THOUSANDS OF HUNS HAVE ESCAPED INTO HOLLAND

Fifteen Thousand Cut Off by the British Are Forced to Cross Dutch Border and Will be Interned --- Allied Successes on All Battlefronts --- German Papers Call on the Kaiser to Abdicate the Throne

New York, Oct. 20.—The Associated Press tonight issued the following: Victory crown the Allied arms on every battlefield. Northern Belgium is being rapidly cleared of the enemy by British and Belgian forces. Belgians have occupied Zeebrugge and Heyst; have crossed the Ghent-Bruges Canal, and on their left have reached the Dutch front, where 15,000 Germans cut off from their retreat by the advance northward from Eecloo, are reported to have withdrawn into Holland where they were interned.

Ghent, it is predicted from British headquarters, will fall at an early date and the French by a swift stroke along an extended line have put their forces within two miles of Tournai. Thiel is in the hands of the French despite stubborn enemy resistance as well as the high ground round about. British troops have crossed the Selle River have reconquered Solesmes and have had hard fighting not only in the section around that town but at St. Python to the east. Here the British have captured more than 2,000 prisoners.

Since the beginning of the operations in Flanders the Allies have made an advance of more than ten miles over a thirty-six-mile front, clearing all of western Flanders, as well as the coast of the enemy.

Germans Massed to Meet Assault
Fighting desperately to hold their position to the north and south of Le Cateau, the Germans on a front of forty miles have massed nearly half a million men. Their line is vital to the Germans, but is just as vital to the success of the allied arms, which are steadily pushing the enemy back and breaking through at strategic points.

The British third army is smashing its way forward to the south of Valenciennes. Success so far has attended this effort and the turning of this line will prove a source of great danger to vast masses of German troops holding the territory to the north and south.

The American forces operating in conjunction with the British north of Wassigny have advanced to the Sambre-Oise Canal. They occupied Repot, east of St. Souplet, at the point of the bayonet. Wave after wave of machine gunners faced the Americans, who inflicted enormous losses on them.

West of the Meuse American activity was confined to the consolidation of positions captured from the Germans.
