..... "DEMOCRACY AT WAR"  
One of the foremost lecturers of America.

#### JOURNALISTIC AMENITIES

"Our wart of a contemporary," says the Tazville Gazette, "claims as far as the war is concerned to have the earliest intelligence. That is the kind of intelligence they always have at that office. It is more than early; it is primitive."

#### POSSIBLY

"How did Rip Van Winkle come to have time to sleep twenty years?"  
"I suppose he was waiting for one of those fellows who leaves a sign on his office door saying that he will be back in ten minutes."

### CRAMPS AND PAINS IN THE STOMACH QUICKLY CURED BY DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

Mrs. J. Fawcett, Hopewell Hill, N. B., writes: "I am writing you of my experience with Dr. Fowler's Extract of Wild Strawberry."

Last summer I was taken so very sick with cramps and pains across my stomach that I sent for the doctor. He said I had summer complaint and gave me some medicine, but it did me very little good. As I was reading your B. B. B. Almanac, I saw Dr. Fowler's Extract of Wild Strawberry advertised, so I asked my sister to go to the store and get me a bottle, and before I had taken all of it I was a well woman, and have not had the slightest return of the trouble since. I cannot say enough for your valuable medicine and always keep a bottle in the house."

You run absolutely no risk when you buy Dr. Fowler's Extract of Wild Strawberry, as it has been a standard remedy on the market for the past 72 years. Ask for "Dr. Fowler's" and insist on getting it, as the cheap imitations are dangerous to your health. Price, 35c. Put up by The T. Milburn Co., Limited, Toronto, Ont.

### TO ESTABLISH SHIP YARD NEAR QUEBEC

Quebec, July 17.—With a capital of over five million dollars, a new shipbuilding concern will be formed here and will operate one of the largest shipyards in America on the shores of the St. Lawrence, near St. Romauld, on the south shore, opposite Quebec city. The new concern will comprehend a number of actually existing firms, among which are some Ontario companies. The new syndicate will comprise the Federal Shipbuilding Co., of Sarina, the Dominion Shipbuilding Company, of Collingwood, and the Dussault & Hutchison Co., of Levis, and a number of old country French capitalists. The firm will build steel vessels for the French government, and yesterday the building of the docks and the yards was started. The Federal and Dominion shipbuilding companies will cease building ships in Ontario.

#### A NEW EXCUSE

"Did you mail that letter I gave you yesterday?"

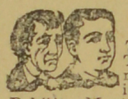

"N-no, my dear, I whistled to the man in the postal airplane but he couldn't come down after it."

#### SOMEBODY MUST LEARN

"We should send our children to cooking school."

"Aw, the girls won't go."

"Then the boys will have to."

**Wood's Phosphodine.**

(Formed, dated.)

### WHAT HE GOT WHEN HE ONLY WANTED A LEMON PHOSPHATE

(Chicago News.)

"What," asked the bilious boarder as he pulled toward him an extra large piece of huckleberry pie, "is a parafine or something like that, that you get at a soda fountain?"

"I expect you mean 'parfait,'" suggested the pretty teacher.

"French for 'perfect,'" said the well informed boarder.

"That's what I got then," resumed the bilious boarder. "I went to a soda fountain and told the girl that I wanted lemon phosphate and I knew by the dubious look on her face that she considered the construction of a lemon phosphate a matter of grave difficulty."

"But she was game. She pulled down the corners of her mouth and grabbed a glass, a sort of non-committal glass that would fit anything from a noodle eggnogg down to a nut sundae. Then she decided to consult the boss, and she dug him out from behind a glass partition and after that came back with more assurance. She asked me 'what flavor' and I said 'lemon.' She squirted some substance into the glass and took a look at it, and it looked all right to her. She didn't show it to me, though I think she would have been glad to consult me about it."

"Then she took the top off the ice cream freezer and got a spoonful of stuff. It was a spoon built on the dump cart plan and she unloaded a spoonful into the glass and took another look at it. She asked me what flavor again and I said 'still lemon.' Then she opened up another ice cream freezer and dumped in some more ice cream and then began to take down jars off the shelf. She put in some nuts and then stirred the compound vigorously, after which she put in a couple more squirts and stirred it some more. Finally she put some whipped cream in and added a cherry on top of that and handed me the concoction quite gingerly. I took it the same way."

"It looked pretty good with all that whipped cream and the cherry on top, and I got busy. The girl drew off a little way and watched. The first time she had occasion to come my way she asked me how it was and I said it was fine. She was much relieved."

"Later on she showed up again and inquired anxiously how it was. Again I said 'Fine!' The next time she showed up with the question I said 'Why the thing is fine, but what is it?'"

"Blessed if I know," confided the girl, "but I think it's what they call a parafine or something like that, and it costs 30 cents."

