WITHDRAWAL WAS MADE IN GOOD ORDER

British Army Headquarters in France, Dec. 1. (By the Associated Press.)—Distinct satisfaction was felt along the British front today at the success of the retirement in the Cambrai sector. The world will never know the full story of the heroism displayed by General Byng's men in working day and night in gas helmets, holding Bourlon wood, fighting and working day and night in gas helmets. Naturally the retreats were frequent, but even under these conditions it was exceedingly trying to work with the face enclosed in the airtight headgear, probably having about the same effect as a diver's helmet. They went about their work peering through eye pieces and taking commands by signals. As long as the British artillery is able to continue the heavy bombardment of Bourlon wood such as is now being carried on it is probable the wood will not be free from reeking and poisonous fumes.

The Germans have been losing heavily in men ever since they started to follow the British retirement. They are now suffering what the British might have had the Germans discovered that the retirement was impending and launched an attack at an opportune time. The British artillery was withdrawn in sections, leaving the enemy puzzled as to the exact situation, and the constant artillery and rifle fire of the British together with their patrol assaults, confused the enemy. Every British gun and every piece of ammunition was removed in safety.

After the main body of troops had been withdrawn a few hardy Tommies who had been left behind blew up the bridges over the Nord canal. These explosions at about daylight Wednesday gave the Germans their first intimation that something unusual was afoot. German air scouts have been

BOSTONIANS ARE ACTING PROMPTLY

(Canadian Press direct wire.)

Boston, Dec. 8.—A mass meeting to consider plans for the relief of Halifax, with Governor McCall presiding, was held in Faneuil Hall today.

In addition to the two trains which have already left here with doctors, nurses and supplies, as many more relief workers will be sent as are believed to be needed. Arrangements are being made for the shipment of large quantities of blankets, clothing and other articles.

A meeting, to which admission will be charged for the benefit of the relief fund, will be held in the Mechanics' Building Sunday night under the joint auspices of the Red Cross and the American and British Federation. The Intercolonial Club, an organization of Canadian born residents of this state, has pledged \$1,000 for the fund. Many other societies are co-operating. The department of the northeast last night arranged to turn over to the Red Cross ten thousand blankets for the relief work. A movement to raise at least \$1,000,000 in this state by public subscription for the Halifax sufferers, was started today. Funds will be collected in every city and town under the direction of the Public Safety Committee. The decision to issue an appeal for funds was made at a joint meeting of the Public Safety Committee and Red Cross workers, called by Governor McCall.

working overtime at reconnaissance and the British airmen are unceasingly active.

U. S. WARSHIPS AT HALIFAX

(Canadian Press direct wire.)

Washington, Dec. 8. — Secretary of the Navy Daniels today offers the Red Cross a quantity of supplies at Portsmouth for relief at Halifax. Two ships under the direction of the navy are already at Halifax doing what they can to relieve the situation and another has been sent from Provincetown, Mass., with a hospital unit to co-operate with the relief corps. The supplies at Portsmouth include 25,000 blankets and 600 stoves. No further reports of conditions at Halifax had been received today by the navy.

R. C. CHURCH IS DESTROYED

(Canadian Press direct wire.)

Quebec, Dec. 8.—A report reaching here today says that the Church at St. Anne's, Pocatier, on the line of the I. C. R., is burning, and that the parish is threatened.

Later—The fire almost entirely destroyed the edifice together with the presbytery. The efforts of the whole population, who turned volunteer fire fighters, saved the college, which is only a few feet from the church, and which was partially destroyed by fire one year ago.

Left for Carleton County.

Rev. Joseph Hayes of the R. C. Cathedral staff, St. John, left on Tuesday for Williamstown, Carleton county, where for the present he will have charge of that mission. The district was formerly attended by Rev. Frank Bradley of Florenceville. Rev. Father Hayes is a native of North Devon and for several years was assistant to the late Rt. Rev. Mgr. E. Doyle, D. D., Milltown.

PLOTTERS ARE PLACED ON TRIAL

Detroit, Mich., Dec. 8.—That Albert Kalschmidt conspired to blow up British munition ships in New York harbor in 1915, was the testimony of Charles Respa, chief witness for the government at the trial of Kalschmidt and five others on charges of widespread dynamite conspiracy. Respa was brought from a Canadian prison, where he has been serving a life sentence for complicity in the plots charged to Kalschmidt. He testified that, at Kalschmidt's direction he and three others went to New York in 1915, supplied with funds to purchase explosives intended for use in destroying British munition ships in the harbor. He found, he said, that the ships were too closely guarded and the plan was abandoned. He described the dynamiting of the Peabody overall plant at Walkerville, Ont., June 21, 1915; trips made to Port Huron, where he said it was intended to dynamite a railroad tunnel; to Nipigon, Ont., where a Canadian Pacific railroad bridge was to be destroyed, and several other visits to Canadian points with the same purpose.

