made by some resident of the lower part of the city.

The Mail has had requests for information from citizens who say that in these days of high prices they would much like to get in on a good thing. They would like to have the password which would enable them to purchase produce grown on an experimental farm at prices which they claim are often lower than those which prevail in the city market or local provision stores. They contend, and not without reason, that produce from a farm which costs the country \$50,000 a year should be superior to ordinary farm produce, and they would at least like to have a chance to sample it.

There does not appear to be any reason why the authorities at the Experimental Station should sell farm produce at a lower price than prevails in the country market. It can afford to do this there does not seem to be any good reason why the patrons of the farm should be quite so select.

PERSONAL.

Mr. H. S. Hatfield, traveller for A. F. Randolph & Sons in the northern part of the province, is home for the holidays.

Miss Stella Sherrin is spending this week in Toronto.

John J. Weddall & Son \$1.89 SPECIAL FOR SATURDAY ONLY

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong---According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50% In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for 15 days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes which induced fierce headaches. I have worn glasses for several years both for distance and work, and without them I could not read my own name on an envelope or the type-writing on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reason-

able time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription. Go to any, active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or misfit glasses. I can highly recommend it in case of weak, watery, aching, smarting, itching, burning eyes, red lids, blurred vision or for eyes inflamed from exposure to smoke, sun, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto, referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or the money. It can be obtained from any good druggist and is sold in this city by the leading druggists.
