

DISTRIBUTION OF SEED GRAIN, 1918

GOOD SEED IS SCARCE. Place your order now, with your County Councillor. The Department of Agriculture has ordered 56,000 bushels of oats and 18,000 bushels of wheat.

Oats will be sold for \$1.32 per bushel, in bulk car lots, or \$1.38 in bags in car lots laid down.

Wheat will be sold for \$3.00 per bushel, in bags car lots or f. o. b., distributing point for smaller orders.

Local freights will be paid by purchaser. County Councillors and Agricultural Societies should place car lot orders immediately, stating destination for cars. Delivery not guaranteed unless orders placed within three weeks, because of transportation difficulties.

New Brunswick is expected to bread herself for the duration of the war. EVERY FARMER SHOULD GROW SOME WHEAT.

DEPARTMENT OF AGRICULTURE,
FREDERICTON, N. B.

42ND ANNUAL MEETING
FARMERS' & DAIRYMEN'S ASSOCIATION
of New Brunswick.

FREDERICTON, MARCH 12, 13, 14 and 15.

Delegates need buy single fare only, and apply for Standard Certificate.

Provincial Seed Fair in Convention, March 15.

Speakers will include officials of Agricultural Department, of the Experimental Farm, and of the Central Experimental Farm at Ottawa. A fund of information which no farmer or dairyman can afford to miss. Come and Learn More of Greater Production.

THE VALUE OF ADVERTISING

The value of Advertising in all cases must be based on the return for the outlay. No better opportunity in this respect can be found in this locality than

THE DAILY MAIL

This paper has a special value to the local advertiser, as the majority of its readers are in this city and the immediate surrounding country.

Our Advertising Rates will be found decidedly reasonable in view of the results obtained.

PEOPLE READ ADVERTISEMENTS

They are trying to buy as wisely as they can. It is necessary that they should.

They are eager to know what the local merchants have to offer, and good live advertising is interesting reading to them.

Most of our enterprising business men have already realized this fact and their advertising appears regularly in the Mail.

If you are not a regular advertiser in the DAILY or SEMI-WEEKLY MAIL, you are overlooking an opportunity that no business man in this locality ought to be too busy to appreciate.

In spite of increased prices of materials and the upward tendency in rates for all services in the business world, the subscription price of the Mail has not been increased, and we are daily booking new subscribers, which means more readers and customers for our advertisers.

CORN YIELDS BEST WHEN
PLANTED ON A CLOVER SOD

(Experimental Farms Note.)

Nearly every farmer knows what his corn crop means to him in his live stock work. First, it makes, when put into the silo, one of the cheapest and most palatable of feeds as well as one that makes a good balanced ration with clover, hay, roots and a small amount of grain, for milk production as well as beef. It is also very servicable to feed to sheep, idle horses and colts, in limited quantities. Second, it is one of the best crops to work into your farm rotation, for the frequent cultivations that are necessary to get the best results with corn, clean the soil well of weeds and leave it in the best possible shape for the following crop, which is generally grain of some kind seeded down with ten to twelve pounds of clover and ten pounds of timothy added per acre.

At the experimental station, Lennoxville, Que., it has been found that corn does the best on a clover sod. Manure is spread in winter on the corn ground as drawn from the stables so as to save labor, at the rate of about fifteen tons of manure per acre.

In spring this manure is ploughed under with the green sod, turning quite a shallow furrow, say five inches. The manure and green sod, when turned under and packed properly, commence to decay, warm up the soil and give the young corn roots the best chance possible. The ploughing of the corn ground may be left until nearly ready to plant for the soil is then generally in better shape to work. The plough is followed with the double disc harrow so as to pack the furrows, save evaporation and also to get a good seed bed before the soil gets baked, as it will if left exposed to the sun long after ploughing before being worked.

By all means be sure to have as perfect a seed bed as possible before planting for that is half the battle. When you have this be sure to have the best seed possible with good germinating qualities and of the variety best adapted to your district.

At Lennoxville in the Flint varieties, Compton Early and Longfellow, and in Dents, Wisconsin No. 7 and Early Learning have been found to be about the best.

Corn should be planted thirty-six to forty inches apart, in rows according to the variety, but if weeds and couch grass as present it might be preferable to plant in hills three feet apart each way in order to allow for cultivation both ways. When planting in rows try to arrange to have the rows run north to south in order to get the most sun possible which is needed so much in this district for the crop. Frequent cultivation and hoeing around the plants are very essential.

As to the mode of harvesting and conserving this important crop the

silo is strongly recommended, but if shocked up in quite large shocks and tied with binder twine near the top and left in the field until required the corn makes very good feed when run through the cutter though not nearly so much relished as is the ensilage.

