

## NEW HEALTH FOR WOMEN

The most fateful years in a woman's life are those between forty-five and fifty. Many of the sex enter this period under depressing conditions through overwork or worry about the home, or through a condition in which the blood is weak or watery and so they suffer heavily. Among the commonest symptoms are headaches, feverish flushes, palpitation of the heart, dizziness, backache, depression and other well recognized disturbances of the health which signalizes that the blood requires attention. Women urgently need rich, red blood all their lives, but never more so than in middlelife, when the nerves are also weak and overwrought.

## IVORY TOP HAD HIS PASSPORT FOR BERLIN

Sandy Splits says he guesses most all the high class young fellows in America must have volunteered for the first draft because some of the birds we are getting over here now as recruits must have either been born in a stone quarry or a marble works by the quality of the stuff they got in their domes.

Anyway, there is sure some high grade ivory tops in this bunch of replacements we got in last week. There's a dozen of them and every one is what you might call a Corporal's Delight. Some of the birds can't even read and they don't know a Lee-Enfield model rifle from an automobile. They couldn't tell you whether a Mills hand grenade was something to eat or to throw at Fritz.

It's something awful, too, the way that Sandy rides them all over the lot. Yesterday he went up to one of them that couldn't read and asked him if he had got his special orders yet. Of course he hadn't heard anything about orders so Sandy told him he go look 'em up for him.

In about three minutes Sandy come back with a slip o' fpaper and handed it to this bird Jake.

"That's your orders to go to your post. You want to get all your equipment and pack together and start out just as soon as you can after it gets dark. Take this road right here."

Jake thanked Sandy and hustled up and got his stuff all together and about 7 that night started out headed right straight for Germany. Just by chance he hadn't gone more than about a mile when some officer who happened to pass him on the road asked him where he was going.

"Down there to my new post, sir," Jake answered.

"Got a pass?"

"Yes, sir. Here she is," back with a slip of paper and handed per and hands it to the lieutenant.

When the officer read it he began laughing and then he told Jake that the orders had been changed and for him to go on back to his company. Jake thanked him and saluted and went on back. Then the officer just stood there and read the note over again, laughing harder than ever. Here is what it was:

"Pass Private Jake Strozky on to Berlin, signed President Wilson."

## When Canada Promises to Pay

There is no more certain way of making money than by loaning money at interest.

—provided the security is good.

—provided the borrower is known to be able to pay the interest as it falls due and to repay the principal on the date specified.

When you loan money to Canada you know beyond all possible question your money is safe—the security for the loan indisputable.

Canada's war debt per capita is the lowest among the nations at war—her wealth per capita, enormous—her resources, so great as to be almost beyond reckoning.

—as a loan in which there is absolute certainty that the borrower will repay and equal certainty that the interest will be paid every six months.

And all the resources of Canada are behind the Victory Loan 1918, which will be open to the Canadian people for subscription within a few days.

Like the Victory Loan 1917, it will be welcomed by all loyal Canadians:—

—as an opportunity of proving that we are determined to fight on to Victory with our dollars, as well as with our men and our guns.

—as an opportunity of placing our earnings in what is at once the greatest of causes and the safest of investments.

The security is so strong that none can question it—for it is safeguarded by all the wealth that Canada possesses—by all the developed resources represented by her combined industries and by all the untouched resources of her mines, forests, lands and fisheries.

When you invest in the Victory Loan 1918, you will become the owner of a Victory Bond. That Bond is Canada's signed pledge of repayment—a pledge that Canada is in honor bound to redeem—and, in wealth of resources, abundantly able to redeem.
