

## HAD BRONCHITIS FOR THREE YEARS

COULD GET NO RELIEF.

Bronchitis is generally the result of a cold caused by exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is also a raising of phlegm from the lungs, especially in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, and cours lining of the lungs and bronchial tubes, and rids the system completely of all the bad effects of lingering coughs and colds.

"My mother is now using of for asthma. It is a great medicine and we never want to be without it."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 25c and 50c; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

"groggy," but the referee had no chance to "count her out." At home and abroad her sons and daughters sprang to her aid, and none more promptly than Colonel Bob, whose heart held ever his youthful attachment for the old Garrison City.

### His Services for Halifax.

Col. Low proffered his valuable services free. In those first terrible days when men's hearts were almost dead within them, and brains were almost paralyzed by the appalling wreckage and the thousands of homeless people who must be fed and sheltered, many hearts took new courage and many tongues uttered grateful thanks when the news came that "Colonel Bob Low, the man who built Valcartier in no time" was on the way to Halifax. The future brightened and drew nearer.

No one can estimate how much his services have meant to this community, nor how great has been his accomplishment. It was not difficult for Colonel Bob to secure help. From every part of the Dominion men answered his call, and despite a winter that has outdistanced any season in two decades for blizzards and zero weather, the work of reconstruction has gone forward marvellously. The bare job of putting semi-shattered houses and buildings into habitable condition was enough to feaze most men. But Colonel Low is different.

He knew that not even a great disaster made human nature over completely, so that his job was likely to prove thankless, and its immensity be under-estimated. Even the smallest oversight was likely to be magnified into an enormous offense by some carping critic, because few people have imagination enough to grasp the degree of progress unless it is spectacular. But Low kept on, and people were able to pull through the winter in their temporarily repaired homes.

#### Why Dodd's Kidney Pills Hold Their Popularity.

Dame Clement Collin Tells Why She Recommends Them to Her Friends—How They Have Made Their Reputation.

Breche A Manon, Que., April 1.—Among the many friends Dodd's Kidney Pills have made in this part of Quebec is Dame Clement Collin, a well known resident of this place. "I received great relief from Dodd's Kidney Pills" is the reason she gives for always recommending Dodd's Kidney Pills to her friends, and she adds that a great deal of her health and vigor is due to the help she got from the great Canadian remedy.

Dodd's Kidney Pills hold their popularity not because of the promises they make, but because of the good they do. They are no cure-all. They are purely and simply a kidney remedy. The reason they are credited with cures of rheumatism, heart disease, dropsy, etc., is because all these diseases are caused by sick kidneys. Cure the kidneys and the cause of the disease is removed.

Dodd's Kidney Pills have made their reputation as a kidney remedy by the cures they have made. Ask your friends about them.

well as repairing was going forward. The small flats on the Exhibition grounds where hundreds of those whose homes were destroyed are now comfortably housed, were built in about thirty-two working days by the force of men whose inspiration and director was no other than Colonel Low, Superintendent of Reconstruction at Halifax. In the same magical way the houses on the Citadel sprang up, and now that spring is opening, and "building weather" will soon be with us, we are likely to see further marvels produced under the direction of this wonder-worker in the world of construction.

FORD, ONT.

Supplied as  
chassis only

Heretofore, the Ford user who wanted to carry loads up to a ton found it necessary to get one of several special attachments or extensions which were on the market. Now the standard Ford truck is available—a car that can withstand the drudgeries of commercial use, and yet lacks superfluous weight, and is easily handled.

The truck differs from Ford passenger cars in that it is specially designed throughout in proper pattern and strength for heavy-duty service. It has a final drive of the worm gear type, so that all gears are enclosed. Rear wheels are equipped with solid tires. Front tires are pneumatic. Standard Ford motor, transmission and ignition.

The largest truck and automobile company in the British Empire, with an organization of more than 700 Canadian dealers stands back of every Ford truck purchased.
