

## Mother's Pet Needs a Cascaret

Baby is mad! Doesn't want the favorite dolly, or the horn, or the picture books—but don't scold! Look at the tongue! Then hurry! Give candy Cascarets to work the nasty bile, souring food and constipation poison from the little liver and bowels.

MOTHERS! Clean the clogged-up places. Do away with the bile, sour fermentations and constipation poison which is keeping your little one cross, feverish and sick. Children love Cascarets, because to them it is like eating candy. Cascarets act better than castor oil, calomel or pills on the tender stomach, liver and bowels. Cascarets never gripe, never injure, and do not disappoint the worried mother. Give harmless Cascarets to children one year old and upwards. Each ten cent box contains full directions.

German authorities are now telling their people to "cheer up! the worst is yet to come!" Turkey is beginning to have a suspicion that the doom of Thanksgiving Day is approaching.

The indications are that the unspeakable Turks are wobbling and will soon follow the lead of the Bulgarians and throw up the sponge.

## SHOULD FINISH THE STOCK BEFORE IT IS MARKETING

The British Ministry of Food states that so long as space for transatlantic cargoes is so very limited as at present, it will be unable to accept unfinished beef carcasses for transportation to Great Britain or the Allies. Beef of this class includes a considerably larger percentage of bone and waste than does the well finished article and at the same time is more difficult to handle and less easily preserved. For somewhat similar reasons the Ministry states that it will pay the top price only for bacon which is cut from select hogs weighing between 150 and 250 lbs. Live weight. The beef carcass, in order to be favorably considered should weigh at least 500 lbs. It is of the greatest importance therefore, that our farmers and feeders should make every effort to finish their stock before marketing. If any are in such a position that they cannot finish it themselves they should do their best to place it in the hands of those who can. The situation in Eastern Canada is unquestionably good so far as roughage is concerned and we are just finishing harvesting one of the best crops of grain that we have ever taken off and, while Western Canada has suffered somewhat from drought and frost conditions have improved immensely since July last. I feel justified, therefore, in asking the farmers throughout this country to make a special effort to market only finished stock within the weights indicated.

Quality Important

Production is exceedingly important

ant but quality condition and finish are even more essential if we are to ensure our products reaching the markets of Great Britain and our Allies as is evidenced by the statement in the first paragraph. There is however another reason and to our farmers and in fact to all Canadians an almost equally important reason why we should do our utmost to put only meats of the best quality and finish on the export market at the present time and in the immediate future practically all our bacon surplus and a very large portion of our surplus of beef must find its outlet in Great Britain. If, therefore, we would retain our place on the British market both now and in the future it is apparent that we must maintain the good reputation we already have for a superior article of bacon and improve our present status as a beef producing country and, since the very existence of our bacon industry and in no small measure the continued prosperity of our beef producing interests depend upon our standing in the British market. I make this appeal feeling convinced that the standard set this year may easily determine our reputation and largely establish our commercial position in these lines for not only the immediate but also for the more distant future.

It seems to me therefore, that I am not exaggerating when I say that upon our handling of this situation at the present time depends in no small degree the life of our bacon and beef trade and I feel that I am not asking too much when I urge upon every individual farmer and feeder the importance of each one doing his utmost to ensure only finished animals going to the block.

## TIMBER BERTH SALE FINISHED YESTERDAY

Highest Bid was \$17.25, with Second Highest \$16.50—A Very Successful Sale.

The sale of timber berths was completed Thursday afternoon with the highest bid \$17.25 per thousand. Another high bid was \$16.50.
