COUNTRY'S WELFARE FIRST.

"I do not want to take up too much of your time upon matters which may be discussed more fully in the near future, and particularly in the Legislature. I am here rather for the purpose of meeting and greeting you, of making the acquaintance of those whom I hope will be my new constituents, than entering into a discussion of public affairs at any length. However, there is one point that I wish to make, the government of which I am Premier intends to give the people of this province a business administration. We are not going to place our own personal interests before the welfare of the country. We are going to take up each and every question upon its merits and not place legislation upon the statute books that will be for the benefit of private individuals and contrary to the public good.—Premier Foster at Grand Falls.

AN IMPORTANT CONFERENCE.

The conference here yesterday called to devise means of stimulating food production in New Brunswick, shows what can be accomplished by real leadership as exemplified by Premier Foster and his energetic Minister of Agriculture, Hon. J. F. Tweeddale. Although the notice of the meeting was necessarily brief, the response was truly marvellous. Industrial leaders, men high in the educational life of the province, clergymen of all denominations, representative farmers from all parts of the province, and members of women's organizations, journeyed here to help along a movement which is deserving of the best efforts of all patriotic citizens. It was an epoch-making event, and the result cannot fail to be far reaching. The conference was marked by wonderful harmony and all present seemed to be thoroughly in sympathy with its object and desirous of doing all possible to stimulate agricultural production, and thus assist the Empire to emerge victorious from the great struggle in which it is now engaged.

The conference adopted a number of resolutions and arrangements will at once be made to carry them into effect. A provincial committee was appointed to co-operate with the Agricultural Department and assist in the work of increased production in the province. This committee, representing as it does all sections of the province, can do much to help along the work in the different localities, and we believe that great good will result from its labors.

The keen interest being displayed in the greater production campaign by the educational authorities of the province is most commendable and ensures its success. It is proposed to mobilize the pupils of public schools and have them volunteer for work on the farms, and the household science teachers and school inspectors are to co-operate in the work. The carrying out of this excellent idea will solve to a considerable extent the farm labor problem. The school boys of New Brunswick understand the seriousness of this great war and should gladly do their bit for the Empire by helping the farmers produce a greater quantity of foodstuffs. Instead of migrating to the seashore or to boys' camps, this year, let there be an exodus of boys to the farm.

The question of cultivating vacant lots in cities and towns engaged the attention of the meeting, and a resolution was adopted calling upon industrial workers in their respective communities, to co-operate in the highest degree possible.

Those who own vacant land and have not the time to place it under cultivation, should place it at the disposal of somebody who can put it under crop. A little effort and co-operation along this line can accomplish wonders.

An important resolution passed by the Conference was one recommending that Sunday, May 13th, be set aside as National Service Sunday for New Brunswick. It is proposed to send a message to every clergyman in the province, calling upon them to read it to their congregations and supplement it with an address on National Service with special reference to food production. The various clergymen are in close touch with the people and their hearty interest and co-operation must mean much for the success of the movement.

The conference was in many respects the most important ever held in this province. The deliberations were characterized by great earnestness, and practical steps were taken to further the movement for increased production of food supplies. A good start has been made, the people understand what is expected of them, and the success or future of the campaign so auspiciously opened must depend upon the efforts of the people. There

must be effective team work, as well as individual effort. Our brave boys in the trenches are doing their duty nobly—but they must have food, and they are depending upon the people at home to supply it. We believe that the loyal and patriotic men, women and Boys of New Brunswick will not fail in their duty at a time when the freedom of the world is at stake.

Prof. Cumming, of Truro, handed out some splendid advice at the Greater Production Conference yesterday when he urged the farmers to grow more beans. It is a well known fact that beans superior to the imported article can be grown in this province. Yet each year large quantities are brought in from outside points. Let there be greater production of beans on the farms of New Brunswick this year.

The Newcastle Advocate hands this one out to our old friend Commodore Stewart and his paper, the Chatham World: "The editorial expressions of the Chatham World would be less ridiculous if they showed a little more common sense and reflected a little less of the ultra cleverness of a pedantic old peacock." It is the Commodore's next move.

Through Our Sieve

Jack Frost, the snow maker, started the greater production campaign.

Surely the May-plower will be more popular than the May-flower this year.

Turks are now retreating in the direction of Hit—not a safe hit either.

Constantine appears to be in a fair way to find out when and how an ultimatum is ultimate.

One of the problems of increased production is how to beat the potato bug and cutworm at the game.

In the food stress New York refers to "Irish turkey." It turns out to be corned beef and cabbage.

Dollar wheat caused wild excitement and the band came out. Two-dollar wheat gets a paragraph. Three-dollar wheat makes us speechless.

Golf is all right, but there is no exercise more drastic and soul-satisfying than putting in an acre of potatoes before breakfast.

Some Conservatives are taking free wheat like Squeers' boys took sulphur and molasses. They don't like it, but they swallow it.

TELLS JUST WHY HE RECOMMENDS THEM

Manitoba Man Found a Cure in Dodd's Kidney Pills.

