## PEOPLE ARE EASILY SCARED THESE DAYS

It Will Take Many Years to Educate Fear of the Dentist Out of the Human Race.

(Chicago News.)

"I went to see Jim Smilax get married yesterday, said Loper, "and he was a pitiable spectacle. He was all wilted, and the sweat ran off him in streams. Had he been in the hands of the executioner he couldn't have been scared worse. It's a queer thing. Smilax has more cool courage than any man I know, and he'd face a polar bear without displaying cold feet, but a little thing like getting married was too much for him."

"It certainly is a queer thing," admitted Gamboge, "and doubtless we'd have to go back to the stone age to find an explanation."

"Man is afraid of many things which shouldn't scare him to a minute. People who know me well must admit that I am no poltroon. Produce your Hyrcan tiger, your rugged Russian bear, and my firm nerves will never tremble. I have officiated as judge at a baby show and had a dozen disappointed mothers seething around me reaching for handfuls of my whiskers, and I was as calm as I am at this hour of going to press. I don't know what fear is in the ordinary sense; yet I can't face an audience and make a speech to save myself."

"I'd give a farm if I could rise easily and gracefully and take a fall out of the welkin when I am called upon for a few timely remarks. But when I get to my feet and look around upon a sea of expectant faces, my insides seem to give way and I feel faint and sick, and the next thing I know somebody is stooping over with a palm leaf fan, and somebody else is pouring ice water on me."

"Why should a man be afraid to stand up before his fellow citizens and turn loose his sentiments? Probably some ancestor of mine, back in the interglacial age was swatted over the head with a spiked club while discussing the living issues of the day at some crossroads schoolhouse, and the shock affected all succeeding generations."

"It is but a little while since dentistry was in the same class with blacksmithing. Men who are waxing old can remember when a visit to the dentist's office was something that appalled the stoutest heart. It was the last resort. A victim of toothache would suffer until the last limit was reached before he'd consent to have any dental work done, and no reasonable person can blame him."

"When I was young the village dentist manhandled me two or three times, extracting teeth with a hammer and cold chisel. My own boys have such a dread of the dentist that I have to get the police to help me when it is necessary to take them to his office. There is no apparent reason for it. The modern dentist makes tooth pulling a luxury. It is better than an outing in the woods."

"I suppose it will take several thousand years to educate the fear of dentistry out of the human race."

"About a million years ago a dog threw itself down in the grass and was bitten by a snake. Ever since then dogs have turned around several times before lying down. This fact may explain, in some measure, why Jim Smilax was scared at his wedding."

An employee of the Buenos Ayres Great Southern railway in Argentine boasts of a record of fifteen years of service, during which time he has not taken one hour's leave of absence, and in addition to that, he has put in 7,600 hours overtime.

## YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of freezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that while freezone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

## THE VALUE OF ADVERTISING

The value of Advertising in all cases must be based on the return for the outlay. No better opportunity in this respect can be found in this locality than

## THE DAILY MAIL

This paper has a special value to the local advertiser, as the majority of its readers are in this city and the immediate surrounding country.

Our Advertising Rates will be found decidedly reasonable in view of the results obtained.

## PEOPLE READ ADVERTISEMENTS

They are trying to buy as wisely as they can. It is necessary that they should.

They are eager to know what the local merchants have to offer, and good live advertising is interesting reading to them.

Most of our enterprising business men have already realized this fact and their advertising appears regularly in the Mail.

If you are not a regular advertiser in the DAILY or SEMI-WEEKLY MAIL, you are overlooking an opportunity that no business man in this locality ought to be too busy to appreciate.

In spite of increased prices of materials and the upward tendency in rates for all services in the business world, the subscription price of the Mail has not been increased, and we are daily booking new subscribers, which means more readers and customers for our advertisers.

## VALLEY RAILWAY FUNDS FOR ELECTION PURPOSES

Some Interesting Facts Brought Out by Royal Commissioner Stevens---Large Sums of Money Paid to Party Heelers When an Election Contest was on---Where Mr. W. B. Tennant Came in---Westmorland By-Election Recalled.