"Gee—whiz!" I said. "I haven't got 30 cents unless you'll take my crooked

dime. What I ordered was a lemon phosphate."

"If that's the case," said the girl, "we will only charge you for the phosphate, and you can keep your bent dime."

"Why, I should be delighted!" said the pretty teacher, evidently on the invitation of the sensible boarder, who had proposed that the pretty teacher go with him to the nearest soda fountain and partake of one of those contrivances of which the bilious boarder had spoken so glowingly.

### COUNCILLORS SWALLOWED A CAMEL

(Chatham Commercial)

The Municipal Councillors of York appear to hold somewhat peculiar views on the matter of careful expenditure. For instance, at the recent meeting of that body—as reported in the Press—one of them referred to the Councillors' remuneration remarking that he understood there had been some change in the law with regard to the amount of it. Others had heard the same thing, but no one seemed to know what the increase was. However, a trifle of that kind could not be allowed to interfere with the Councillors' rights so to dispose of the question, a resolution was proposed that the Councillors be remunerated "to the fullest extent that the law allows." This apparently met with the entire satisfaction of every one, for the report says it was "carried by acclamation." Shortly afterwards a councillor got up, and expressed the view that in war-time they should be as economical as possible, and to that end he suggested that each councillor leave the stationery provided, on his desk till the January session, instead of taking it home as they had been accustomed to do, as by this means some \$10 or \$12 would be saved, and a motion to that effect carried. They couldn't stand the \$10 gnat but they could swallow easily enough the \$60 a day camel!

### Women Everywhere Use Lemon Juice To Beautify Skin

The beauty lotion which is becoming whole quarter pint of it doesn't cost so popular throughout the country is easily prepared by anyone, and a any more than a small jar of the common, ordinary cold creams.

Add the juice of two fresh lemons to three ounces of orchard white and shake well in a bottle. Strain the lemon juice two or three times through a fine cloth so no pulp gets into the lotion, then it will keep fresh for months. Regardless of what price you pay or how highly advertised, there is nothing else really more meritorious in beautifying, softening and clearing the skin. As a tan and blemish remover, also to remove oiliness and sallowness, lemon juice has no rival. Massage it into the face, neck, and arms once or twice each day, and just see if it doesn't bring out the roses and hidden beauty!

Lemons have always been used to bleach the skin, but pure lemon juice is too highly acid, therefore should never be used except in this manner.

If properly prepared, this sweetly fragrant lotion will speak for itself. ounces of orchard white at very little. Any drug store will supply the three cost, and the grocer will supply the lemons.

### THE SULTAN HAS DIED

(Boston Record)

Sitting nine years on a rotten throne, a Sultan has fallen to the ground; and his ashes are swept up and cast to the winds that blow with no reckoning of despots and puppets. Heir of a long line of cruel greatness, weak inheritor of tawdry splendors, bearer of a mantle that sagged uselessly on shoulders bowed with burdens greater than those of labor, Mohammed V. is no more. And from sitting too long about this rotten throne his nation is in decay and crowding close upon the edge of disaster and death.

Romance, kind mistress of the imagination, trips lightly over the grisly tragedies of Eastern despotism, tells us of the magnificence of ancient days and the gorgeous splendors of Oriental memories. But today a searching of pitiless truth has penetrated the cloth of gold; and the crimson robes of pretentious state are no more clad the gossamer that the spider spins on the lawn to catch the dew. The light of day sends them melting to nothing and the tread of truth goes its way across the folds of human endeavor.

A Sultan of Turkey has died, and it means little. Perhaps there may ensue a shift in the positions of the powers; perhaps the tenacity of the Turk in cleavage to the Teuton may weaken, perhaps may break altogether. It is a detail in the inexorable working out of fate. In the weaving of history's loom there is no longer any bizarre design of Eastern domination, no blood-red pattern such as has been lately woven across Armenia. There is an end of these things, and the end comes close.

Whether Mohammed lived or died, the death of those decayed things for which he was sponsor and champion is decreed. Sultans and Kaisers—the nodding figureheads of wrecked ships.

#### ARE HARD TIMES COMING?

Yes, for the man that wears tight boots, but his corns are relieved quickly by Putnam's Corn Extractor. No pain and certain cure. That's Putnam's. Use no other, 25c. at all dealers.

### FOOD PRICES STILL GOING UP

Ottawa, July 17.—A continuance of the upward tendency in the cost of living is shown by the labor committee's report on food prices for month of June. The average cost of a family budget of staple foods in some sixty cities the middle of June was \$12.77, as compared with \$12.66 for May, \$11.89 for June, 1917, and \$7.35 for June 1914. In prices the advance in meats, coal, wood, oil and eggs continued, but there were declines in butter, milk and potatoes.

#### MAYBE

"Seems to me the skirts are getting shorter. What causes it?"

"Dunno. It may be the result of being knee deep in June."
