The Weather.

Maritime: Fresh to strong north to northwest winds, decreasing tonight. Local snow flurries. Fair and cold today and on Wednesday.

VOL. XXIII., No. 276

FREDERICTON, NEW BRUNSWICK, TUESDAY, NOVEMBER 27, 1917

TWO CENTS PER COPY

HOW A U. S. DESTROYER ACCOUNTED FOR AN ENEMY SUBMARINE

Piratical Craft was Brought to the Surface by Depth Charges---All of The Members of the Crew Were Rescued and Made Prisoners.

(By Canadian Press direct wire.)

Base of the American Flotilla in British Waters, Nov. 26.—It is now permissible to give the details of the capture by Americans of the entire crew of a U-boat sunk by depth explosions. The explosives had disabled the U-boat and forced it down, bumping along the bottom of the sea and striking terror into the hearts of the crew, when the commander, in order to lighten her, emptied the tanks. To the great relief of the crew the U-boat responded and rose to the surface with such a rush that some of the Germans were thrown about and injured. The U-boat appeared on the surface within several hundred feet of an American destroyer. The submarine's hatch flew open and the Germans scrambled out of the conning tower, coatless and shoeless, ready to swim for it. They lined up along the narrow deck with hands in the air, shouting "kamarad."

THE GERMAN SAILORS LEAPED INTO THE WATER AS THE SUBMARINE BEGAN TO SLOWLY SETTLE

The U-boat remained stationary and the destroyer moved close up and heaved a line, which the Germans made fast. This was no sooner done than it became apparent that the crew had succeeded in opening the sea-cocks, for the submarine continued to settle, at first slowly, then more rapidly.

As she did, the Germans leaped into the water and swam towards the destroyer. Some of the American bluejackets jumped into the sea to rescue the injured. As the last German was lifted aboard the destroyer, the hawser attached to the U-boat parted under the strain, and the U-boat disappeared. All the Germans were given steaming hot coffee and dry clothing and were otherwise made comfortable for the run to this base. But one of their number, a machinist, had suffered greatly from shock and exposure, and died on the way.

He was buried with full military honors from the deck of the destroyer, the American officiated in what was the first funeral service so far held in this war on an American warship.

CORPORAL KONOWAL, A CANADIAN, WINS THE COVETED VICTORIA CROSS

(By Canadian Press direct wire.)

LONDON, Nov. 26 (via Reuter's Ottawa agency).—The London Gazette announces the award of the Victoria Cross to Acting Corporal Konowal, of the Canadian infantry, "for conspicuous bravery and leadership." When in charge of a section he had the difficult task of "mopping up" cellars, craters and machine gun emplacements. In one cellar he himself bayoneted three of the enemy and attacked, single-handed, seven others in a crater, killing them all. On reaching the objective a machine gun was holding up the right flank, causing many casualties. Konowal rushed forward and entered the emplacement, killed the crew and brought back the gun. The next day he again attacked, single handed, another machine gun emplacement with explosives. This non-commissioned officer alone killed at least sixteen of the enemy, and during two days fighting carried on continuously his good work until severely wounded." Acting Corporal Konowal was born in Russia. He enlisted with an Ottawa battalion.

ANTI'S CASE STOOD OVER

(Canadian Press direct wire.)

Montreal, Nov. 27.—The case in which P. E. Mongeau, the anti-conscriptorist orator, seeks to prohibit the magistrate from trying him on a charge of having violated the Military Service Act by publicly speaking against conscription, and also seeks to have the Military Service Act declared unconstitutional, will not be up for arraignment before Acting Chief Justice Archibald of the Superior Court on Wednesday, the date set by his lordship last week. This was ruled out yesterday by Mr. Justice Bruneau in the practice division of the Superior Court, on the application of Gosselave Desaulniers, K. C., on behalf of Mongeau.

The indictment was raised on two grounds, first because it did not allow for five days' delay to which the attorney general of the province of Quebec, was entitled in order that he might enter a nolle prosequere, and second, because the case had been put upon the roll for hearing in an irregular manner.

Mr. James L. Sugrue of St. John, arrived in the city last night.

MANY WANT LICENSES

Ottawa, Nov. 26.—Several hundred inquiries and applications for licenses for the exportation from Canada of food and other commodities to countries other than the United Kingdom and British possessions have been dealt with by the bureau of licenses of the food controller's office during the first week that the bureau has been in operation.

