In the northern France theatre, the British are centering their efforts south of Valenciennes to cave in the alient between that city and Le Quesnoy and move on toward the important junction town of Maubeuge, with the two-fold purpose of finally encompassing Valenciennes and reaching the Belgian border. Everywhere the Germans are offering the stiffest of resistance but nevertheless they have been compelled to give up the own of Maing and most of the intervening points southward along the ailway to Le Quesnoy, which now is all but in British hands.

Between the Oise and Serre rivers American naval gunners with sixteen inch guns have joined the French in their efforts to hammer their way northeastward toward Hirson, one of the important points in the German line. American shells from these guns are being hurled against both Vervins food taken daily, but when, for any and Rozoy. Some further progress has been made by the French in this region, but only after the hardest kind of fighting.

Likewise on both sides of the Meuse river the Americans have advanced their line notwithstanding the strong resistance of the enemy. North of Grand Pre, which lies in the valley above the famous Argonne Forest several hills of the utmost importance from a strategic standpoint have been taken from the desperately resisting enemy machine gunners and artiller-

BLOOD-MAKING MEDICINE

It took centuries for medical scienc o discover that the blood is the life Now, it is known that if the blood were always abundant, rich and pure, very few people would ever be ill. I was not until the end of the 19th cer tury that an instrument was invented for measuring the red part of the blood. Then doctors could tell jus just how anaemic a patient had become, and with medicine to make new blood
