## NEW WRINKLES FOR THE HOME.

Should the knob come off the lid of a pan or kettle, a good substitute may be made as follows: A screw should be slipped through the hole, with the head to the inside of the lid, and a cork screw on the protruding end. This knob will not get hot.

When you wash your door panels of lace or net applique, to make them fit door glass wash, starch and stretch and tack on the door while wet. In doing this you will not have the disappointment of having them too small when dry.

A useful clothespin bag can be made of strong material wide enough to allow a wooden clothes hanger to be stitched to the top edge; make a long slit in the centre of the front piece so that the pins are easily accessible. This bag can be hooked on the line and slid along as required.

Cubes of sugar rubbed over the surface of an orange will retain the orange flavor by absorbing the oil.

Sugar thus prepared and used in tea imparts a most delicious flavor suggesting orange peels.

If you soak an orange in hot water the peel will come off like a glove and it will be very sweet.

Grease sweet potatoes before they are put in the oven to bake. They will bake in half the time and the skins will be soft.

## RAISIN BUNS—A NEW WAY.

Sift one quart of flour with four level teaspoonfuls of baking powder, one-half teaspoonful of salt and two tablespoonfuls of sugar; rub in two tablespoonfuls of shortening and mix with

sweet milk to a dough to roll. Roll out thin, sprinkle with sugar and chopped seeded raisins, roll up like a jelly roll cake and with a sharp knife slice across into inch pieces, lay these on a buttered tin and bake in a quick oven until brown.

## MACARONI AND CHEESE.

One-third package macaroni, one and a half pints of milk and one-half pint water, one half cup grated cheese, butter size of walnut, four level tablespoonfuls of flour, salt to taste. Make white sauce of milk, butter, flour and salt. When partly cooked, stir in the grated cheese and finish cooking, stirring well to melt the cheese. Cook the macaroni in boiling water until tender. Stir cooked macaroni into hot sauce and bake in slow oven about thirty minutes.

No Advance  
in 3 Years

With war-time prices so terribly  
high for nearly every article of  
food, it must be a particular satisfaction  
to those who love good coffee to know  
that there has been no advance in the  
price of Red Rose Coffee for three years—  
and the great increase in the sale of Red  
Rose Coffee this year shows that the price  
is appreciated.

People everywhere seem to be using much  
more coffee than they did before.

Red Rose Tea is economical on account  
of its superior quality—but Red Rose  
Coffee is economical both on account of  
its quality and price, a combination hard  
to maintain in war-time.

## The Employer's Course

The Proclamation issued under the Military Service Act calls Class One men—bachelors and widowers without children (not otherwise excepted) who were 20 years old on the 13th Oct., 1917, and whose 34th birthday did not occur before Jan. 1st, 1917.

The claim for exemption may be made by the man himself, by his employer or by a near relative. So far as practicable, not more than one claim should be made in respect of any man. For reasons stated in the next paragraph, the claim is often best made by the employer.

## When Employer Should Make Claim for Exemption

Where claim for exemption is based on the assumption that it is in the national interest that the man should instead of being employed in Military Service, be engaged in other work in which he is habitually engaged, it is usually preferable that the claim be made by the EMPLOYER, inasmuch as the decision of the claim will involve, amongst other things, a consideration of the nature of the business, the number of men employed, etc.

## Medical Examination

It will simplify the employer's problem if all Class One men in his employ present themselves for Medical Examination at the nearest Medical Board Centre.

Upon examination they will be placed in Medical Categories—A, B, C, or E. Class One men placed in Categories B, C, or E satisfy immediate requirements if they attach the medical report they will receive to their claim for exemption.

Where an employer claims exemption for an employee on the ground that it is expedient in the national interest that the man should continue in the work in which he is habitually engaged, he should attach to the claim for exemption a statement and a schedule as follows:—

## The Employer's Statement

Total number of employees, grouping them according to their respective occupations and qualifications, and stating the number in each group. Indicate the possibility or otherwise of replacing the labor of Class One men with the labor of those not in the statutory class called up, or of women; also the extent to which the withdrawal of men in the statutory class would affect the business, the reason for considering that the carrying on of the business is in the national interest, and such other facts and circumstances as may appear to be relevant.

## The Employer's Schedule

This should state the names, ages and occupations of all Class One men employed, noting against each name whether or not claim for exemption is being made, and whether in the employer's opinion, exemption if granted, should be conditional on the man's continuing his present occupation, or whether it would suffice if exemption were granted for one, two or more months, as the case may be.

## Forms for Exemption

These forms may be obtained on request from any Postmaster who will transmit the forms, when filled in, to the Registrar.

Issued by the Military Service Council.