NO MORE ASTHMA
A CURE DISCOVERED
THAT REALLY DOES CURE

Thousands Testify to the Lasting Benefit Derived by This Marvelous Preparation.

The country is simply wild over the wonderful cures of chronic asthma that are being made every day by Catarrhazone. It is a scientific surprise, a perfect marvel the way it brings old chronics back to health. You will say so yourself after you have used it once, say so after the very first time. Ever since people first began to have asthma, Catarrhazone is certainly the best remedy discovered.

Creghton E. Thompson, well known in Calgoary, writes:—"Nothing too strong can be said for Catarrhazone. I suffered four years from Asthma in a way that would beggar description. I went through everything that man could suffer. I was told of Catarrhazone by a clerk in Findlay's drug store and purchased a dollar package. It was worth hundreds to me in a week, and I place a priceless value on the benefit I have since derived. I strongly urge every sufferer to use Catarrhazone for Asthma, Bronchitis and Catarrh.

The one dollar package lasts two months; small size, 50c.; sample size 25c.; all storekeepers and druggists, or The Catarrhazone Co., Buffalo, N. Y., and Kingston, Canada.

I wonder what's
wrong with
my Tea?

My! This certainly
IS good
Tea

The woman on the left bought some "cheap" tea. You can see she's not pleased. She's sorry now she tried to save a few cents by buying the "cheap" tea.

How different with the woman on the right. The fragrance of her tea tells her how good it is. She paid a few cents more for Red Rose Tea than the other woman paid for her "cheap" tea—and besides Red Rose will prove more economical in the end!

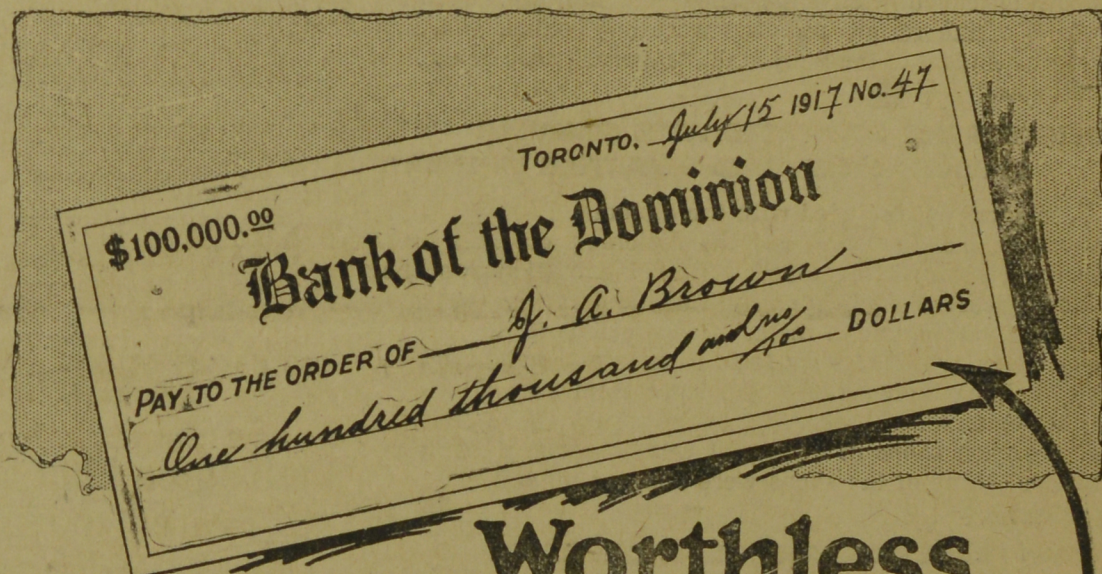

Because of the rich flavor and vigorous strength of the Assam teas of which Red Rose chiefly consists, it will make 250 cups to the pound, or about a fifth of a cent a cup. So cheap that the very poorest can afford it, so good that the rich can find nothing better.

SPECIALIST SAID
HE MUST OPERATE

She Took "FRUIT-A-TIVES" Instead,
And Is Now in Perfect Health.

MME. F. GAREAU

153 Papineau Ave., Montreal.
"For three years, I suffered great pain in the lower part of my body, with swelling and bloating. I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This, I refused to permit.

I heard about 'Fruit-a-tives' and the wonderful results it was giving because this medicine is made from fruit juices, so decided to try it. The first box gave great relief; and I continued the treatment, taking six boxes more. Now, my health is excellent—I am free of pain and swelling—and I give 'Fruit-a-tives' my warmest thanks."

Mme. F. GAREAU.
