OF INTEREST TO WOMEN.

SEASONABLE RECIPES.

At the time of year when ripe fruit
 is plentiful, the system craves the
 tart juices and requires less of the
 starches and fats than when the ther-
 mometer is low. The best way is to
 serve them uncooked, but no matter
 how delicious they may be, one desires
 variety now and then.

Raspberry Tapioca.

Soak a cup of tapioca until tender.
 The minute tapioca requires only a
 short time, but many prefer the pearl
 tapioca, which should be soaked sev-
 eral hours. To one cup of the tapioca
 allow two cups of cold water. When
 ready to cook add two more cups of
 water, put the tapioca in a double
 boiler and cook until clear. Stir into
 it a cup of sugar and when dissolved
 take from the fire. Have ready picked
 over two cups of raspberries and as
 soon as the tapioca becomes only luke-
 warm stir in the berries. Set the dish
 away to become ice cold and serve
 with cream. If the berries are tart it

is well to pass powdered sugar with
 them.

Raspberry Cream.

Heat two cups of rich milk in a
 double boiler. Moisten four table-
 spoons of flour with a little cold milk
 to a smooth paste. Add this to the hot
 milk and stir until the mixture is thick
 and smooth. Press in a sieve or a
 vegetable press enough raspberries,
 to make a cup and a half of juice; add
 this to the thickened milk after you
 take it from the fire, and mix in one
 cup of sugar. Set it aside to become
 cold and serve in small cups or sher-
 bet glasses. If cream is at hand the
 dish is made more elegant by a tea-
 spoon of whipped cream on the top of
 each glass.

Blueberry or Blackberry Roll.

Make a good dough by sifting a tea-
 spoon of baking powder and a salt-
 spoon of salt with three cups of flour,
 chop into it a tablespoon of shorten-
 ing and mix to as soft a dough as can
 be handled with milk and water in
 equal parts. If too stiff the result will

LITTLE BOY HAD
DIARRHOEA

Only Blood Passed Bowels.

Diarrhoea, dysentery and summer
 complaint are responsible for more
 deaths, especially of children, during
 the summer months, than any other
 form of disease.

Diarrhoea does not need to persist
 for any length of time until the whole
 system is weakened, and no other dis-
 ease so quickly undermines the
 strength and brings about a condition
 of prostration and often collapse.

Mrs. E. Stoddart, Lower Clark's
 Harbor, N. S., writes: "When my little
 boy was a year and a half old he was
 taken awfully bad with diarrhoea. I
 ad the doctor, but he got no relief. One
 day while I was at work, I picked up a
 piece of paper, and on it was an adver-
 tisement for Dr. Fowler's Extract of
 Wild Strawberry. After trying a bottle
 he began to get better, and the second
 one made a cure. I would not be with-
 out it in the house for my little ones.
 I am proud to say "Dr. Fowler's" saved
 my little boy's life."

Dr. Fowler's Extract of Wild Straw-
 berry has been on the market for the
 past 72 years, and there are many imi-
 tations of this wonderful bowel com-
 plaint remedy. See that you get the
 genuine when you ask for it. Price 35c.

 liberally with sugar and roll up the
 dough with the fruit inside, pinching
 the ends of the roll together that the

**The Great Importance
of Prohibition!**

Hon. Nicholas Iserguine
 Inspector of State Sav-
 ings Banks of Russian
 Empire states, in regard
 to effect of Prohibition:
 "We have about dou-
 bled in less than
 three years the amount
 accumulated in seventy-
 three years previous to
 the outbreak of the war,
 for our State banks are
 about seventy-five years
 old."

Former Ator.-Gen. Baxter
 in introducing the Prohibition
 Act said: "I do not think that
 I need discuss the question of
 whether Prohibition prohibits.
 That depends upon you and
 me. If those in the community
 who hold the moral force under
 their particular care—if they do
 their duty—if they let petty
 things go and if they stand
 back of the men who live under
 the law and persistently and
 insistently urge these men to
 respect the law—for without
 respect the law becomes of no
 value whatever—to respect this
 law as they would any other
 law, if the moral and social
 leaders of our country will but
 rise to the occasion and do their
 duty, there is no fear but that
 a prohibitory law, like any
 other law, can be enforced
 within the Province of New
 Brunswick."

Premier Foster

as leader of the Opposition, in
 speaking of Prohibition said:
 "That in his opinion the Tem-
 perance question is not a ques-
 tion of party politics. Prohibition,
 after all, affects everyone
 directly or indirectly and is
 therefore too big and broad a
 matter to be dealt with politi-
 cally. The law is to-day on the
 Statute Books, and if we are
 returned to power when May
 1st comes the Prohibition bill
 will be put into effect, and we
 will enforce it as far as it lies
 in our power to do so."

In these critical days when governing bodies the
 world over are imploring everyone to increase
 production of food, when our armies are crying
 for men, munitions, ships—when every resource,
 however small, is a vital asset—waste is intolerable.

New Brunswick stands second to none in her
 loyalty to the vital cause of the Empire. Of her
 sacrifices of precious boys, her wealth and
 resources she is justly proud. With effective
 Prohibition laws in force throughout the province,
 she will tolerate no waste due to lax enforcement
 of Prohibition. Her resolve, however, demands a
 united public opinion in favor of strictest
 enforcement.

Help to Enforce Prohibition

The "PIONEER" (published in Toronto) is authority for the statement that
 in Canada the total value of foodstuffs destroyed by the liquor traffic in 1916
 was approximately \$4,244,090.22. Add to this the immense loss of trans-
 portation facilities, clogged and hindered by carrying the grain to
 destruction, and again conveying the product of the breweries and distil-
 leries to make precious men less efficient in this solemn hour!

Russia—

Some idea of the enormous effect
 of Prohibition is afforded by the
 wonderful example of Russia. The
 whole country is "bone dry." The
 people declare they never will back-
 slide to vodka. In spite of the fact
 that millions of producers have been
 in the army the savings of the people
 enormously increased. In 1912 and
 1913 they were saving, per year,
 about \$20,000,000. In the first five
 months under Prohibition they saved
 \$60,000,000. In 1915 the banks took
 in \$265,000,000. For the first half
 of 1916, the Russian people saved
 \$300,000,000!

The shortage of revenue from the
 tax on vodka is gradually being
 made up by increase in other
 revenue, due to the savings and
 greater efficiency of the people. In
 spite of the ravages of war there is
 less begging and misery. "With
 vodka on her back, she could never

have held the Germans back. Russia
 has helped to save Europe."

On May 1st 1917, the putting into
 effect of the Prohibitory Act in New
 Brunswick placed in our hands a
 powerful instrument. The success
 of Prohibition depends upon our
 use of the instrument, just the same
 as success in battle depends upon
 the general's intelligent, vigorous
 use of his forces.

No matter where you live, whether
 your district is under the Canada
 Temperance Act or under the new
 Prohibitory Act, you are urged to use
 every legitimate means within your
 power of support and aid the officers
 of the law in their sworn duty of
 enforcement.

Use your influence to build up such
 a weight of public opinion in favor
 of strictest enforcement of both the
 Scott Act and the Prohibitory Act
 that the success of Province-wide
 Prohibition will be permanent.
