

# NEW LIFE SAVING DEVICE TO BE USED ON THE SEA

**Canadian Inventor Has Secured Patents in Fourteen Countries of the World-- Has Been Tested Before the Royal Humane Society and Before Various Swimming Associations and Proved Satisfactory.**

Montreal, Sept. 26. — That Great Britain and France show their interest to all development of science designed to provide more security and protection for their sailors, soldiers and travelers on the ocean is found in the fact that special invention committees have been instituted by two nations to investigate devices submitted to them by inventors.

The fact has been emphasized the last week in Montreal, when the Safe on Sea Company was the recipient of two important communications, one from the government of the French Republic, the other from the British Invention committee.

tor secured patents in fourteen of the principal countries of the world on a new life-saving garment "proof against water, wind and cold," and thus protecting the wearer from exposure and its effects and enabling him to emerge from water warm and dry, notwithstanding cold water and strong wind.

Being considered as a new invention only, the new device did not draw much attention until demonstrations were made in Canada, and certified by persons prominent in all circles of life.

Experiments were made in the River St. Lawrence by children, males and females of all ages, who volunteered to jump from a steamer into the middle of the river, and remain in the water for hours to emerge perfectly warm and dry.

Such experiments having been made before members of the Royal Humane Society and various swimming associations and proven most satisfactory, apparatus were sent all over the world with the result mentioned above.

The letter received from the French Government by the Company states that the new device S. O. S. has been admitted to compete at the permanent exhibition of life-saving inventions to be held in Paris under the auspices of the Ministry of Arts and Trades and it asks the company to call upon all other inventors in the

same line, to send a model of their invention to the exhibition committee.

The British Invention Committee has also sent a special representative and the visitor is now returning perfectly satisfied with the trials to which the S. O. S. device has been subjected.

The Canadian government as well as the United States are also making inquiries into the new invention and for that purpose an opportunity will soon be given to the inventors to test their invention on the rough sea waters.

Arrangements have been completed for demonstrations to be made shortly all through the Maritime Provinces from on board ocean liners.

## INCREASE IN PAYMENTS BY PATRIOTIC FUND

**Total for Fredericton District in September \$4,791.10--- Slight Increase in Average per Family.**

Following is a statement showing the expenditure on account of the Canadian Patriotic Fund in the Fredericton District for the month of September, 1917:

No. of cases Municipality	Amt. family	Ave. per family
135 Fredericton	\$1,980.00	\$14.66
99 York County	1,608.00	16.24
40 Sunbury County	580.50	12.01
29 Marysville	468.50	16.15
4 Outside	35.50	8.87
307	\$4,672.50	
General average per family, excluding expense . . . . .	\$15.21	
General average per family including expense . . . . .	15.60	
Relief . . . . .	\$4,672.50	
Expense . . . . .	118.60	
	\$4,791.10	

What mankind needs is a collar button that will transform itself into a searchlight when it rolls under the dresser.

## ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION

"Pape's Diapepsin" fixes sour, gassy, upset stomachs in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now this minute, and rid yourself of stomach misery and indigestion in five minutes.

In August the total number of families was 311, total expenditure \$4,698 and average per family without expense \$14.77 and with expense \$15.10. This month shows a slight increase in average amount and in the total.

Before putting away any spare silver, clean it thoroughly, then wrap it in dark blue paper with camphor balls in the parcel, and it will be found bright even months afterward.

### SHERIFF'S SALE.

## Don't Stop To Count Them

There are 250 cups of strong, rich tea—all from a pound package of Red Rose. That seems a very large number, but then you must remember that Red Rose Tea is composed chiefly of the strong, rich Assam teas from Northern India, which yield an astonishing amount of tea essence.

Why! You can brew five generous cups from about one cent's worth of Red Rose. Doesn't it seem a real war-time economy to use Red Rose Tea, which tastes better and goes further?

## THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

**DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.**

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
