CHINESE KILLED IN THE TONG WAR

San Francisco, March 6.—Six Chinese are dead today, one is reported dying, one seriously wounded, three onlookers injured, as and result of the "Tong" war which started in five Pacific coast cities yesterday. Two of the killings took place here and one in Stockton, one in Oakland and one in San Jose.

A number of Chinese in Seattle were attacked, but there were no fatalities.

After a few years of marriage all one's originality appears to be concentrated on the vital thought of something new for dinner.

ORGANIZER OF WOMEN'S LABOR

Mrs. J. W. Bell.

WOMEN workers have been so successful in the factories in Great Britain that they are being tried in the great workshops of Canada. Everywhere they are proving themselves to be keen rivals to men, and it is now evident that the home is not the only place where a woman may excel in work calculated to advance the welfare of mankind. The Canadian Pacific Railway Co. has sent thousands of its male employees for service in Europe, and as a consequence male workers have become scarce in various departments of industry. In 1915 women workers were introduced into the Canadian Pacific Angus Shops at Montreal. At present there are two hundred of them engaged in the shops.

These women workers have been organized and work under the supervision of Mrs. J. W. Bell, wife of Mr. Bell, superintendent of the Montreal Windsor Street Station building. Mrs. Bell is enthusiastic over the success of the efforts of those entrusted to her charge, and considers that the field of manual labor requiring skill and application is one in which women will yet exercise a wide influence.

A visit to the women workers in the Angus Shops is inspiring. The women punctually begin their labors at 7.15 a.m., and finish at 4.45 p.m. Allowing for the lunch hour, between 12 and 1 o'clock, they work eight and a half hours a day. Watching the women trip along cheerfully to the scene of their exertions one might

LUMBER EMBARGO NOT LIKELY TO LOWER PRICES

Representative of Upper Province Lumbering Concern Talks on the Situation—Timber for War Will not be Debarred—Embargo Will Operate Against Hard Wood.

(Montreal Star.)

The embargo placed by the British government on the importation of timber into Great Britain will not send down prices of lumber and timber products in Canada. That is what C. B. Graddon of the Graddon Lumber Co. told the Montreal Star when reminded that Canada exported nearly \$13,000,000 worth of lumber to Great Britain last year.

"A huge proportion of the wood that was taken to Britain last year was for war purposes," said Mr. Graddon.

"There is no embargo against wood for war purposes, and the Admiralty will probably go on taking ships laden with lumber over to Britain."

The army uses great quantities of wood for sheds, temporary barracks, temporary hospitals, and packing cases; miles of trenches are lined with wood; dugouts are reinforced with wood; wooden footpaths are made across the Somme mud.

Mr. Graddon thinks there is enough lumber in England at the present time to last eight months or a year.

"It was always like that," he told the Star. "Britain never runs short. Sometimes there is a year's wood supply on hand. But even if the Admiralty prefers not to risk ships in the lumber trade for a few months, the market for Canadian lumber will not be eased. Canadian lumbermen have enough orders to keep prices at their present level for a year or more. In fact, I don't think prices will ever fall to what they were before the war."

"Shantymen cost more nowadays. They get higher wages and they demand better food and accommodation. Pork, the principal fare in the shanties, now costs \$10 a barrel more than it did before the war. You know the

difference in the cost of potatoes. And shantymen are not what they were. They used to eat good plain food, and lots of it, with apple sauce as a luxury on Christmas day. Now they want stewed apricots and prunes and raisins and currant cake—never a meal without cake.

"All these things cost money, and make lumber dear."

About 25 per cent. of the lumber exported by Canada to Britain is hardwood. A little more than \$3,000,000 worth of Canadian hardwood, mostly birch, was imported by Britain last year.

Price of Furniture.

The embargo will operate chiefly against this product, of course, because it is little used by the army; but it will not affect the price of furniture and other hardwood goods on the continent, Mr. Graddon thinks. The cost of labor and the general high cost of living will keep up the price of furniture, he says.

One good thing the embargo may do, according to Mr. Graddon. It may relieve the pulp situation. But it will not relieve pulp prices, because contracts have been made for months ahead and the demand will still be greater than the supply.

"If we export no wood to England for two years," said Mr. Graddon, "we can keep on filling pulp orders that we already have."

Great Britain last year got only one-third of Canada's lumber. About \$20,000,000 worth of Canadian lumber went to the United States. On the other hand, Canada's contribution of lumber to Britain, according to Mr. Graddon, is only a drop in the bucket. Britain gets most of its lumber from Sweden and Russia.

25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make It Thick, Wavy and Beautiful—Try This.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy, and have the appearance of abundance. Its incomparable gloss and softness; but what will please you most will be that just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

HAVE YOU CALCULATED WHAT YOU ARE WORTH?

You Capitalize Your Wages and Then Do Some Figuring.

(Leslie's Magazine.)

Have you any idea what you are worth? Did you ever capitalize your wages and figure it out? This is the way to ascertain how much your labor is really worth.

For instance, a man who has saved \$20,000 and invested it at 5 per cent. receives an annual income of \$1,000 a year, or about \$20 a week.

The clerk in the office or the workman in the factory who gets \$20 a week, therefore, receives the income at 5 per cent. on an investment of \$20,000.

He is a \$20,000 man—that is, he is getting as much, week by week, as the man with \$20,000 who depends solely upon the income from his investments and who does not work for a living.

The man who earns \$40 a week has about the same income as the investor with \$40,000 put out at interest at 5 per cent.

Labor is capital. It has a market value. It can be called a commodity, because it can be sold by its owner the same as any other possession he may have.

These simple facts. The demagogue who preaches unreason and unrest and unhappiness among working men should now and then be reminded of them. What is he worth to you?

ANOTHER GERMAN PLOTTER ARRESTED

Hoboken, N. J., March 6.—Another man was taken into custody here today by the police on suspicion of being implicated in a plot to blow up munition factories with Fritz Kolb, a German who was arrested on that charge yesterday, and in whose room were found two bombs and materials for making others. The identity of the second man was carefully guarded by the police, who said they had reasons for keeping him under cover until the time came to arraign him. The police were planning to arraign Kolb some time today. Subpoenas were issued for witnesses against him. He was kept under watch by special guards all night.
