## CANADA'S PULP RESOURCES.

It is well to reverse the old proverb, "In time of peace prepare for war," at the present period, and say, "In time of war prepare for peace." Sir Edmund Walker, president of the Bank of Commerce, points out that Canada excels in paper-making. One of the United States consuls located at London some time ago was requested by the government at Washington to report on the pulp resources of Canada. After making a thorough investigation, he reported that they were inexhaustible. It is stated by authorities on the subject that pulpwood under proper methods of reforestation, replaces itself every ten years. Here is an industry of unlimited value, constantly reproducing itself. The advice of Sir Edmund Walker to perfect Canada's part in this great industry should not be neglected. It will add millions to the wealth of Canada. The following is an extract from Sir Edmund Walker's remarks:

"Paper making is another basic industry in which Canadians can excel. We began this trade by cutting down the pulpwood and shipping it all to the United States. We were more or less terrorized into the idea that we could not make pulp, much less the paper, but in a few years we have been able to assume a commanding position in the paper-making industry of North America, which we can maintain by careful and wise development. But what we need to do is to go farther and discover what better varieties of paper we can manufacture. We should make from the commonest to the finest qualities, and take a stand with the big paper-making countries of the world."

The Woodstock Press, the personal organ of ex-Premier Flemming, thus defines its attitude in regard to the political contest in Carleton-Victoria: "The Press, as the organ of the Liberal Conservative party in this county, does not wish to interfere in this family quarrel. It will remain neutral in this contest. In its news columns it will give each of the factions a square deal. Nothing more than can be reasonably expected of us." Here in York-Sunbury leading Conservatives are urging their Liberal friends to vote and work for Col. McLeod in the interests of Canada and the Empire. The question naturally arises, are the Tories of Carleton, for whom the Press speaks, less interested in the welfare of Canada and the Empire than those of York-Sunbury?

When the late General Maude was military secretary to the Governor General of Canada a few years ago, he was looked upon by many people as considerable of an autocrat, and came in for considerable newspaper criticism. All the same he has proved himself to be one of the greatest soldiers in the British Army. Premier Lloyd George, in announcing his death, in the House of Commons, referred to him as "a great leader of men and a commander of the first rank." The tribute is well deserved.

Says the Chatham World: "The flood of departmental printed matter from Ottawa grows greater year by year, and has become a nuisance in every newspaper office. What with the output of the live stock commissioner, the fruit commissioner, the food controller and others, the newspapers are so burdened with the stuff that the employment of an additional office man to read it in search of something worth reproducing has become necessary. It is time that the floodgates were closed and this output stopped."

Wall Street Journal: One of the cleverest methods employed in the selling of Liberty bonds was used by a hard worker in the ranks, who plied his trade on a street corner in the middle of the shopping district. Taking a position on the street, he cried: "Will anyone bet me a dollar that I can't sell a \$50 Liberty bond in one minute?" "I will," said a passerby. "All right, sir. Now," turning to another spectator, "here's a \$50 Liberty bond for \$49." "Taken," said the spec-

tator. The salesman sold 47 bonds on that spot.

Montreal Herald: Figured on the basis of recent calculations in the United States, it can be stated that there is at least 10,000,000 pounds of excess fat on the bodies of one million Canadian men and women between the ages of 35 and 55. The country no w wants each pound of that surplus flesh and calls upon the owners of it to offer it up on the altar of their country.

General Byng, who led the Canadians in their gallant fight at Vimy Ridge, has smashed the Hindenburg line and therefore achieved one of the most brilliant victories of the great war. More power to him.

Subscriptions to the Victory Loan in Nova Scotia have passed the six million dollar mark. Of this amount two million dollars was subscribed in Cape Breton.

Especially at a time of national peril it is questionable whether or not a man is justified in casting his vote for a candidate for public office in whom he has not the slightest confidence.

The Conservatives of the County of Westmorland are so keen for Union government that they have nominated two candidates in support of it.

