OF INTEREST TO WOMEN

BREAD IN A BOWL.

Enough for Two as Easy to Make as Muffins.

Many persons seem to think that bread can only be baked in large batches. Really a single loaf is very easy to manage. It can be mixed in a cake bowl and takes no more time or effort than a batch of muffins.

In making a small batch of bread it is not worth while to divide the yeast cake unless you are going to make a second batch very soon.

The additional yeast does no harm and it facilitates the rising process in a small batch of bread.

Single Loaf of Bran Bread.

Scald a pint of milk and water. Pour this into a mixing bowl and add a ¼ teaspoonful of salt and two tablespoonfuls of shortening.

Add also a tablespoonful of sugar—brown preferred. Have the yeast cake dissolved in a quarter cup of lukewarm water and when the mixture in the bowl is lukewarm add the dissolved yeast.

Now measure out in another bowl three cups of white flour and two and a half cups of bran. Mix the bran and flour and add about half to the yeast and milk mixture. Cover with a clean paper or towel and let the bread rise for two hours in a warm place.

Then add the rest of the bran and flour which should have been kept covered in a warm place, so as to be of the same temperature as the dough. Mix thoroughly, using a heavy large spoon for the purpose. Grease a large bread pan and pour the batter—which is somewhat more moist than a usual white flour—into the bread pan. Bake in a moderate oven.

Reduce any Bread Recipe.
Practically any bread recipe may be

rewritten for a small amount. It is always better, however, in using a large recipe in a smaller amount to sit down composedly and rewrite it into halves, thirds, quarters or any fraction you wish.

The divisions should be accurate with all ingredients save the yeast cake, so it is better to do the reducing before beginning to make the bread, to avoid confusion.

THERE IS NOTHING FOR THE LIVER SO GOOD AS Milburn's Laxa-Liver Pills.

They will regulate the flow of bile to act properly on the bowels, and will tone, renovate, and purify the liver, removing every result of liver trouble from the temporary, but disagreeable bilious and sick headaches, to the severest forms of liver complaint.

They are small and easy-acting, do not gripe, sicken or weaken like the old fashioned, nauseating, griping purgatives.

Mrs. A. Kirk, 53 Yorkville Ave., Toronto, Ont., writes: "I have tried and tested Milburn's Laxa-Liver Pills, and have received good results, for which I am very thankful. I took them for liver trouble. I came out of the hospital on May 3rd, last, after having had a serious operation which might have been saved had I taken your remedy sooner. I have given some to my sister for biliousness and sick headache, and she has found great relief. A lady who lives in my house has started to take them. I will do my best to recommend them to all my friends."

Price 25c at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Cockerels For Sale

I have for sale a limited number of Barred Plymouth Rock cockerels from stock procured at the Ontario Agricultural College. The poultry department of this college is under the direction of Prof. W. R. Graham, who is recognized as America's foremost poultry expert. The egg record is 310 and the average 175. This is undoubtedly the class of bird for those who want egg production. Read what Mr. J. W. Clark of Cainsville, Ont., said in an address delivered before the Toronto Poultry Association on Oct. 11th of this year:

"At the Ontario Agricultural College they have Barred Rocks and several other breeds which are the best on this continent. That is saying a lot and I know from experience."

I also have for sale a number of White Leghorn cockerels from my prize winning stock. They belong to a splendid laying strain.
