

Public Health Bill Brought Down in the Legislature

Introduced by Hon. Dr. Roberts in an Able Speech---The Need of Modern Methods in the Safeguarding of the Public Health ---The Present System Has Become Antiquated---New Department will Administer the Act.

In the Legislature yesterday afternoon the bill to establish a Department of Public Health was introduced by Hon. Dr. Roberts and given its first reading. In speaking to the question, Hon. Dr. Roberts called attention to the urgent need in this province of legislation to better safeguard the health of the people. His address was an admirable one and will repay a careful perusal. The Provincial Secretary will bring down the budget either on Monday evening or Tuesday afternoon.

Following is the official report of yesterday's proceedings:

The House met at 3 o'clock. Bills relating to the Tracadie Boom Company, Fraser Companies, Limited, the Tabusintac Boom Company and to provide for the payment of an annuity to James Lynn were read a third time and passed.

TRoubled FOR YEARS WITH BRONCHITIS

Dr. Wood's Norway Pine Syrup Gave Instant Relief.

Bronchitis is a disease which is very prevalent during the late winter and early spring, when there are sudden atmospheric changes. It is a condition of inflammation of the bronchial tubes which produces mucous or phlegm. This irritates the throat and causes you to cough in order to get rid of it. The cough may be tight or loose, according as to whether this mucous is sticky and hard to remove, or soft and easily expelled.

Bronchitis is not really dangerous, but the complications which are liable to follow makes it necessary to get rid of it on the first sign. This you can do by using Dr. Wood's Norway Pine Syrup. A remedy that has been on the market for over 25 years.

John D. McFarlane, Jr., S. W. Margaree, N.S., writes: "I was troubled for years with bronchitis, and could not find any relief. I was especially bad on a damp day. I went to a druggist, and asked him for something to stop the constant tickling in my throat. He gave me a bottle of Dr. Wood's Norway Pine Syrup, which I found gave me instant relief. It is the best remedy for bronchitis I know of, and I now take care that I always have a bottle of it on hand."

See that you get "Dr. Wood's." Put up in a yellow wrapper; three pine trees the trade mark; price 25c. and 50c.; manufactured by The T. Milburn Co., Limited, Toronto, Ont.

ed, the Tabusintac Boom Company and to provide for the payment of an annuity to James Lynn were read a third time and passed.

MR. BURCHILL presented the report of the committee on standing rules.

MR. LeBLANC presented the report of the committee on municipalities.

MR. TILLEY gave notice of inquiry as to the painting of the St. John Reversible Falls Bridge.

MR. CAMPBELL introduced a bill in respect to the levying and collecting of taxes in the City of St. John.

The Health Bill.

HON. MR. ROBERTS moved for leave to introduce a bill entitled An Act Respecting the Public Health in the Province of New Brunswick. He said that before entering into an explanation of the measure he would like to take the opportunity of telling the House that he sympathetically concurred in the kindly sentiments touching the untimely death of the late Lieut.-Governor Ganong so fittingly expressed by the Premier, the Hon. Leader of the Opposition and the mover and seconder of the address. He also concurred in their observations on the death of two honored officials. He wished to crave the indulgence of hon. members while he made reference to the death of a former member who he felt satisfied had the esteem and confidence of all his acquaintances. He had reference to the late Mr. Phillip Grannen, who sat in the last House as a representative of the City of St. John. Mr. Grannen was his lifelong friend and fellow citizen and was a gentleman for whom he entertained the most kindly feelings.

Reorganization. In reference to the bill which he was now presenting to the House, he wished to say that his object was to

provide for a reorganization of matters pertaining to Public Health Administration in this province. Someone had said that all laws—natural or man-made—to be lasting and capable of being enforced must be based on a principle. All laws to be intelligent must have a purpose and an object. All laws to be effective must have machinery or means whereby they can be placed and kept in operation. Hon. members now had before them a bill that if passed would create a new and better law in the province concerning public health. They might ask the cause of the suggestion outlined, upon what principle was it based, what was its object and by what means was it to remain effective. In reply he would state that the House had an opportunity and a duty to perform; its existence is justified because its purpose was to deliberate upon questions that affect the good of the state. Its functions and duties are to decide, without prejudice, what is in the public interest and what is for the welfare of the province and its people. The principle of the "good of the state" had been especially recognized as

Women Everywhere Use Lemon Juice To Beautify Skin

The beauty lotion which is becoming so popular throughout the country is easily prepared by anyone, and a whole quarter pint of it doesn't cost any more than a small jar of the common, ordinary cold creams.

