

ANOTHER ZEPPELIN RAID ON THE ENGLISH COAST.

**An Enemy Air Craft Brought Down in
Flames by British Anti-Air Craft Guns—
Two Zeppelins Took Part in the Raid—
Two Killed and Sixteen Injured**

London, June 17. — Two persons were killed and sixteen injured in a night's air raid over Kent, during which a Zeppelin was brought down in flames. The following official report of the raid was given out here today: "Last night's air raid was carried out by two enemy airships. One airship crossed the Kent coast at about 2 a. m. and dropped six bombs on a coast town. According to the latest police reports two persons were killed, sixteen were injured, and a large number of houses were damaged. The second raider attacked the east coast town of West Anglia about 2.30 a. m. She was heavily shelled by guns of the anti-aircraft defense, and driven off. It is probable she was damaged by gun fire. "Shortly afterwards, this raider, after dropping a number of bombs in open places, was engaged and brought down in flames by a pilot of the Royal Flying Corps. The airship was destroyed. There were no casualties or damage to property."

An earlier official statement follows: "Early this morning some enemy airships approached the east and south-east coast. About 2 a. m. two airships came, at short distance, and, one crossing the east Anglian coast and the other coming over Kent for a few minutes. Bombs are reported to have been dropped from the latter ship. Some damage was done and fire broke out in a coast town. No further details are yet to hand. "Later one Zeppelin was brought down in flames."

LATEST MODEL LINOTYPE MACHINE INSTALLED IN DAILY MAIL OFFICE

Recently there was added to the Mail Printing Co.'s plant one of the latest and most efficient typesetting machines manufactured by the Mergenthaler Linotype Company, of Brooklyn, N. Y., and delivered to us and erected by the Canadian Linotype Company, of Toronto.

It is a Model 19, a two-magazine machine with an auxiliary, which in non-technical language means that there are available to the operator five or six styles or faces of letter at one time, including a letter suitable for large headlines. This Model 19 is the most up-to-date model of Linotype yet introduced into Fredericton, and was designed by the Mergenthaler Co. as the result of the recent keen competition in typesetting devices which this company has so successfully encountered.

MODEL 5 LINOTYPE, Placed in Mail Office in January, 1916. A TWO-MAGAZINE LINOTYPE, Showing Magazine Ready to be removed.

This new machine is regarded by the manufacturers as an extension and improvement of their Model 5, the favorite model with those who take care of and operate Linotypes. It will be a most efficient and progressive addition to the Model 5 Linotype installed in the Mail office the first of last year, which has enabled the Mail Printing Company to expeditiously handle some fine book and job printing during the past fifteen months.

Besides being a help and improvement to the Daily and Semi-Weekly Mail, these two splendid typesetting machines will enable the Mail Printing Co. to successfully handle the public printing and commercial work now being undertaken by this office.

Our Model 19, like the Model 5, was erected and put in running order by Mr. Chas. H. Shaw, of Toronto, general business agent of the Canadian Linotype Company, who after installing many of these modern typesetting machines in this part of Canada during the past few years, seems to know just what style of Linotype will best suit the needs of any particular printing plant.

RUSSIA REJECTS OFFERS OF SEPARATE PEACE

Petrograd, via London, June 17. — The Duma, in a secret session, has passed a resolution for an immediate offensive by the Russian troops.

The resolution declares "a separate peace with Germany or prolonged inactivity on the part of the Russian army would be a betrayal of the Russian people, and would mean the loss of the Russian Empire, for which future generations never would pardon the Russia of the present day. The Duma therefore considers," the resolution adds, "that the safety of Russia and the maintenance of the liberties which have been obtained, lie in an immediate offensive in close co-operation with Russia's Allies."

Firmly Against Peace.

Petrograd, via London, June 16. — A striking proclamation placing the council of workmen and soldiers' delegates on record as irrevocably opposed to a separate peace was adopted today.

ference of the Allies for examination of treaties, was followed today by the publication of the note sent to the other governments in question. The note suggests a conference to revise the agreements existing among the Allies as to war aims, with the exception of the London agreement, which provides that none of the signatory powers shall conclude a separate peace.

Mrs. Frank O. Howden, wife of the governor of Illinois, is the official shopper for the Illinois National Guard troops who are in camp at Springfield.

Coincident with the council's decision comes news that Germany is about to extend a formal offer of a separate peace with Russia through the Swiss minister.

The council, representing the most democratic elements in the revolution, despite its watchword of "No annexations," no indemnities," has recently accepted the French programme for the redemption of Alsace-Lorraine as entirely just, on the grounds that it would be but the restitution of territory wrongfully seized by Germany in 1871.

Will Stick by Pact.

Petrograd, via London, June 17. — The announcement last night that the cabinet had decided to suggest a

The Victory Won— our task but well begun!

The summit of the hill at last has been won after countless futile charges. Shouts of jubilation proclaim victory. The last German has fled. Flushed with success, the soldiers caps are flung high in the air, but the old veteran captain shouts, "Off with your tunics, boys, and dig in for your lives! The victory is yet not ours, this summit must be held!"

For half a century the people of New Brunswick have fought the Demon Rum for possession of the province. The summit of the last commanding position is won. The Prohibition Law in New Brunswick was finally consummated when it went into effect May 1st, 1917. Let us not shout "Victory" too fervently. We have won only the means to a final Victory—the power to enforce province-wide freedom from the Traffic. The real fight is yet to come.

Are we going to leave to a few zealous and sincere officials the whole brunt of the fight? Or, shall we let them know that they have behind them, in their duty of enforcing the New Prohibition Act, a whole province full of reserve power and vigilant enthusiasm that will help and encourage them to consolidate this glorious heritage of Prohibition for ever!

Help to Enforce Prohibition

Licensing of the liquor traffic has had a fair trial for many years. Within a comparatively brief period New Brunswick must vote again and decide for or against a permanent Prohibitory law. In the meantime, the Prohibition law must demonstrate its worth beyond doubt. Brief though the testing time may be, we believe the people will, by their hearty and sincere co-operation, make the result decisive. Never again in New Brunswick shall the enemy gain a foothold!

Every man and woman in this province shares the responsibility for the proper enforcement of Prohibition—not the officers of the law alone. **Your** duty is clear.

No matter where you live, whether the Canada Temperance Act or the new Prohibitory Law operates in your district, you are urged to use every legitimate means within your power to heartily support and aid the officers in their sworn duty of enforcing the law.
