## OMINOUS OUTLOOK FOR THE FUTURE IN GERMANY

Empire Close to Bankruptcy—War Loans Require Nearly All the Nation's Income.

New York, March 16.—Members of Ambassador Gerard's party, after arriving at Havana, were authority for these statements as to Germany's situation:

Food is very scarce, infants and aged persons are particularly susceptible to lack of proper nourishment, and their mortality is increasing.

Germany hopes her present supplies of food will eke out until this year's harvest. But this year's harvest promises only a fair crop.

Insufficiency of nitrates and metals is interfering with the output of munitions.

How thoroughly Germany is searching for metals in indicated in the confiscation of even the pewter tops of beer steins throughout the empire; also of organ pipes.

Germany is united on the submarine war and the belief that it will win against the Entente.

The Empire is close to bankruptcy, and this is one of the most ominous signs of possible breakdown. War loans already made require in interest almost the whole of Germany's income.

Confiscation of private property, to an extent at least has been considered by the Government; either this will be necessary or Germany must repudiate her war debts.

Conscience is the watchdog which barks at sin.

Every fool knows how to attend to other people's business.

Justice often pursues with a leaden heel and then smites with an iron toe.

Man is the only animal that goes out systematically to hunt for trouble.

## Doctor Tells How to Strengthen Eyesight 50 per cent. in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa., Sept. 6.—Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that, according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses, and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able

## ENGLAND IN THIS AND OTHER WAR TIMES

From Actress to Taxicab Driver—A Remarkable Inheritance—Stories of Tennyson and Gladstone.

Miss Evelyn Newby, one of the five women taxicab drivers in Portsmouth, was taken from the stage.

Nearly half of the 2,400 or 2,500 conductresses now in service are former domestic servants, said H. E. Blain, superintendent of the London General Omnibus Company, to the London Daily Mail. "One of our conductresses is a major's daughter. Any number of them are ex-shop and office assistants. Most of the complaints we get about alleged 'impoliteness' on the part of our girls come from women."

A remarkable case of inheritance of the abnormal fingers possessed by the first Earl of Shrewsbury, related by Dr. H. Drinkwater to the Royal Society of Medicine, is reported in the Lancet. In a direct male descendant of the Earl the ring and little fingers of both hands had only one joint, the first two bones being united and all the toes except the great one were similarly affected. This man's father and paternal grandfather showed the same abnormality, and when the body of the first Lord Shrewsbury was exhumed in 1874 it was found that his fingers were in like condition. As he died in 1453, this peculiarity has come down nearly 500 years, through fourteen generations.

From the Manchester Guardian: To his duties as chairman of the committee on measures for settling soldiers in the colonies after the war, Lord Tennyson will take with him the experience which he gained first as Governor of South Australia and then as Governor General of the Commonwealth. As becomes the son of a great poet he has himself a turn for verse, and it was his first sight of the Australian shores which evolved one of his few published poems. He used to tell how at an Australian banquet he said of Lord Roberts that "he had never hesitated to tell the truth to serve the army," and how next day he was described in a local newspaper as having said that "in order to serve the army Lord Roberts never told the truth."

Lord Tennyson accompanied his father and Mr. Gladstone on the famous Scandinavian cruise, and he has told how at the royal castle of Swedensborg, to which they were invited, the Tsarina, who was present, paid the late Lord Tennyson some pretty compliments, whereupon he, being short-sighted, mistook her for a maid of honor, and, patting her on the shoulder, replied, "Thank you, my dear." During the voyage Gladstone told the son that he desired to offer his father a barony, and inquired if he thought he would object. The son thought that he would not. Gladstone said the only difficulty in his mind was that the poet might insist upon wearing his wide-awake in the House of Lords.

# BRITAIN—CALLS TO CANADA—

## THE FACTORY THE FARM

### She must have Food—

for her Armies in the Field—for her Workers in the Factory—in the Munition plant—in the Shipyard—in the Mine.

## THERE'S DANGER IN SIGHT—BUT YOU CAN HELP

### DO YOU KNOW—

that the rapidly rising price of food stuffs means that the World's reserve supply is getting small?

### DO YOU KNOW—

that a world-wide famine can only be averted by increasing this supply?

### DO YOU KNOW—

that a "food famine" would be a worse disaster to the Empire and her Allies than reverses in the Field?

### YOU CAN—

help thwart Germany's desperate submarine thrust on the high seas.

### YOU CAN—

do this by helping to make every bit of land in Canada produce—the very last pound of food stuffs of which it is capable.

### AND REMEMBER—

that no man can say that he has fully done his part—who having land—be it garden patch, or farm, or ranch—fails to make it produce food to its utmost capacity.