United States District Attorney Kinnane in outlining the case said: "We will produce a check for \$25,000 drawn for Kalschmidt from the joint account of Count von Bernstorff, then German ambassador, and Dr. H. F. Albert, of the German embassy. We will produce checks for \$2,000 from Wolf von Igel or the German embassy and Captain von Papen to Kalschmidt."

What is Crushed Coffee?

Briefly, Crushed Coffee is coffee that has had the beans crushed between steel rollers with just enough pressure exerted to break the beans into clean, even grains from which the bitter chaff and dust are easily separated by air suction—

Resulting in a coffee so pure that no egg is needed to settle it. Red Rose Coffee is as easy to make as Red Rose Tea, and its flavor, aroma and smoothness are a delight as compared with the ordinary ground coffees.

Sold only in double-sealed air-tight cans to keep it good.

The same price as it was three years ago.

Red Rose Coffee

THE VALUE OF ADVERTISING in all cases must be based on the return for the outlay. No better opportunity in this respect can be found in this locality than

THE DAILY MAIL

This paper has a special value to the local advertiser, as the majority of its readers are in this city and the immediate surrounding country.

Our Advertising Rates will be found decidedly reasonable in view of the results.

PEOPLE READ OUR ADVERTISEMENTS

They are trying to buy as wisely as they can. It is necessary they should.

They are eager to know what the local merchants have to offer, and good live advertising is interesting reading to them.

Most of our enterprising business men have already realized this fact and their advertising appears regularly in the Mail.

If you are not a regular advertiser in the DAILY or SEMI-WEEKLY MAIL, you are overlooking an opportunity that no business man in this locality ought to be too busy to appreciate.

THE AD. AND THE MAN.

By James J. Montague.

He saw the ad from day to day
And muttered: "I envy it;
The stuff may be just what they say,
But I'm not going to buy it."
As time wore on he made remarks
It would not do to mention,
For he was mad because that ad
Was forced on his attention.

But in a week, or two, or three,
He said: "There's no denying,
The way that ad gets hold of me,
The stuff may be worth trying."
For just about a fortnight more
He dared mere words to win him,
And then the ad completely had
Aroused the spender in him.

Next day he drifted in a store
And quietly expended
A few big iron dollars for
The stuff the ad commended.
He found it filled a long-felt need
Its excellence surprised him,
And now he's glad because the ad
So deftly hypnotized him.

KODAKS AND BROWNIES

From the kindergarten days up, there's wholesome fun for the children, and lasting joy for all the family, in the Kodak and Brownie pictures the children make—and Christmas day, with its home pictures, is an excellent time to start.

Come in and see our stock of Kodaks and Brownies. There's no obligation.

To The Electors Of York-Sunbury

I wish to state that I am strongly in favor of Canada doing all she possibly can to bring this war to a victorious end.

That I believe Canada's best effort calls for whole-hearted co-ordination of all our resources. Not life alone—make the rich men help too.

That the policy of Conscription of human life ONLY, which does not attempt to conscript wealth, resources or the services of any person other than those who come within the age limit, is manifestly unjust, and should not be enforced WITHOUT THE CONSENT OF THE PEOPLE.

It is no answer to say "We must have conscription or quit." Australia rejected conscription and Australia did not "quit," but has done, and is doing, MORE under the voluntary system than Canada has done, in proportion to population.

I advocate better treatment and better pay for our heroic soldiers. We should abolish party and graft in the army and pay the private at least an ordinary workman's pay, which would be \$2.50 per day.

I believe the government should make adequate provision for the dependents of soldiers enlisted for overseas, as will remove the necessity for raising money by public subscription for their support, and prompt action taken to put the soldiers and their dependents beyond the possibility of want, after public subscriptions have ceased and the glamor and excitement of war have worn away.

The Government voted down a resolution to the above effect. The country has experienced a succession of waves of hysterical efforts, such as the Machine Gun Campaign, the Patriotic Fund Campaign and now the Conscription Issue.

Lloyd George recently said shipping was the most pressing need of the Allies.

The Allies are short 500,000,000 bushels of wheat and must get it from North America, which only normally exports 200,000,000 bushels.

I maintain the most efficient way to win the war is to give better treatment and a square deal to the soldiers and dependents and to co-operate intelligently with our Allies to the fullest extent possible in MEN and MONEY, FOOD and SHIPS, MUNITIONS and LABOR.

Upon these principles I ask your support.

Yours faithfully,

NELSON W. BROWN.
