IMPORTANT OPERATIONS CARRIED OUT BY FRENCH

Local Attacks Between the Marne and the Aisne Yield Good Results---Australians Penetrate Enemy Positions---The Austrians Being Steadily Pushed Back By French and Italian Troops---Official Statement

There has been some reason for believing that when the Germans resume their offensive on the western front they will attempt to break through between the Marne and Aisne in a dash straight for Paris. For this reason, operations which the French have successfully carried out assume importance.

South of Corcy the German line extends slightly to the westward but it curves sharply eastward just before it reaches the Clignon river, north-west of Chateau Thierry. From the Clignon southward to the Marne, American forces have been improving their positions in recent days and now have a strong line of positions running northward from Hill 204, west of Chateau Thierry, to the village of Corcy.

French Take Corcy

French pressure along the line from the Marne to the Aisne, which began two weeks ago as a series of local attacks has begun to yield results which are appreciable when viewed on the map. The town of Corcy, east of the Retz Forest, has been taken from the Germans and strong positions in the vicinity have been captured by the slow, methodical advance that has been the source of much annoyance to the enemy for several days.

As a result of the assaults made by the French from Ambleny, south of the Aisne, to the hills south of Corcy their line has been straightened and advanced to high ground which lends itself to defensive operations and gives the French good observation points from which they can see what is going on behind the German lines.

The British Front

On the British front the Australians have been in action once more, penetrating German positions and capturing prisoners. On the rest of the lines held by the British there have been the usual artillery duels and patrol engagements.

French and Italian detachments are steadily pushing the Austrians back along the western slopes of the moun-

tains that parallel the coast of Attica. They are reported north of the important town of Berat and have moved ahead in the hilly country to the east. Vienna admits the allied success in this quarter.

In the mountain sectors of the northern Italian front, Austrian units which approached the Italian positions, have been driven back.

London, July 11—The official report from Field Marshal Haig's headquarters in France tonight says:

"A few prisoners were captured by us last night northeast of Ypres without casualties to our troops."

"During the day Australian troops entered the German lines in the neighborhood of Ocris, penetrating to a considerable depth, and brought back over seventy prisoners and a number of machine guns. A few prisoners have also been taken by our patrols on other parts of the front."

French Statement

Paris, July 11—The war office announcement tonight says:

"A reconnaissance in the neighborhood of Brussias enabled us to bring back five prisoners and one machine gun."

"During the month of June our aerial squadrons brought down 150 enemy airplanes, seriously damaged 181, and set on fire 31 captive balloons. Our bombing planes dropped more than 600 tons of projectiles."

"Eastern theatre, July 10—South of the Devoli River our troops continuing their successful advance, have occupied Kosniza Crest in all its extent as well as all the villages in the Tomorica Valley up to Dobreny. On the left the Italians captured the heights of Cafaglumaka, taking 250 prisoners, including four officers. The Austrians suffered severe losses, and in retiring burned their depots and engaged in pillage. On the Macedonian front the enemy artillery displayed great activity, especially west of the Vardar and north of Monastir. British aviators successfully bombarded numerous enemy depots in the Struma Valley."

THE MILITARY SERVICE ACT

Dear Sir:—

Does our Military Service Act affect residents of our community who are foreign-born and are not naturalized? If so, are not some of the many able-bodied foreigners daily seen about the streets eligible for active service in the defence of our country and allied countries? Why should natives of our own Canadian land be expected and directed to fight the good fight and leave healthy specimens of foreign-born manhood safely and comfortably on this side of the pond that separates North America from war-stricken Europe? The matter of earnings need not be touched on here, as mostly everybody is familiar with that side of the question. But, if there are physically fit human males resident here, unmarried and without responsibilities worthy of consideration, no matter of what nationality, why not allow them opportunities of doing their bits, shouldering their just shares of the burdens this awful war has brought us?

Truly yours,

D. O. ITNOW