NEW YORK STOCK MARKET TODAY

New York, Nov. 27.—Coppers, Motors and equipments were the outstanding features of today's early dealings on the stock market, such issues as American Smelting, Baldwin Locomotive, Crucible Steel, General Motors and Studebaker recording gains of one to two points. Tobaccos, Shipings and minor specialties also hardened up, but rails manifested further irregularities. General Electric also reflected further pressure. Liberty Bonds were virtually unchanged.

McADAM GAVE UNIONISTS GOOD RECEPTION

Big Meeting Held There Last Night—Opposition Organizing the Women in Fredericton Today.

The campaign for the Union Government candidate in York-Sunbury, Col. H. F. McLeod, began last night with a large and enthusiastic meeting at McAdam. The hall was crowded to the doors and standing room was at a premium. There was every indication that old party lines were broken and that McAdam would give a substantial vote for Union Government on December 17th.

Col. McLeod was given an attentive hearing while he dealt with the problems which confront the Dominion and which make necessary the formation of a union administration in the place of the former Conservative one. He made an appeal for the abandoning of party lines during the present struggle.

Other speakers were Mr. J. J. F. Winslow of Fredericton, and Mr. S. B. Hunter, M. P. P., of Harvey. Mr. Winslow, as a Liberal, was given a hearty reception and his points in support of the Union Government were heartily applauded. Mr. Hunter as a man well known in that section of the county of York, also was well received. Rev. Mr. Grant of McAdam, also made an appeal on behalf of the Union Government.

Tonight meetings on behalf of the Union Government are to be held at Durham, Prince William, Nasonworth and Millville.

Committees of both men and women have been formed at McAdam and are working earnestly on behalf of the government.

Opposition Organizing.

The Opposition is working steadily on behalf of Mr. N. W. Brown, the Liberal candidate, throughout the constituency.

TEUTONS PRESSING THE ITALIANS AT SOME POINTS

The Situation However, Remains Stationary--A Big Force of British Troops Arrive to Help Repel the Invaders.

(Canadian Press direct wire.)

LONDON, Nov. 27.—Reuter's correspondent at Italian headquarters describes the magnificent spectacle of British troops marching into Italy, comprising cavalry, artillery and infantry, extending along the roads for miles, with all other branches of the army following. The infantry had been marching steadily for days, making sixteen miles a day. The artillery is equipped with a great number of guns and is accompanied by endless lines of lorries, carts, pontoons and other accessories to a complete army.

Enemy Pressing Hard.

Telegraphing last evening the correspondent says the enemy is vigorous pressing at three points. First, at Tomba mountain and Monfenera, the latter being the spur of the Tomba crest, has fallen, but the heroic defence has rendered the situation stationary. Behind Tomba and Monfenera supplementary defences being prepared will minimize the loss if Tomba and Monfenera fall, although a considerable advance here might force the Piave. The second point of attack is San Ardingo, on the Brenta, and the third point is the Asiago plateau, especially Mount Maletta, where the enemy has maintained a steady pressure against the snows for the past fortnight.

Thanks, however, to the grim determination of the Italian infantry, the enemy's attempts have been defeated.

The British forces are eager to get into the fight, and the Austro-Germans may soon be strongly opposed.

MR. CARVELL AT HARTLAND

Hartland, N.B., Nov. 26.—The Unionist meeting here tonight was presided over by Councillor E. C. Morgan. Five hundred people filled the hall. M. L. Hayward spoke briefly, addressing himself particularly to the Conservatives present. He assured the Minister of Public Works of the support of the local Conservatives of whose organization he was president.

Hon. F. B. Carvell received a great ovation and impressed the audience with the grave importance of the great question of the hour. There seemed to be an apparent unanimity of sentiment in his favor.

British Hammering Away At the Hindenburg Line

MUCH WHEAT GOING ACROSS THE BORDER

(Canadian Press direct wire.)

Washington, Nov. 27.—Canadian wheat is pouring into the United States duty free through every customs district on the northern border in largely increasing volume, the Department of Commerce announced today. For the nine months ended last September the United States imported from Canada 21,490,269 bushels, over 14,000,000 of which came in free after April 16th. This was the date on which Canada removed its import duty which automatically let wheat into the United States duty free under the tariff law.

During these nine months wheat flour imports totalled 403,270 barrels, of which 237,000 came in free, against a total of 157,289 barrels in the same period of 1916, and hardly more than 90,000 in 1915.

LABORATORY BURNED.

Storrs, Conn., Nov. 27.—The chemical laboratory at the Connecticut Agricultural College was totally burned today, with a loss of about \$30,000.

Mr. I. Amdur of St. John, arrived in the city last night and registered at the Queen.

Senbury, they claim will give him a big majority. Meetings have not yet been held but organization work is being on.

