

MORE VILLAGES ARE TAKEN BY THE BRITISH

Canadians Are Now Reported to be
Well Beyond Vimy
Ridge.

With the British Army in France,
April 10—Via London, 4.20 p. m.—
(From staff correspondent of the Associated Press) Under blinding snow squalls with intermittent flashes of sunshine, the British pressed their attack against the Germans today all along the line from a point south of Cambrai to the vicinity of Lens. Much booty was taken in the first rush of this new assault that it has not all been reported but it is believed a large number of guns were captured. Yesterday's fighting and gains far surpassed the first days of the battle of the Somme last July. The Canadians today command the Vimy Ridge and are reported to be well beyond it at some points. More villages were captured today in the direction of Cambrai and the fighting there is intense. Clearing weather yesterday permitted the aéroplanes to detect the German trains moving toward the rail-head, apparently for a counter-attack on Vimy Ridge. This fact was

PROVISION PRICES HAVE A SET BACK

Chicago 10—Sensational breaks in the value of provisions pulled down with a crash today the corn market and then almost instantly wheat and other grains. A general rush to sell found the different commodities without any aggressive support and there was soon a condition bordering on panic in the provision pit, where pork made an almost sheer descent of 1.55. Other extreme losses were 5 cents to 5 1-2 in wheat and corn. More than half of the setback in cereals was afterward recorded but provisions showed much less power to rally. Opening wheat prices, which ranged from 1-2 to 2 1-2 cents lower, with May at 2.05 3-4 to 2.06 1-2 and July at 1.82 1-2 to 1.83 3-4 were followed by drops respectively to 2.02 and 1.80 and then a partial recovery.

reported to the artillery and all long-range guns for ten miles around were concentrated suddenly on the indicated points in what probably constituted a new record for long distance barrage fire with heavy guns. Thus the plans for a counter-attack were absolutely destroyed before the reserve troops could detrain.

WAS ANAEMIC FOR OVER A YEAR

Anaemic, or blood turning to water, is caused by the heart becoming deranged, and if the heart becomes weakened it cannot pump the blood as it should.

As a result the blood becomes impoverished, and it loses its nourishing qualities. The face becomes pale and thin, and the lips bloodless. There is a weakness, tiredness and loss of weight.

When those suffering from thin or watery blood start taking Milburn's Heart and Nerve Pills, they can see a change from the outset.

Every dose introduces into the blood those vital elements necessary to make it rich and red. The pale cheeks take on the rosy hue of health, the weight increases, and the whole being thrills with a new life.

Mrs. R. J. Grey, Fredericton, N. B., writes: "When I was a girl working at general housework I overtaxed my strength and became completely run down. For over a year I was very bad with anaemia. A friend told me to try Milburn's Heart and Nerve Pills so I got a box and when it was done I felt and looked so much better I decided to get six more. When I had taken them I had gained not only in strength, but in flesh and color, and best of all was good health."

Milburn's Heart and Nerve Pills are 50c. a box; three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

They have a new racing association in Bangor, and a big meeting is planned for the late summer.

MURAD CIGARETTES

TO-DAY—

at this very hour—more smokers are trying Murads for the first time than all other high-grade cigarettes combined.

Almost 100 per cent of these new Murad smokers continue Murad smokers.

What is happening to-day has happened every day since Murads were first introduced.

What is responsible for this?

Not advertising—Quality!

And the endorsement of Murads by one smoker to another, from coast to coast.

Sanargyros

Everywhere—Why?

Fredericton, 4th April, 1917.

HIS HONOUR the Lieutenant-Governor, by Order-in-Council of the seventh March last, has been pleased to make the following appointment:

In the County of Westmorland—

Ezra P. Hoar, of Moncton, to be a Provincial Constable.

R. W. L. TIBBITS,

Deputy Provincial Secretary.

Provincial Secretary's Office,
Fredericton, 10th April, 1917.

Keep Chickens

This is
National
Service

They will help Keep you

The cost of meat is the heavy item in the food bill.

Poultry and Eggs will help take the place of meat.

The food that goes to the garbage pail from the average table will provide one-third the feed for a flock of 8 to 10 hens.

Poultry will thrive where vegetables will not grow. The outlay is small. A few minutes a day is all the time required.

A small flock in your back yard will go far to keep you supplied with eggs, broilers and roasters.

How to go about it

BUY eggs for hatching or day-old chicks; borrow or buy a broody hen or an artificial brooder. A slatted packing-box will house the hen and chicks. Feed the chicks bread crumbs soaked in milk and squeezed dry. Feed five times a day, alternating with prepared chick feed, only as much as they will eat up clean. Remember that a hungry chick is a healthy chick.

CAUTION: Chicks must not be fed until at least 48 hours old, and then only sparingly.

If you can, start now with eggs or chicks; if not, arrange at once with the local poultry association for pullets in the fall.
