HOW THE CANADIAN BANKS ARRANGE FOR CREDITS

(Toronto Saturday Night.)
Throughout the summer of 1917 the banks were required to provide very large credits in connection with the Canadian exports of dairy products, which attained record breaking values says the Journal of the Canadian Bankers' Association. Early in the fall two special credits, only surpassed in magnitude by the munition credits, were arranged. One of them, amounting to \$75,000,000, was designed to facilitate purchases of Canadian packing house products by the British government, and the other, amounting to \$80,000,000, provided for the British purchases of Canada's 1917 grain crop.

YOU'RE BILIOUS, LET CASCARETS LIVE LIVER AND BOWELS

Don't stay headachy, constipated, sick
with breath bad and
stomach sour.

Get a 10-cent box now.
You men and women who can't get
feeling right—who have headache,
coated tongue, bad taste and foul
breath, dizziness, can't sleep, are bilious,
nervous and upset, bothered
with a sick, gassy, disordered stomach,
or have a bad cold.

Are you keeping your bowels clean
with Cascarets, or merely forcing a
passageway every few days with
salts, cathartic pills or castor oil?
Cascaret swork while you sleep;
cleanse the stomach, remove the sour,
undigested, fermenting food and foul
gases; take the excess bile from the
liver and carry out of the system
all the constipated waste matter and
poison in the bowels.

A Cascaret tonight will straighten
you out by morning—a 10-cent box
from any drug store will keep your
stomach sweet, liver and bowels regular,
and head clear for months. Don't
forget the children. They love Cascarets
because they taste good—never
gripe or sicken.

These like the munition credits that
preceded them, necessarily impose a
heavy strain on the banks. In both
cases the amounts to be advanced are
much in excess of the peace-time requirements.

The operations of the leading packers
have expanded beyond the antebellum limits and they require larger
"lines" to enable them to buy their
animals and carry the products. To
enable them to compete with the
United States for British orders, Canada
is obliged to do what the United
States is doing—take payment in part
in British securities. In connection
with the grain credit it is to be remembered
that the special credits to the British
agents will replace, to a certain extent,
the loans which the banks ordinarily make
to private dealers and exporters; but, after making
due allowances for that, it seems probable
that the aggregate of grain loans during
the season of 1917-1918 will be greater
than usual—the prevailing high prices make
that result very probable.

The British securities taken in case
of the munition credits may run for an
indefinite period and if the securities
acquired through the packers' credit are
similarly subject to renewal, there will be a
substantial addition to the dead loan which
our banks are required to carry.

As the British authorities are to take up
and pay cash for all grain brought under
the special grain credit on its arrival at the
seaboard, this will be a more desirable
transaction than the munition credits—as the
advances will liquify themselves promptly
when the stuff is exported.

With our foreign trade running as at
present, loans in the United States are a
necessary counterpart to the credits extended
by us to Britain. Unless we get advances to
cover considerable portions of our excess of
purchases in the United States, our external
reserve of quick assets may quickly melt away
and a serious situation may develop.

HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble
Since Taking "FRUIT-A-TIVES"

HATTIE WARREN

Port Robinson, Ont., July 8th, 1915.
"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with Kidney Disease. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-tives' and would never be without them."

WILLIAM WARREN.
50c. a box, 6 for \$2.50, trial size, 25c.
At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

You don't like the cheap tea you are using. Do you?

Pretty Poor
Tea, Mother

Before the war so increased the cost of living, many people used to drink better tea than they are now using.

Perhaps, this is true in your case?

Of course, you are not drinking poor tea because you like it, but because you think it necessary to save money.

But are you really saving anything?

Cheap, common teas only make about 150 cups to the pound. You are lucky if you can stretch them out to 185 or 200.

On the other hand, Red Rose Tea easily makes 250 cups. It goes further because of its fine quality, consisting chiefly of Assam teas, the richest and strongest in the world.

You may almost doubt if so many cups of tea can be made from a pound of even such good tea as Red Rose, but you can readily prove the economy of Red Rose without waiting for a package to be used up. Just use a few leaves less of Red Rose for a brewing than you use of common tea—the result we are sure will please and surprise you.

THE VALUE OF ADVERTISING in all cases must be based on the return for the outlay. No better opportunity in this respect can be found in this locality than

THE DAILY MAIL

This paper has a special value to the local advertiser, as the majority of its readers are in this city and the immediate surrounding country.

Our Advertising Rates will be found decidedly reasonable in view of the results.

PEOPLE READ OUR ADVERTISEMENTS

They are trying to buy
as wisely as they can. It
is necessary they should.

They are eager to know
what the local merchants
have to offer, and good
live advertising is interesting
reading to them.

Most of our enterprising
business men have already
realized this fact and their
advertising appears regularly
in the Mail.

If you are not a regular advertiser in the DAILY or SEMI-WEEKLY MAIL, you are overlooking an opportunity that no business man in this locality ought to be too busy to appreciate.

THE AD. AND THE MAN.

By James J. Montague.

He saw the ad from day to day
And muttered: "I see it;
The stuff may be just what they
say.
But I'm not going to buy it."
As time wore on he made remarks
It would not do to mention,
For he was mad because that ad
Was forced on his attention.

But in a week, or two, or three,
He said: "There's no denying,
The way that ad gets hold of me,
The stuff may be worth trying."
For just about a fortnight more
He dared mere words to win
him,
And then the ad completely had
Aroused the spender in him.

Next day he drifted in a store
And quietly expended
A few big iron dollars for
The stuff the ad commended.
He found it filled a long-felt need
Its excellence surprised him,
And now he's glad because the ad
So deftly hypnotized him.

To The Electors Of York-Sunbury

I wish to state that I am strongly in favor of Canada doing all she possibly can to bring this war to a victorious end.

That I believe Canada's best effort calls for whole-hearted co-ordination of all our resources. Not life alone—make the rich men help too.

That the policy of Conscription of human life ONLY, which does not attempt to conscript wealth, resources or the services of any person other than those who come within the age limit, is manifestly unjust, and should not be enforced WITHOUT THE CONSENT OF THE PEOPLE.

It is no answer to say "We must have conscription or quit." Australia rejected conscription and Australia did not "quit," but has done, and is doing, MORE under the voluntary system than Canada has done, in proportion to population.

I advocate better treatment and better pay for our heroic soldiers. We should abolish partly and graft in the army and pay the private at least an ordinary workman's pay, which would be \$2.50 per day.

I believe the government should make adequate provision for the dependents of soldiers enlisted for overseas, as will remove the necessity for raising money by public subscription for their support, and prompt action taken to put the soldiers and their dependents beyond the possibility of want, after public subscriptions have ceased and the glamor and excitement of war have worn away.

The Government voted down a resolution to the above effect. The country has experienced a succession of waves of hysterical efforts, such as the Machine Gun Campaign, the Patriotic Fund Campaign and now the Conscription Issue.

Lloyd George recently said shipping was the most pressing need of the Allies.

The Allies are short 500,000,000 bushels of wheat and must get it from North America, which only normally exports 200,000,000 bushels.

I maintain the most efficient way to win the war is to give better treatment and a square deal to the soldiers and dependents and to co-operate intelligently with our Allies to the fullest extent possible in MEN and MONEY, FOOD and SHIPS, MUNITIONS and LABOR.

Upon these principles I ask your support.

Yours faithfully,

ELSON W. BROWN.