A BIG FORCE  
SOON GOING  
OVERSEAS

(Canadian Press direct wire.)

Hamilton, Ont., Nov. 22.—"I feel it is my duty to get twenty thousand men overseas by the first of January." This was the important statement made by Major General Mewburn, the Minister of Militia and Defence, to a mass meeting of women here this afternoon. He declared that the Fifth Division, no numbered less than ten thousand men, and would probably have to be "wiped off the slate" in order to reinforce men on the fighting line. For that reason, he said, he was not going to spend much time electioneering; his chief duty was to get men overseas.

(Canadian Press direct wire.)

NEW GAIETY  
OPENS WITH THE  
LITTLE AMERICAN

The New Gaiety Theatre opens tonight with Mary Pickford in The Little American. This play shows the Germans in such a poor light that in Chicago and other western cities they tried to prevent the picture being shown. Of the play the Chicago News says:

There are many excellent reasons why every Canadian citizen should see "The Little American." First and foremost, is a Mary Pickford picture, an almost invariably indication of agreeable entertainment; then it boasts of Cecil B. DeMille's direction, an assurance of exquisite production as a rule; last and most important, it concerns itself with a subject of the hour, a matter of vital interest to every man, woman and child in the country.

Execution to Marvel At.  
Newspaper readers are more or less familiar with the story of this play. Its execution remains to be seen and marvelled at. To rectify its effective points in detail requires the literary mind of a genius, as well as more space than is available. From start to finish the spectator meets with photographic and melodramatic surprises, each succeeding event eclipsing what preceded it. Grim warfare, as the Germans play it, according to dispatches and official reports, has realistic revelation.

The picture as a whole is impressive and patriotically inspiring. In every foot there is skillful craftsmanship and efficient dramatic display. Two powerful effects, based on fact, remain indelibly on the minds of the spectators—the torpedoed ocean liner episode and the destruction of a church at a crucial moment in the heroine's career.

One leaves the performance with a mental picture of a submarine surreptitiously stealing to within close proximity of the doomed liner.

Everybody in the cast acts brilliantly. Miss Pickford never contributed a better bit of artistry than in this film. Jack Holt, Hobart Bosworth, Walter Long and Raymond Hatton also distinguish themselves.

Death at Morrison's Mill.  
George Dalton, infant son of Mr. and Mrs. James E. Boyne of Morrison's Mill died Tuesday at the age of three weeks. The funeral took place Wednesday, interment being made at Sunnybank cemetery.

Two Fines Imposed.  
The first cases under the prohibitory law in Charlotte county resulted in convictions at St. Stephen yesterday. Fines of seventy-five dollars were imposed.

"CASCARETS" BEST IF  
HEADACHY, BILIOUS,  
SICK, CONSTIPATED

Best for liver and bowels, bad breath, bad colds, sour stomach.

Get a 10-cent box.  
Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels, or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

## NINE BOILS

Kept Coming on Neck, One After the Other.

Anyone who has ever suffered from boils knows how sick and miserable they make you feel.

When you think you are about cured of one, another seems ready to take its place and prolong your wretchedness. All these poulticing and lancing you may do will not cure them and stop more coming.

Boils are simply bad blood bursting out, and the bad blood must be made pure before the boils disappear. Burdock Blood Bitters is the greatest blood purifier known. It cleanses the system and removes every particle of foul material from the blood, then never another boil comes and the cure is permanent.

Mr. Geo. Ayers, 302 Gloucester St., Ottawa, Ont., writes: "I wish to tell you what I know about your wonderful Burdock Blood Bitters. In the spring I suppose my system needed cleaning out, for I had nine boils come on my neck, one after the other. I quickly got a bottle of B.B.B. and before it was half finished I felt a great change, and it certainly put an end to my boils, otherwise I might have had a lot more. I recommend B.B.B. to all I can, for I know it to be a great remedy."
