Was Troubled With BOILS FOR SIX MONTHS.

From the days of Job to the present time, boils have been one of the greatest afflictions of the human race.

Very few people escape from having them at some time.

All the poulticing and lancing you may do won't cure them and stop more coming.

Boils are caused by bad blood bursting out, and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters is the greatest blood purifier known. It cleanses the system, and purifies the blood by removing every particle of foul material from the system, and when this is done, never another boil comes and health and strength are permanently restored.

Mr. C. H. Bridges, 470 Barton St. E., Hamilton, Ont., writes: "I was troubled with boils for about six months and tried several remedies without any relief until I tried Burdock Blood Bitters, and the effect has been wonderful. After using two bottles, I was rid of them all. I feel like a new man; my appetite is better, and I sleep better than I have for years. I can highly recommend B. B. B. to all who are troubled as I was."

Burdock Blood Bitters has been on the market for the past 40 years, and manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

STRIKERS ARE GIVEN WARNING

Ottawa, Nov. 26.—It is understood although no statement could be obtained from the company last night, that J. R. Booth has informed the workers who are on strike that unless they return to their duties under old conditions he is prepared to close his mills indefinitely. Practically everyone of the employees of the big industry at the Chaudiere plant are now out on strike and all work is at a standstill.

The man who buys eggs these days will never again sneer at the hen for cackling. Privately, we think every hen yard ought to have a brass band to celebrate the birth of an egg.

Cook's Cotton Root Compound.

For reliable regulation of the system. Sold in three degrees of strength—No. 1, \$1; No. 2, \$2; No. 3, \$3 per bottle. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Walker).

THE REBUILDING OF RHEIMS BEGINS AS SOON AS HUNS LEAVE

Restoration of Homes is the First Step—The Last Shell Thrown Into the City Hit the Historic Cathedral—Its Towers Stand After All the Bombardment It has Undergone—Rheims the Largest French City Destroyed by the Enemy.

PARIS, Nov. 26.—The work of reconstruction has begun at Rheims. The city is known around the world as the supreme victim of Hun atrocity.

The moment shells ceased falling the population streamed back and began work under the direction of Dr. Langlet, the mayor of Rheims. An eye-witness says the final bombardments were more terrible than any the city had endured before. Only wreckage remains. The famous cathedral is a desolate ruin. The scorched, blackened and shell-pitted towers that still stand—as if by a miracle—are in peril of falling.

The towers were swept by flames as the retreating Hun wielded his final firebrand. Statues surrounding the cathedral are only charred ruins.

A gigantic task lies ahead of Dr. Langlet, but he has formed plans of reconstruction, after reorganizing the municipal government of Rheims. Restoration of homes comes first. It will be years before the great cathedral can be restored—if it ever is. A decision has not yet been reached. Many French papers are urging that it be left—as suggested by Lord Derby, British Ambassador to France—as a temple of ruins, a perpetual memorial to the world-scourge the Huns would have wreaked if the world had not risen to stop them.

The very last shell thrown into Rheims by the retreating Huns hit the cathedral. It tore a few more stones from an old breach in one of the arches of the ceiling.

Before the war Rheims, the largest French city destroyed by the Germans, had a population of 120,000. While it has been shelled continually till this fall, not a Hun has put a foot inside the city since 1914, when the French routed the Germans in the first battle of the Marne.

HE USED TO SING, I WANT TO BE AN ANGEL

(New York Sun.)

"Does it ever fail?" quavered the novice as the airplane climbed higher and still higher.

"Only when I let it do so," answered the airman. "Now and then I drop her backward. Here we go!"

On the backward descent, a mile or more, the passenger clung to the pilot with both arms and never breathed. At last the machine resumed its horizontal traveling.

"Great heaven!" gasped the novice with relief.

"Say, look here, didn't you say you wished to flit on high like a gliding sunbeam?" complained the aviator.

"Yes," admitted the passenger.

"Then shut up. You're going to get your wish."

Suddenly the airplane dived and looped the loop, then traveled upside down.

"Hold fast!"

"Wh-what for?"

"We're going to land."

Gently the airplane righted itself and glided to earth. Released from his seat the passenger knelt and lifted both hands solemnly.

"Once I prayed and sang 'I want to be an angel,'" he said. "But it doesn't go any more unless on foot."

SLANTS OF HUMOR

THE BETTER WAY.

To boss a wife but leads to strife,
And quarrels sad.
A better way, the experts say,
Is to be had.

So do not fight, but start out right,
And take your cue.
Drop all regret and calmly let
Your wife boss you.

"Yes, auntie," said one of the gallant fellows inviolated home from the front. "We captured the first line trenches and the same day the French advanced on the enemy and took oh I don't know how many meters from the Germans."

"That was splendid!" replied the old lady. "It ought to put a stop to those dreadful gas attacks we hear so much about."

AN OLD FRIEND PAYS TRIBUTE TO SIR WILFRID LAURIER

(Continued from Page Two)

Senator David, "I will content myself with the observation that Laurier is constituted intellectually and physically to be the worthy successor of our greatest statesmen and the continuation of their policy as wise as it is national. Will not that peace which rejoices the world today appease the germs of discord, as well as put out the fires of religious discord? If the map of Europe is changed so as to respect the rights and traditions of nationalities and render justice to minorities, we have a right to hope that the French-Canadians of North America are not to be alone deprived of those advantages. Unfortunately we will not be represented in London to discuss with the Imperial authorities the grave questions concerning the Empire at large. Why not one French-Canadian on that delegation, and why was not Laurier called upon to accompany them in order that they might possess the benefit of his long experience?"
