Late William Christie.

The funeral of the late William Christie took place Sunday afternoon from his late home, Penniac, and was largely attended. The service was conducted by Rev. Dr. Harrison and interment was made at Penniac.

Children's Aid.

The annual meeting of the Children's Aid Society will be held in the City Council Chamber this evening. Reports on the work of the year will be presented. It is hoped that there will be a good attendance.

Could Not Get Through Ice.

The steamer Majestic tried to get through from St. John Saturday but failed. The steamer reached the railway bridge at six o'clock in the evening and after a delay the draw was opened. The Majestic made an effort to get through but the ice was too heavy, the drop in the temperature during the afternoon having solidified it. The passengers carried by the Majestic were put ashore at Morrison's Mill and the steamer went back to St. John.

To Make Special Effort.

The Victory Loan Committee in York-Sunbury is making a special effort this week to increase the total of subscriptions to the loan in these two counties. New Brunswick is much behind its allotment for the loan and it will be only by a determined effort that the set amount can be reached. Locally it is noticeable that it is the people of moderate means who are subscribing to the loan. The well-to-do are not taking it up as they should.

St. Paul's Bell Damaged.

A crack which developed recently in the bell of St. Paul's Presbyterian church in this city has made it inadvisable to ring the bell and it has been silent for some weeks. This bell has been in constant use since 1835, being removed from the Auld Kirk to the present edifice when the Presbyterian congregation built the new church. It is proposed to bore the bell so as to prevent the crack from extending any farther. This will change the tone of the bell to a considerable extent and it may not be possible to recognize the sound.

The New Theatre.

Great crowds attended the performances at the New Gaiety Theatre on Saturday evening and all were delighted not only with the splendid building but with the fine performance. The new theatre is undoubtedly one of the finest in the Maritime Provinces. The carpentering was under the supervision of Mr. H. M. Clark, and the plumbing and heating apparatus was installed by D. J. Shea & Sons. Mr. W. B. Dayton of Devon, looked after the painting and decorating. McLaggan & McBean had the contract for building the theatre.

Officially Reported eDad.

Mrs. Joseph Semple of this city, has been informed from Ottawa that her husband, Private Joseph Semple of St. John, reported missing since August 15th, has been officially reported killed in action or died of wounds. The deceased enlisted in the 115th Battalion in St. John, and was drafted to France. In civilian life he was employed with the Willett Fruit Company of St. John. He is survived by a widow, a daughter of Mr. and Mrs. Mered Brewer of Fredericton, for whom there is much sympathy.

Gr. John I. Morrison Dies.

Another U.N.B. man has paid the great price in France. Mr. and Mrs. Atkinson Morrison of Leinster street, St. John, were informed yesterday that their only son, Gunner John Inches Morrison, had died of wounds. The deceased enlisted in Fredericton in the 23rd Field Battery in the winter of 1915, being among the large number of university undergraduates who joined the field artillery at that time. He was twice wounded on previous occasions, recovering and returning to his place in France. He was severely wounded about two weeks ago. He was twenty-two years old.

Concerning Lieut. G. E. Logan.

As a result of rigid inquiries sent to Ottawa on the part of the relatives of Lieut. G. Earle Logan, who was last week officially reported died of wounds, came a dispatch to St. John yesterday from the military authorities at Ottawa stating that Lieut. Logan had been admitted to hospital suffering from a severe gas attack on the 20th inst. The first intimation that his wife received of his being on the casualty list was in the form of a cablegram which she received from him personally. This cablegram was dated Nov. 11 and said that he was "slightly gassed but there was nothing serious." The following day came the startling news from Ottawa conveying the information that Lieut. Logan was officially reported as having died of wounds on Nov. 14. The rather contradictory information with the latest news from Ottawa that he was admitted to hospital from a gas attack on the 20th leads some of his relatives and friends to believe that he is still alive. Further definite information will be awaited with the greatest hope.

Manager N. M. Jones on Stand This Morning—Phillip Markey Followed—An Alleged Statement.

The suit of Wade et al vs. The Nashwaak Pulp & Paper Company, Ltd., was continued this morning before His Honor Judge Chandler in the King's Bench Division of the Supreme Court. Mr. N. M. Jones of St. John, manager for the company, was on the stand the greater part of the morning's sitting. His evidence related particularly to the methods of stream driving followed by the company in its operations on the Nashwaak river and the fact that the system of dams constructed on the upper waters of the river enabled the company to keep the water at an even pitch.

Philip Markey.

Mr. Philip Markey of Marysville, followed Mr. Jones. He stated that he had driven logs on the Nashwaak river since 1882. In June last there had been two freshets on the Nashwaak. On account of them he had to leave work at Marysville and go to Penniac to help take logs off the intervals. Young Wade had objected to the crew taking the logs off the intervals saying that it was a "poor time to get damages after the logs were gone."

The case will not be finished before the latter part of the week.
