CAKE HELPS

When a cake recipe calls for two eggs, and eggs are high, use one egg and sift a tablespoonful of cornstarch with the flour. Dip your spoon in milk when making drop cakes or muffins and the batter will not stick to the spoon; also you can get cakes even sized.

When creaming butter and sugar for cakes and cookies in cold weather add two tablespoonfuls of boiling water, then deduct this amount from other liquids used. Beat hard with a spoon and the mixture will become a light and creamy mass in one-third the time it would otherwise take.

To keep cake from sticking, grease tins with lard and sprinkle with flour. Also put tissue paper in bottom of pans to keep from sticking.

Slippery Layers—In order to keep layer cake from slipping apart after being iced, put a toothpick at each corner. Remove them after it is cold.

When baking loaf or fruit cake which is apt to rise in the middle too much to look nice make it higher around the edge of the pan than in the center when putting it in the pan. To distribute fruit in cake put nearly half the batter in the tin before adding the fruit. Then put fruit in the remaining batter and put on top of other. The result is a rich cake with the fruit distributed evenly. This is much more satisfactory than dipping the fruit in flour.

To prevent raisins from setting at the bottom of a cake or steamed pudding, first plunge into boiling water and set on stove for two or three minutes, not longer than that. Then take them out of the water and stir thoroughly into the mixture and they will not settle.

UGH! ACID STOMACH,
SOURNESS, HEARTBURN,
GAS OR INDIGESTION

The moment "Pape's Diapiesin" reaches the stomach all distress goes.

Do some foods you eat sit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapiesin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapiesin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorders.

Cockerels For Sale

I have for sale a limited number of Barred Plymouth Rock cockerels from stock procured at the Ontario Agricultural College. The poultry department of this college is under the direction of Prof. W. R. Graham, who is recognized as America's foremost poultry expert. The egg record is 310 and the average 175. This is undoubtedly the class of bird for those who want egg production. Read what Mr. J. W. Clark of Cainsville, Ont., said in an address delivered before the Toronto Poultry Association on Oct. 11th of this year:

"At the Ontario Agricultural College they have Barred Rocks and several other breeds which are the best on this continent. That is saying a lot and I know from experience."

I also have for sale a number of White Leghorn cockerels from my prize winning stock. They belong to a splendid laying strain.