Add the juice of two fresh lemons to three ounces of orchard white and shake well in a bottle. Strain the lemon juice two or three times through a fine cloth so no pulp gets into the lotion, then it will keep fresh for months. Regardless of what price you pay or how highly advertised, there is nothing else really more meritorious in beautifying, softening and clearing the skin. As a tan and blemish remover, also to remove oiliness and sallowness, lemon juice has no rival. Massage it into the face, neck, and arms once or twice each day, and just see if it doesn't bring out the roses and hidden beauty!

Lemons have always been used to bleach the skin, but pure lemon juice is too highly acid, therefore should never be used except in this manner.

If properly prepared, this sweetly fragrant lotion will speak for itself. Any drug store will supply the three ounces of orchard white at very little cost, and the grocer will supply the lemons.

the underlying principle of several measures being considered at the present session, such as forest conservation, workmen's compensation, and others, and that principle was the basis of the bill now under discussion. No argument was needed to prove that for the good of the state people should be healthy in body and mind, that disease should be prevented as far as possible, that life should be preserved and taken full advantage of, that working and living conditions and surroundings be clean, healthy and safe. Therefore he wished to say that the principle of the bill he had introduced was:—

The Bill Summarized.

1. To prevent existence and spread of disease.

Wood's Phospholine.

The Great English Remedy. Tones and invigorates the whole nervous system, makes new blood in old veins, cures nervous debility, mental and brain worry, despondency, loss of energy, palpitation of the heart, failing memory. Price \$1 per box, six for \$5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly Winder.)

THE CONGESTION FROM A BAD COLD LOOSENE UP IN ONE HOUR

Nerviline Rubbed On at Night—You're Well Next Morning.

NERVILINE NEVER FAILS

When that cold comes, how is it to be cured?

2. To protect others from persons infected with dangerous diseases.

3. To bring about conditions resulting in the reduction of the death rate of children, and others from preventable diseases.

4. Provision of hospital and clinical treatment along most modern lines.

5. Increase the value of life by lengthening it and removal of retarding weaknesses.

(Continued on page 6.)

This method is simplicity itself; rub the chest and throat vigorously with "Nerviline," rub it in good and deep; lots of rubbing can't do any harm. Then put some Nerviline in the water and use it as a gargle; this will ease the cough, cut out the phlegm, assist in breaking up the cold quickly. There is no telling how quickly Nerviline breaks up a hard racking cough, eases a tight chest, relieves a pleuritic pain. Why, there isn't any liniment with half the power, the penetrative qualities, the honest merit that has made Nerviline the most popular American household liniment.

A large 25 cent bottle of Nerviline cures ills of the whole family, and makes the doctor's bills small. Get it today. Sold by dealers everywhere, or direct from The Catarrhzone Co., Kingston, Canada.

Military Service Act

Important Announcement to All

EXEMPTED MEN and to the Public Generally

IN dealing with the very large number of claims for exemption brought forward for consideration in connection with Class 1 under the Military Service Act, it has occurred, as was inevitable, that as a result of false statements and difficulties put in the way of investigation, some individuals have secured exemption whose proper place is in the Army.

It is not the intention of the Government to allow these men to evade permanently their obligation to bear their part in the military defence of the Country and of the ideals for which we are fighting. To do so would defeat the purpose of the Act, and cause grave injustice to men in the second class necessarily called out to fill their places.

Exemptions Granted on False Grounds

It is, therefore, proposed to scrutinize carefully all exemptions granted to date in order to separate those which have been granted on false or insufficient grounds from those that are well founded.

With this object in view the various Registrars under the Military Service Act have been instructed to issue a series of questionnaires to exempted men. These questionnaires must be filled up correctly and returned promptly under penalty of forfeiture of exemption for failure to do so.

Exempted Men Who Have Changed Address

It is therefore important in their own interest that all exempted men who have changed their address since their exemption was granted and who have not already notified the Registrar of such change should notify him at once. Under the Regulations it is the duty of exempted men to keep the Registrar advised of any change of address, and failure to receive the questionnaire by reason of neglect of this duty must be treated as equivalent to failure to return the questionnaire after receipt.

Citizens Urged to Assist

In many instances information has been furnished by members of the public which has led to the cancellation of exemptions obtained by false or misleading statements. Further co-operation of this character is invited. The Government regard it as the Duty of all loyal citizens, not only to the Country, but to the men at the front, to assist in this way in securing reinforcements on a just and legal basis. Correspondence of this character will be treated as strictly confidential and will receive the fullest investigation.

CHARLES J. DOHERTY,
Minister of Justice.

Correspondence should be directed to W. A. Ewing, K.C., Registrar under the Military Service Act, St. John, N.B.

Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.