Women's Meeting

A women's meeting is being held this afternoon at the Opposition Committee Rooms, Regent street. It is expected that a strong women's committee to work on behalf of Mr. Brown will be formed locally.

German Counter Attack Northeast of Bourlon Wood Repulsed---More Support Trenches Captured After Vigorous Fighting at Close Quarters.

(Canadian Press direct wire.)

LONDON, Nov. 27.—British troops have repulsed another German counter attack at the northeast corner of Bourlon wood, west of Cambrai, according to an official report today from Field Marshal Haig.

British Army Headquarters in France, Nov. 26.—British troops, including some from London, last night continued to bore their way forward through the Hindenburg support line west of Moeuvres. There was vigorous fighting at close quarters in this region, and as a result the British today were in possession of a further section of support trenches two thousand yards long running east and west, just south of Pronville and Inchy-en-Arters. The British advance in the last few days had made this section of the line virtually untenable, and the Germans were forced to withdraw when pressed by a new attack.

Fighting was renewed today between Bourlon wood and Cambrai about Fontaine Notre Dame, where the Germans were still installed and continued to work machine guns from the roofs and windows of houses.

FIGHT FOR POSSESSION OF BOURLON WOOD ONE OF THE FIERCEST YET ON WESTERN FRONT

The fight for Bourlon wood and village will long be remembered as one of the most bitterly contested and sanguinary yet fought along the British front in France. The Germans have been concentrating all efforts in the attempt to oust the British from this elevation, which is vital for the enemy to hold if he is to maintain himself in the present positions farther north and northwest.

The British have clung tenaciously to Bourlon wood, defended partly by the tanks, which have taken positions at advantageous places, from which they can work their guns.

Fontaine Notre Dame was being hard pressed by the British at latest reports. Yesterday this hamlet remained unmolested, for it in no way hampered the operations about Bourlon wood.

BRITISH TROOPS ON HIGH GROUND CONTROL ENEMY POSITIONS ON WIDE STRETCH OF FRONT

British Headquarters in France, Nov. 26, via Reuter's Ottawa Agency.—Since the last heavy German counter attack yesterday evening, which pressed us back from a portion of Bourlon village, there has been no infantry activity in the Cambrai area. The situation is not appreciably affected by this small enemy recovery, since west, on the high ground, the British control German positions over a wide stretch of the front.

One effect of our command of the high ground has been reported by patrols, which found certain enemy trenchments abandoned during the night, manifestly owing to advisability of readjusting their line to minimize the destructive fire which we were able to concentrate under direct observation. The weather is now bitterly cold, with a shrill wind and cloudless sky. Visibility is excellent, and large numbers of our airmen go up. The ground is drying rapidly and the going is pretty good everywhere. Great activity is reported behind the German front.

FRENCH TROOPS IN DARING RAID CAPTURED ENEMY POSITIONS AND SOME PRISONERS

With the French Armies in France, Nov. 26.—The French troops yesterday in one large bite to the north of Verdun annulled the nibbles which the Germans have made in the French lines since the Crown Prince's defeat at the end of August.

Along a front stretching from Samogneux eastward to the southern portion of Caures wood, the French artillery opened heavy gun preparation early on Sunday, which the Germans evidently regarded merely as intensification of the artillery fire daily proceeding in this sector.

Four hours later the French infantry went over the top in one dash reached the first sections of the German line.

Following the first waves came other waves, which overwhelmed and captured more than 800 Germans who had held strongly fortified positions in two ravines leading eastward and northward into Caures wood.

The result of this extremely successful operation is to give the French full freedom of movement in the neighborhood of Hill 344, the north slope of which has had to resist incessant German onslaughts for two months. The German artillery continued throughout the night and today to pour a heavy rain of shells on the lost positions, but the French were able to concentrate their gains.

Mrs. Percy Crouse of Barker's Point, was taken to Victoria Hospital Sunday seriously ill.

WILL NOT LET THEM RESIGN

Buenos Aires, Nov. 26.—The socialist party, in a plebiscite, has refused by a large majority to accept the resignation of the socialist members of the Legislature, who voted in parliament in favor of a rupture of relations with Germany.

The resignation of these men was presented because of certain criticism on the part of socialists and advocates of neutrality.

The former German minister, Count Von Luxburg, has arrived here from the island of Martin Garcia, and the newspapers are criticising the authorities for permitting these comings and goings on the part of the former minister.

ITALIANS ARRESTED

Milwaukee, Wis., Nov. 26.—Fifty Italians were arrested here tonight. They were taken to a south side police station for investigation in connection with the bomb outrage here on Saturday night.