Heart Trouble and Sore Back Were Two of His Ills—The Others Also Came from Sick Kidneys and Dodd's Kidney Pills Drove Them All Away.

Ledwyn, Man., May 4.—(Special) "I recommend Dodd's Kidney Pills to everyone who suffers." Thus does Joseph Homenko, a well known farmer living near here, proclaim his confidence in the great Canadian kidney remedy. Mr. Homenko's confidence is born of his own experience.

"I suffered for thirteen months from sore back and heart trouble," he states. "My trouble started with a cold. My joints stiffened. I was troubled with headaches and my sleep was broken and unrefreshing. My appetite was fitful and I was always tired and nervous. My skin had a harsh, dry feeling and it itched and burned at night.

"My limbs were swollen, heart flutterings added to my anxiety and my back pained me terribly. Then I began to use Dodd's Kidney Pills and they helped me so that I kept on taking them till I used 28 boxes in all. They cured me."

Every one of Mr. Homenko's symptoms is a symptom of kidney trouble. If you have any of them, Dodd's Kidney Pills is the remedy.

Mr. D. S. Curtis, of Brunswick, Me., is at the aBrker House.

THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since Taking "FRUIT-A-TIVES".

MR. MARRIOTT
73 Lees Ave., Ottawa, Ont.,
August 9th, 1915.

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-tives', I thought I would try them. The result was surprising. During the 3½ years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives', and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain".

WALTER J. MARRIOTT.

50c. a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

CORNER IN WHEAT MARKET AT WINNIPEG

Ottawa, May 4.—A corner of the Winnipeg wheat market which is causing wild fluctuations in prices may result in government action to protect dealers and the public. This corner has been unintentionally brought about by the agents of the British wheat commission who have been unusually large purchasers of contract grades of wheat. There is not sufficient contract wheat available to fill the orders placed by the British buyers and the dealers have been caught "short." They now seek to be relieved from their contracts, promising to deliver all available contract grades and to make up the balance out of the lower grades at a price based on their milling value.

Grain men state that No. 4 grade is almost as good for milling purposes as No. 3 and if the British commission will accept delivery of No. 4 they can carry out their contracts.

Action Threatened. Sir Thomas White told parliament yesterday that the Winnipeg corner was causing an artificial inflation in the price of both wheat and flour and that he had cabled Sir George Perley to take the matter up with the British wheat commission and insist on action being taken at once to relieve the situation. If such relief is not afforded, said the finance minister, the government will have to take such further action as it may deem in the public interest.

The condition in Winnipeg was forecasted by the statement made by Sir Thomas White in the budget debate on free wheat to the effect that the British commission had been buying only the higher grades of wheat, and consequently the export demands for lower grades had practically ceased. The minister of finance also stated that the British government controlled the greater part of the Canadian wheat surplus so far as it has been marketed by the farmers.

FOR INCREASED PRODUCTION.

Retail Merchants' Association Asks for Instructions from the Department of Agriculture.

The Retail Merchants' Association of Fredericton last night decided to assist in the campaign for increased production. After a long discussion the following resolution was passed on the motion of Mr. D. E. Crowe, seconded by Mr. J. J. Weddall: "The Retail Merchants' Association, realizing the importance of increasing the production of food in the City of Fredericton and surrounding district, hereby calls upon the Provincial Department of Agriculture to inform us at once how he can best serve this purpose, and we promise to endeavor to secure the co-operation of our employees, and to give our thorough support towards supplying by every means in our power, labor and material to make the scheme effective.

WOMEN'S AILMENTS

Come From the Heart and Nerves.

Young girls budding into womanhood who suffer with pains and headaches, and whose face is pale and blood watery, will find Milburn's Heart and Nerve Pills build them up.

Women between the ages of 40 and 50, who are nervous, subject to hot flushes, feeling of pins and needles, smothering feeling, shortness of breath, palpitation of the heart, etc., are tired over this trying time of their life by the use of this remedy.

Milburn Heart and Nerve Pills have a wonderful effect on a woman's system, making pains and aches vanish, bringing color to the pale cheek and sparkle to the eyes.

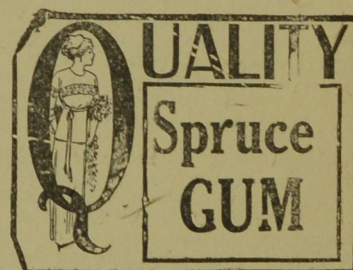

The old, worn out, tired out, languid feelings, give place to strength and vitality, and life again seems like living.

Mrs. Alfred Winter, Castor, Alta., writes: "I would like every woman who is suffering from nerves or heart trouble to know how much Milburn's Heart and Nerve Pills have helped me. For two years I kept a hired girl, and was doctoring all the time. After having taken four boxes of your pills I am able to do all my own work. I would especially recommend them to women between 40 and 50, as at that time they are more liable to be far from well. One of my neighbors knows how they helped me, and she is now using them."

Milburn's Heart and Nerve Pills are 50c., or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Mr. H. G. Moore, of St. John, is at the Queen Hotel.

Mr. James Ross, of St. John, is at the Queen.
