NINE IMPORTANT GAINS MADE BY ALLIED TROOPS

Franco-American forces are fighting ten miles in advance of the point of departure last Thursday---Huns are offering fierce Resistance---Many Cannons and Machine Guns captured from Enemy.

Violent German counter-attacks and rear guard actions in great strength still fail to serve the German high command as barriers to the advance of the Allied troops on the Soissons-Rheims salient.

True, they have aided somewhat in slowing down the fast pace set by the Allies at the commencement of the offensive, but nevertheless on the three sides of the new U-shaped front further important gains have been made.

Driving slowly, but surely, south of Soissons the French and American troops have pushed their fronts farther eastwards toward that part of the Soissons-Chateau Thierry railway line that is still in the hands of the enemy and farther south, along both sides of the Ourcq River and the road leading to Fere-En-Tardenois, Germany's great storehouse for the supply of her troops to the south important penetrations into enemy-held territory have been made until the maximum point where the Allies are fighting near Coincy is about 10½ miles from their point of departure last Thursday.

In the Marne region north of Chateau Thierry the French and Americans have met with the fiercest kind of resistance, for here the German machine gunners and infantrymen are striving hard to stay their progress in an endeavor to extricate large numbers of the German forces who are in danger of capture, and also to save part of the enormous numbers of guns and war material which it is impossible to get out except by the high roads over the undulating and wooded country.

The advantage in the fighting, however, has rested with the amalgamated Allied troops, who have pushed on northward past the village of Epieds and ousted the Germans from the greater part of the Chateau Forest. In this region the Allies now hold the villages of Epieds and Trugny-Epieds

which were captured by the Germans and were recaptured Wednesday in a counter-attack by the Americans. Pressing on northward the Allies have driven their front beyond Courpail, which lies about 6½ miles northeast of Chateau Thierry.

Along the Marne at several points notably in the region of Chartèves and Jaulgonne and farther east at Treloup the Allies have put the northern bank of the Marne farther behind them in advances and captured a large number of cannon and machine guns and considerable war material.

In the region between the Marne and Rheims, where the German crown prince has brought forward large numbers of picked reinforcements to stay the British, French and Italians his warriors are meeting with hard usage. Following up the advances of the French and Italians of Tuesday the British immediately to the southwest of Rheims apparently have begun a movement which possibly portends far-reaching results.

Here the British have overcome a strong counter-attack and following it a violent bombardment and struck the German line at Vignay for a goodly gain. This manoeuvre, if it is pressed to further advantage will seriously menace the Rheims-Fismes Railway a scant three miles to the north and also will tend materially to lessen the girth of the mouth of the pocket through which the Germans are endeavoring to retreat from the Soissons Rheims salient.

Gauged by the war maps, the new inroads of the Allied troops into the German-held territory necessarily add further to the extreme gravity of the situation of the Germans inside the huge pocket, and with the long range guns on both sides of the "U" heavily shelling them assiduously, and with the infantry attacking them on all sides with rifle and light gun fire their situation is seemingly a hazardous one.

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand, the baby may be beyond all human help before the mother realizes he is ill. Summer is most prevalent when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer the mothers' best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

IN MEMORY OF MARYSVILLE HEROES.

(By Wilnot Lyons, Marysville.)
Three brave boys have left our town,
It seems 'twas but today;
But now they sleep their last long sleep
Far deep beneath the fray.

It was an outrage of the Hun
That sent them to their graves.
He stole upon their peaceful ship
As she ploughed the ocean waves.

But now they're gone, those dear brave boys,
Whom we no more shall see;
But we know their names as heroes
shall
Go down to eternity.

And now their homes are stricken
With sorrow, grief and care,
For they know no loved one shall return
To fill the vacant chair.

For they have died that we might live,
And that we might never know
The horrors of the world's great war,
And never face the foe.

The Huns still search the sky by day,
And roam the seas by night;
They steal upon their helpless prey
And never dare give fight.

And now we hope it won't be long
Until justice has been done;
The English Lion shall raise his paw
And crush the angry Hun.
