CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. ROLL OF HONOR

Several thousand officers and employees of the Canadian Pacific Railway Company enlisted for active military duty with the Canadian Expeditionary Forces, and the majority of them are now in Europe, bravely battling for Canada and the Empire. As particulars of Army Reservists are not available, these lists of those who have given up their lives for their country or been wounded in action are necessarily incomplete, and do not therefore indicate fully the extent to which the Company's officers and employees have participated in the great struggle.

Doctor Tells How to Strengthen

Eyesight 50 per cent. in One

Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa., Sept. 6.—Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that, according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses, and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able

to strengthen their eyes so as to be spared the trouble and expenses of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start, and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

A prominent City Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known, to eminent eye specialists and widely prescribed by them. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use in almost every family."

You can order Bon-Opto by mail from the Valmas Drug Co., Toronto, if your druggist has none in stock.

How the common stock of the Canadian Pacific Railway is held has always been an interesting study. During the past few years there has been considerable change in the grouping of the holdings. Baron Shaughnessy, president of the railroad company, has on various occasions furnished *The Monetary Times* with figures showing in what countries the stock is held and to what extent, and also an analysis of the shareholders' list as it stood on October 1st, 1916. This is compared with previous analyses in the above table.

It must be borne in mind, in analyzing the figures that the capital stock of the Canadian Pacific Railway has been increased several times during the period under review as follows: In November, 1909, when \$20,000,000 of additional stock was allotted at 125, the amount of stock outstanding was \$180,000,000. That would be the amount of stock held by the 24,000 shareholders in January, 1911. A further block of \$18,000,000 was allotted in January, 1912, at 150; \$2,000,000 was sold during 1912 at a premium of \$2,880,331.90; and \$40,000,000 was allotted at 175 in January, 1913. In June, 1913, August, 1915, and at the present time, therefore, the full \$260,000,000 of stock has been issued.

In a little more than four years the number of shareholders had increased 24,468, or over 51 per cent. Last year there was a small decrease in the number. In the past few years, a remarkable change has occurred in the number of holders. Whereas three years ago there were 27,000

holders of the common stock, there were in 1915 40,468, an increase of 13,468, or 49 per cent. Last year, the number dropped to 40,237, but still a good record. These figures seem to indicate that the so-called small investor has been in the market during the past three years getting Canadian Pacific Railway stock, the large holdings having been sold to some extent and picked up by small investors. The increase in the number of holders was probably made to a large degree during the latter part of 1915, by those who had faith in the strength of the company and the maintenance of the 10 per cent. dividend. This faith was rewarded. The number of Canadian holders has increased over 161 per cent. in the last four years, and now stands at 6,531. This is an excellent showing for a country which has done more borrowing than investing.

The number of holders in Great Britain in 1915 was larger than two years previously, but smaller than in 1911. Great Britain probably sold to the United States last year. The French and German holdings have dropped considerably. The volume of shares held by United States investors is not very large, only 10.39 per cent. in 1915, a record which was beaten by Canada, which then held 13.64 per cent. of the total. The United States total has been increased most likely by purchases last year from Great Britain.

The figures in regard to Germany are of unusual interest. In January, 1911, and June, 1913, German holdings were 10 per cent. This figure has been reduced now to 5.34 per cent.
