

### Have a Good Complexion! The Flower of Good Health

The true secret of complexion lies in the blood. Keep it rich, pure, nutritious and, above all, keep the system regular. No aid to complexion compares with Dr. Hamilton's Pills. They tone and enrich the blood, clear the system of waste products, promote good digestion, and, in short, establish sound health, which, after all is the keynote to all happiness and well-being. Don't delay; the charm of a lovely complexion and all the blessings of health are yours, once you employ this old-time family remedy. All dealers sell Hamilton's Pills in 25c. boxes.

### STORIES MUST CERTAINLY BE FULL WEIGHT

A Consumer of Novels Should  
Get Full Value for His  
Money as Well as  
Anyone Else.

(Chicago News.)  
"The man who just went out," said the bookseller, "came into the store to buy a book he had seen advertised. He looked it over and found that it

contained 265 pages of reading matter in big type. 'I could read that book in an hour,' said he, 'and when I dig up \$1.50 for novel I want more than an hour's reading. This thing of making a book of a novelette is a flimflam and I won't stand for it.'

"I must say I sympathized with him. I think a consumer of novels should get value for his money as well as the consumer of codfish or corduroys."

"He should have bought 'His Own Country,' by Paul Kester," remarked the librarian. "There's one of the greatest books of recent times, but it has nothing to do with the war, and hasn't a detective in it, and so it has not made the hit it is entitled to. Nowadays best sellers must be war books or detective stories."

"Kester's novel contains nearly 700 closely printed pages. It was a joy to me. It took me back to the days of my youth, when the purchase of a book was an event in our family. My father earned his money by hard labor, and when he bought a book he weighed it and made sure he was getting his money's worth."

"We loved Dickens because, for one reason, he always gave full measure. A yard of literature meant thirty-six inches with him."

"In the short, modern novels you don't get acquainted with anybody. You shake hands with the hero and then forget him. He might just as well be a graven image."

"Some of our wise authors are realizing that the old leisurely novel was best. Winston Churchill takes his time; so does Hugh Walpole; the younger British writers are going back to the custom of their fathers

### Like Being Hit By Rattle Snake

Says that every time you cut  
or pick at a corn you  
invite lockjaw

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poisoning are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts right out with the fingers, without one particle of pain.

This freezone is a sticky substance which dries the moment it is applied and just loosens the corn without inflaming or even irritating the surrounding tissue or skin. He says a quarter of an ounce will cost very little at any of the drug stores, but this is sufficient to rid one's feet of every hard or soft corn or callous.

You are positively warned that cutting or picking at a corn is a suicidal habit.

(Formerly Windsor.)

and we shall fall in line. I predict that in a few years the standard novel won't run much short of 500 pages.

"This war is going to make us careful of our money, more careful than we have ever been, and authors and publishers, as well as grocers and butchers, will have to govern themselves accordingly. The man who came in to buy a certain book and turned it down because it was too short shows the spirit of the times."

"The silly gift book is doomed. I don't know of any better illustration of our past extravagance than the gift book, which has been so long popular. Some little fiddling story, done up in expensive binding, and sold for as much as a big, substantial dictionary! It gives me a pain in my side to think of it."

### DIET NONSENSE AND FADDISM

(Boston Record.)

With the popular mind so continuously focussed on foods as it is now there is danger of hysteria and faddism to the detriment of many individuals. Mr. Hoover points out, as others of sane mind have done that in the restriction and regulation of diet it is important to eat enough of the right material to keep us all in good health, for a sick nation is a weak nation. All that is common sense, of course. But it is inevitable that into the midst of this should come a deal of silly experimentation with absurd foods and weird combinations. Beware of them! Even so eminent a gentleman as Dr. Wiley is quoted as saying in this city that "milk is the one perfect food." Taken apart from the context of his address as it will be by many heedless persons it is provocative of mischief. Milk is an excellent food and very likely many

"As we learn to conserve and economize we'll inaugurate a big change in the whole publishing business. I believe there is going to be a big slump in all kinds of frothy, ephemeral fiction."

"We have been wasteful in our reading, as in everything else. I will be glad to see the change. But I dropped in to ask why you didn't deliver the 3-cent stamps I ordered by telephone this morning."

### WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### GOT WET FEET TOOK AWFUL COLD Could Not Sleep for Cough.

A bad cold accompanied by a distressing cough that keeps you awake at night is most aggravating, and unless it is attended to at once may develop into something very serious.

Dr. Wood's Norway Pine Syrup is the remedy you should take. It heals the mucous surfaces, relieves oppression and tightness of the chest, removes the accumulation of phlegm, quiets the most obstinate and distressing coughs, and secures rest and sleep at night, not only to the sufferer, but to others whose rest would otherwise be broken.

Mrs. Ezekiel Acker, Lake Pleasant, N. S., writes: "I got wet feet and took an awful cold; could not sleep at night, and would do nothing but cough. My husband got me a bottle of medicine, but it was not worth bringing home. I was going to call the doctor in when a friend asked me to try Dr. Wood's Norway Pine Syrup. I told her I had not faith in it, but she urged me to get a bottle. I did, and I must say that of all medicine I ever took, it is the best, and relieved me the quickest of anything I ever saw."

"Dr. Wood's" is put up in a yellow wrapper; three pine trees the trade mark; price 25c and 50c; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Mrs. Wallace Rokwell has been appointed as a draft adviser in New York city.

of us could use more of it than we do. It is absurd to say that it is the one perfect food for all persons on all occasions—and probably Dr. Wiley would not wish to be so understood. Milk is a food for infants—it is so designed by nature, and it so suffices and nourishes. Many grown persons cannot drink large quantities of it without injury. Nor can any grown person subsist profitably on a liquid diet—our interior is constructed for other diet.

Let us say a passing word on that grand old seducer, the peanut butter sandwich. It is tasty if one likes peanuts. It is fat and it is undoubtedly nourishing to a degree. Many people will be made violently sick on a steady lunch diet of it.

Don't regard your stomach as a laboratory or an experiment station.

ONE ON THE YANKEE.

The captain of the Golden Cross listened patiently to his Yankee passenger's account of his shooting abilities and then quietly remarked: "I don't think you could hit this bottle at 20 yards, placed on the taffrail, while the ship is heaving like this."

"I guess it would be just child's play."

"Well, I'll bet you a guinea you do not hit it three times out of six."

"It's a wager! Come along!" The bottle was placed in position. Crack! The Yankee hit it, and it disappeared in fragments into the sea.

"Trot out another one," said the marksman.

"Not at all. The conditions were that you hit that one three times out of six. Five shots more."

According to latest census there are more women than men in New York city.

## Seed Grain, 1918

Good Seed is scarce. Place your order now with your County Councillor. The Department of Agriculture has ordered wheat and oats through the Seed Branch, Ottawa. The germination is carefully tested.

The Seed is now stored in the elevators at Quebec, thus avoiding transportation difficulties and guaranteeing delivery.

The Department requested the co-operation of the County Councils in the distribution. Seed will be forwarded at their order in car lots, thus avoiding local freights and much handling.

Wheat will cost about \$3.00 per bushel in bags laid down.

The Seed Branch is yet unable to fix the price on oats. Definite prices will be stated in this space immediately they are at hand.

New Brunswick is expected to bread herself for the duration of the war. Every farmer should grow some wheat.

Agricultural Societies should arrange orders early. Send all orders to the County Councillors immediately.

## Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.
