THE ALLIES ARE WINNING VICTORY AFTER VICTORY

Bulgaria Out of the War for Good and the Unspeakable Turk Will Soon Cry Quits --- The Allies Are Pounding the Enemy on Six Battlefronts---The Back Door to Austria is Now Open

New York, Sept. 30.—The Associated Press tonight issued the following:

Bulgaria is definitely out of the war and Turkey, virtually cut off from communication with her allies and almost annihilated in Palestine, likely soon will be forced to sue for a cessation of hostilities against her. Meanwhile the Entente allied forces from Belgium to Verdun on six battle fronts are registering victory after victory over the Teutonic arms, and the enemy front almost everywhere is crumbling, notwithstanding the desperate resistance that is being offered on various sectors.

Seeing eventual defeat staring her in the face through the swift progress of the Serbian, Italian, British, Greek and French troops in the reclaiming of Serbia and the invasion of Bulgarian territory, the Bulgarians begged for an armistice; reserving to themselves no conditions. All the territory now held by King Ferdinand's men is to be evacuated; the Bulgarian army is to be immediately demobilized and all means of transport inside the kingdom, even along the Danube is to be given over into Allied hands.

Back Door to Austria Open

Thus, in addition to the isolation of Turkey, the back door to a direct invasion of Austria-Hungary is flung wide open to the Allies, and doubtless the time is not far distant when advantage to the full will be taken of the new avenue through which the enemy can be reached. With the debacle in Serbia and Bulgaria complete, the Austro-Hungarians in Albania soon will be put to the test, and when their evacuation to their own borders is accomplished the Allies will have welded an iron semi-circle about the Central Powers from the Black Sea to the North Sea.

Viewing the situation in all its aspects—the success of the great offensive in Belgium and France; the blotting out of the war zone the Balkans the cutting off the Turks from intercourse with Germany and Austria-Hungary, except by the long route through the Caucasus and Southern Russia, and the steady gains that are being made by the Allies in making Russia once more a factor in the struggle—the darkest days of the war seemingly are faced by the Austro-Germans.

Although it had been officially announced that hostilities against the Bulgarians ceased at noon Monday, the French official communication on Monday night said French cavalry had entered Uskub, one of the most important communication centres in Serbia. It is not improbable that the French reached the town before the armistice became effective.

Beaten Everywhere in West

On all the sectors under attack from Belgian Flanders to the region of Verdun the German front is gradually bending back under the violence of the attack of the British, Americans, French and Belgians.

In Belgium the advance of the troops of King Albert and of Field Marshal Haig have pierced so deeply eastward that Germany's submarine bases on the North Sea are in jeopardy, through the impending cutting off the line of communication behind them. The famous Messines-Wytschaete ridge has been captured and the Allied guns dominate the plains beyond, both Menin and Roulers, important railroad junction points for the supply of the German armies north and south, are virtually in the hands of the British and Belgians and seemingly soon must fall.

From Cambrai to St. Quentin the British and Americans again have delivered successfully hard smashes against the German strong points all along the front, including the remaining portions of the old Hindenburg line. The Germans here are offering most strenuous resistance and in counter-attacks compelled the British on one or two sectors to withdraw for slight distances. The British are in the process of cleaning up the town of Cambrai, having penetrated its suburbs from the northwest and southwest. In the region of St. Quentin where the Americans are fighting with the British, the old Hindenburg line has been cut and penetrated to a depth of three miles over a front of eight miles.

Yielding Chemin-des-Dames

In conjunction with the operations

of the French northeast of Soissons the Germans have begun the evacuation of the Chemin-des-Dames and the French now hold half of this famous defensive position. Likewise there is an indication that the enemy intends to give up the remaining positions held by him along the Vesle to Rheims. In Champagne the French troops west of the Argonne Forest everywhere are pressing forward, and likewise to the east of this position the Americans are moving northward in unison. Already the big forest is virtually outflanked and apparently soon will be made a part of the Franco-American line. From the St. Mihiel sector the Americans are heavily bombarding enemy troops which are being hurried to the front.

Reports from Amsterdam are to the effect that Emperor William has accepted the resignations of Count Von Hertling and Admiral Von Hintze, respectively, imperial German Chancellor and foreign minister.

All Positions Held

Washington, Sept. 30.—American troops have maintained and consolidated their newly captured positions from the Meuse to the Aisne in the face of counter-attacks and heavy artillery bombardment. General Pershing's reports in his communique for today, received tonight at the war department.

WENT TO DEATH

Tried to trim a wart with a razor and severed an artery. The only wart cure is "Putnam's," which removes warts, corns, callouses in one day. Insist on getting Putnam's Corn and Wart Extractor, it's the best. 25c. at all dealers.

INFLUENZA OUTBREAK IS VERY SERIOUS

Montreal, Sept. 30.—Reports received by Major General E. W. Wilson, G. O. C., today showed that the Spanish influenza epidemic at St. Johns, Que., is still rife, with a serious increase in the number of cases, and three more deaths reported, while the epidemic among the soldiers here has also exhibited a decided increase with eighty cases reported. The cases in this city are stated to be mild.

On Sunday afternoon there were 530 cases reported from the engineers' barracks at St. Johns, with six deaths. Today 580 cases are reported, with 9 deaths, the three additional deaths being due to pneumonia.

ANOTHER BIG WAR LOAN IN GREAT BRITAIN

London, Sept. 30.—Right Hon. Andrew Bonar Law, chancellor of the Exchequer, in the course of his speech at the Guildhall today on the occasion of the opening of the campaign for the second thousand million pounds in war bonds, said that of the two methods of raising money, namely—by periodical loans and continuous borrowing the latter had been proved to be far the better, as it caused smallest possible disturbance of the financial arrangements of the country and was also an indication of staying power on which the issue of the war depended. It was also far better from the point of view of post-war financial stability. Mr. Bonar Law said that the wonderful amount of £1,200,000,000 sterling had hitherto been subscribed in war bonds. The new campaign aimed at a weekly subscription of twenty-five million sterling.

He predicted no difficulty in raising this amount as the money was there. Mr. Bonar Law added that at the end of the first half of the current financial year the war expenditure for the first time under the votes of credit system had been less by about £130,000,000 sterling than the budget estimate. Right Hon. A. J. Balfour who followed said that unless such a peace was secured as to prevent a recurrence of wars in the future, our work would only be half accomplished. Before the league of nations set to work there must be a clean slate to make a league of nations possible. Complete victory was absolutely necessary.
