GREAT BATTLE IS RAGING NEAR TOWN OF ST. QUENTIN

The Mining Centre of Lens Surrounded
By British Troops---An Adjoining Town
Captured From the Enemy on Saturday
---1500 Dead Germans Left in Front of
British Positions---The Allies Making
Substantial Progress on a Wide Front.

London, April 15.—British troops are now within a few hundred yards of the town of St. Quentin. Durling Saturday, says the official statement from British headquarters in France Saturday night, Field Marshal Haig's men fought their way south and east of Fayet, one mile northwest of St. Quentin. The village of Gricourt, one mile north of Fayet, was carried at the point of the bayonet. The Germans are reported to have resisted stubbornly and suffered many killed and wounded, in addition to the loss of more than 400 prisoners.

The mining centre of Lens is now virtually surrounded on three sides by the advancing British troops. The town of Lievin, southwest of and adjoining Lens, was captured Saturday morning, and the village of Cite St. Pierre, northwest of Lens, also was taken. Along the entire front from the Scarpe river to south of Loos, the British pressed forward and have reached points two to three miles east of the Vimy Ridge. Further gains were made today.

Fifteen hundred German dead were left in front of the British positions after the unsuccessful attack delivered early Sunday morning by strong German forces along a six mile front on the Bapaume-Cambrai road, according to the official report from Field Marshal Haig tonight.

The text of tonight's communication reads:

"Fighting again today, northwest of St. Quentin, we gained ground east and north of Gricourt and captured some prisoners. East of Lievin our troops are approaching the outskirts of Lens.

"Further particulars of the enemy attack this morning astride the Bapaume-Cambrai road show that his losses were even heavier than at first reported. The attack was pressed with great determination, under a heavy fire from our infantry and artillery. In addition to the three hundred prisoners captured, fifteen hundred dead Germans were left in front of our

positions. "Severe fighting occurred in the air throughout the day. Four German airplanes were brought down and eleven others were driven down by our machines. Ten of our airplanes are missing."

Enemy Back in Lagincourt.

An earlier statement follows: "Early this morning the enemy attacked strongly on a front of more than six miles astride the Bapaume-Cambrai road, under cover of a heavy bombardment, against our new positions from Hermies to Nersuil. The attack was everywhere unsuccessful except at Lagincourt, where after heavy fighting the enemy gained a foothold. Our counter-attack forthwith drove him back out of the village, and his troops, retiring under our artillery, suffered very heavy losses. More than 200 prisoners remained in our hands.

"North of the Scarpe we captured enemy defences east of Lievin and our troops are pushing on in the direction of Lens."

The text of Saturday's statement is as follows:

"The town of Lievin, southwest of and adjoining Lens, was captured by our troops. Considerable quantities of war material have fallen into our hands.

"In the afternoon we seized Cite St. Pierre, northwest of Lens, and our troops pressed on along the whole front of the Scarpe river to the south of Loos and reached points two to three miles east of Vimy Ridge.

"Our troops everywhere have maintained the positions previously captured and inflicted serious losses on the enemy.

"In the course of a series of fierce encounters, all of which resulted in our favor, our troops fought their way forward to within a few hundred yards of the town of St. Quentin, and carried the village of Gricourt at the point of the bayonet. The enemy resisted stubbornly and in addition to the loss of over 400 prisoners, suffered heavily in killed and wounded."

PRAISE FOR PRESIDENT WILSON BY BRITISH PRESS AND PUBLIC

LONDON, April 16.—President Wilson's appeal to the American people is given great prominence in the evening newspapers, which print the proclamation textually. "It goes straight to the heart of the great war problem," says the Westminster Gazette, "and will be read with great appreciation by the allied nations. No message addressed by their governments to any of the countries at war," adds the newspaper, "has better combined an appeal to the heart with shrewd, practical counsel, and shown a keener eye to the fundamentals of the situation."

A Divine Benediction.

Manchester, April 16.—A special service will be held in Manchester Cathedral next Friday to "invoke a divine benediction on the strengthened ties between Great Britain and the United States." The Lord Mayor will attend in his official capacity as representative of the city.
