ALLIES AGREE ON POINTS OF TERMS OF ARMISTICE

Final Terms of Peace will be Submitted to the Huns at the Same Time—Enemy Fleet Must be Surrendered, U-Boats Included—Vienna Newspaper Declares That Both Germany and Austria will Capitulate in a Few Days.

London, Oct. 29—The Versailles conference according to the report current in London this afternoon, has agreed on the main points of the armistice terms, which will now be considered by the military commanders.

The final peace terms it is stated, will be submitted to Germany simultaneously with the armistice terms.

Must Surrender Fleet

London, Oct. 29—As part of the terms of an armistice the Evening News says it understands the allied nations will insist upon the surrender of the German fleet, including all the German submarines, and upon the occupation by allied forces of all fortified towns on the Rhine.

Huns Also to Capitulate

Paris, Oct. 29—The executive committee of the German parties in Austria has formed a provisional government according to a despatch from Vienna and has decided to send a separate note to President Wilson.

The Arbeiter Zeitung, of Vienna declares that Germany and Austria-Hungary will capitulate without delay.

Summary of the News

New York, Oct. 29—The Associated Press tonight issued the following: In the Italian theatre over a front of nearly forty miles from the Brenta to the middle reaches of the Piave river, the British, French and Italians are developing with success an offensive against the Austro-Hungarians and are swiftly driving them from the mountain passes toward the Austrian frontier and across the plains east of the Piave in northern Italy. American reserves are behind the lines prepared to aid the Allies when the opportune moment arrives.

On all the other battlefronts, the Allied arms continue to be served. In Belgium there has been little fighting except by the artillery wings of the opposing armies, while in the region around Valenciennes the engagements

THE SAINT JOHN & QUEBEC RAILWAY COMPANY.

between the British and the Germans have savored more of outpost encounters than pitched battles. In whatever fighting there has been, however, Field Marshal Haig's men have retained the upper hand and taken more prisoners and additional guns and war stores.

Farther south the French are continuing successfully their process of levelling the old salient between the territory east of St. Quentin and Bethune. Additional progress has been made by General Debeney's troops notwithstanding the violent resistance of the Germans, who all along the front are using machine guns to retard the advance of the French toward the important lines of railway communication to the east. On some sectors the Germans are slowly retreating, but nowhere are the French patrols permitting the enemy to get out of contact with them.

American Front Quiet

Aside from artillery and machine gun activity there has been little fighting on that part of the front held by the Americans from the Meuse river to the vicinity of Grand Pre.

The Germans have been heavily bombing the American positions with shells of all calibres, including gas projectiles with the Americans arguing them shot for shot. The new big guns of the Americans are violently shelling German positions far behind the lines, taking under their fire towns of strategic importance from the standpoint of communications and troop formations preparing to be sent as reinforcements to salient points of the crumbling line.

Confians lying to the west of Metz and the principal junction point of communication with the big fortress on the Moselle and Spincourt and Dommary-Baroncourt, also important railroad junctions all were under a particularly heavy fire from the American guns throughout Tuesday. In addition American aviators continually are lending their aid to the big guns in the process of blasting enemy positions and troop concentration points inside the German lines. In the latest operations by the aviators nine German machines were sent crashing.

Large numbers of prisoners and numerous guns have been taken by the Allied troops in the big battle that is in progress on the Italian front. The Allies particularly the British are well across the Piave river from where the battle line in the mountains curves and bends southward toward the Adriatic. The latest British official communication announces that the opposition of the Austro-Hungarians appears to be weakening in the face of the attacks of the British Tenth army which is successfully driving northeastward.

Whole Line Advanced

Italian Army Headquarters, Oct. 29—Conegliano has been taken and the whole line has been advanced between that important railway and the road centre and Val Dobbadende.

BOMBING HUN POSITIONS

London, Oct. 29—The British Independent Air Force again has been busily engaged in bombing German positions far behind the battle line and has met with good results, according to the official communication to-night.

"On Monday we carried out heavy attacks on the Morhange and Frescaty airdromes," says the communication.

"Monday night we attacked the Badischer soda factory at Mannheim and the railways at Treves and Saarbrücken. The railway junctions at Longuyon, Ecouvies and Thionville also were attacked with excellent results."

"To-day the railway junction of Longuyon and the airdrome at Jemetz were attacked."

To Assist at Minto

A unit of the V. A. D. of St. John which was stationed at Partridge Island has been sent to Minto to assist in the influenza epidemic. Miss Genevieve Munroe is acting miron.
