BOASTING OF FRIGHTFULNESS

(New York Sun)

Was ever a more amazing official document conceived than that which the German government is said to be circulating in Spain! Four years ago it would have been considered impossible, but we are learning more every day about the Teutonic mind. This booklet, written in Spanish, contains a warning to neutral nations. "See what we'd do to you, too, if we get a chance," is its purport. The idea persists that all non-German nations must necessarily be so frightened by the horrid achievements of the Prussian that they can be scared into servility. It remains the most curious delusion of the Teuton mind in spite of the accumulating mass of evidence as to its futility. Indeed, it can hardly be said that even the light headed Russians were frightened into accepting a German "peace". Terror was not their compelling motive.

This precious document boasts of the enormous amount of loot gathered in Belgium and France, ranging from military spoils down to such items as "417 high grade watches." It gloats over the destruction of four cathedrals and scores of churches. It specifies the money fines levied. And most mends German maltreatment and starvation of the war prisoners! The only item omitted is the number of women outraged, the total of men and girls carried off into slavery and of children tortured. The omission is curious; probably an oversight. Perhaps the "417 watches" were regarded as more important.

Its conclusion is: If there are any still thinking of siding with the Allies let them take warning from the fate of the others."

The document should, indeed, have an effect on neutral nations, but hardly that anticipated by Germany.

A CRIPPLE FOR THREE YEARS

Helpless In Bed With Rheumatism
Until He Took "FRUIT-A-TIVES".

MR. ALEXANDER MUNRO

R.R. No. 1, Lorne, Ont.

"For over three years, I was confined to bed with Rheumatism. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit.

Finally, I decided to try 'Fruit-a-tives'. Before I had used half a box, I noticed an improvement; the pain was not so severe, and the swelling started to go down.

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place."

MISS REDMOND MAKES APPEAL FOR HARMONY

London, May 25.—Mrs. Max Green, who was formerly Miss Johanna Redmond, daughter of the late Mr. Redmond, makes a strong appeal for unity between Ireland and England against the common enemy, Germany, in a letter printed in the Manchester Guardian. Mrs. Green blames Germany for widening the gulf between Great Britain and Ireland, calls upon her countrymen to supplement the religion of hate which Germany is spreading in Ireland with a league of good will.

REPORT ABOUT KERENSKY WILL NOT DOWN

A Canadian Atlantic Port, May 23.—Rumors that Alexander Kerensky, former Premier of Russia, is on board a Scandinavian steamer which arrived here yesterday from a trans-Atlantic port, still persist. The port authorities neither confirm nor deny the report. Newspaper men are still debarred from the ship, which is anchored in the stream.

A visitor to the steamer returned to shore this morning and said that he had asked the captain whether or not Kerensky was on board. The master's reply was that there was no one of that name among the passengers. The visitor then asked if Kerensky was travelling incognito, to which the captain replied that he did not know.

The Danish mission to the United States, which arrived here on this steamer, will come ashore at one o'clock this afternoon to lunch with local dignitaries.

Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.
