TRADE WITH BRAZIL.

There is an unlimited field for the extension of Canadian trade in Brazil at the present time," declared Rev. J. D. McEwen, returned missionary from Brazil, during the course of an interview with the Financial Post.

"Brazil is just beginning to awaken to the modern ways of doing things, and the people are kindly disposed toward Canadians and Canadian industrial leaders. This has come about as a natural course of events. The part that Canada has taken in the present war has been a big factor in helping the Brazilians to feel kindly disposed toward Canadians. Furthermore, Canadian captains of industry were among the first to start the modern development along the lines of light, power and telephone systems. Alexander McKenzie, who is president of the Brazilian Traction, Light and Power Co., Ltd., is a Canadian. This company has the control of the light, power and telephone systems in Rio de Janeiro, the capital of Brazil, which is a city of 1,000,000 people. They also control the same industries in San Paulo, a city of 300,000 inhabitants.

The leadership in industrial development afforded by these concerns has been a big factor in causing the Brazilians to be kindly disposed toward Canadian enterprise. The sewage systems of Rio and San Paulo were due to the enterprise of Canadian companies.

"These examples of enterprise have caused the Brazilians to awaken to the possibilities within their own country. Fourteen years ago, when I first visited the country, the city of Rio de Janeiro had a street car system that was to say the least very antiquated. Little cars were drawn by three donkeys and the transportation was not at all rapid. Now the city has a magnificent traction system.

"Like Japan, Brazil has awakened, but unlike China, they have invited everything modern. Indicative of the field that is ready to be harvested for exporting concerns, it need only be mentioned that before the war Brazil bought from Germany goods to the value of \$10,000,000 yearly. This market is now gone so far as the enemy country is concerned. And it should not be forgotten that Brazil is one of our active Allies in this war. She has been doing valuable service in policing the southern waters with her navy."

A SPLENDID DAY.

General Gouraud, the commander on the front east of Rheims, where the Germans in their offensive last week were stopped by a stone wall, issued the following to his army the day after the German offensive was checked:

"To the soldiers of the Fourth Army: On July 14 you stopped the effort of a number of German divisions supported by ten more. Their orders were to reach the Marne that evening. You stopped them just where we decided to engage them and win the battle. You have the right to be proud, you heroic infantry machine gunners of the advanced positions, who got the signal that the attack had been begun and broke it up. You aviators, who flew overhead; you battalions and batteries who crushed it; you of the staffs who so carefully prepared the battle-field. It is a hard blow for the enemy and it is a splendid day for France. I count upon you for the same result whenever the enemy dares attack you and with all my heart as a soldier I thank you."

St. Paul and Minneapolis are the largest frog markets in the world. The frog catchers of the State bring about 500,000 dozen to the market yearly. Five years ago no frogs were shipped out of Minnesota; now the business amounts to more than \$100,000 a year. There are no frogs like the Minnesota product for the epicure. This is attributed to the clear, cool water that is found in Minnesota's 10,000 lakes, in which the frogs live and have their nests. Frogs' legs are purchased all through the state by shippers from the two cities.

Says an American army paper: The boys of the American expeditionary forces smoke 16,000,000 packets of cigarettes every month; during the same period they dispose of 3,000,000 cigars, 463 tons of bar chocolate and 60,000,000 sticks of chewing gum. They also chew 60,000 pounds of plug tobacco per month. Practically all these items have to be brought from the States. Flour and sugar for cakes and chocolate is also imported and made into the finished product in France.

Montreal Star: The latest death of Hindenburg was due to a stormy interview with the Kaiser. It may be that in his worry the old field marshal rushed to his stein and drank himself black in the face instead of blue, as per custom. In the matter of shuffling off this mortal coil Hindenburg is rapidly approaching the record set by the late Mad Mullah.

At last accounts the Germans were ten miles north of the Marne and still on the run. The victory won by the Allied troops in their counter offensive is one of the most notable of the war. It is believed that the enemy will not attempt to make a stand short of the River Aisne.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery come on so quickly that often a little life is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to cure them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

PSYCHOLOGICAL EFFECT

"You failed to mention the enormous salary I receive," said the moving picture actress.

"Manager's orders," replied the press agent. "He told me to try to keep your mind off your salary so that you'd forget to ask for another raise this week."

THROUGH OUR SIEVE

It is time to begin talk of drives toward Berlin and Vienna.

The Yanks and the Franks make an excellent fighting combination.

In time of peace, girls, prepare the trousseau.

Love may intoxicate a man, but marriage sobers him.

As the Greeks come back, the Austrians and Bulgars fall back.

The Germans are saying Ouchy and Ourcq, and the French are coming into their Aisne.

Hindenburg sure is some stratagist. Not even his own people can find out if he's really dead.

Nothing swells a man's head so much as to have a pretty girl ask him for information.

When your husband calls himself a brute, after a love quarrel, don't be foolish enough to agree with him or he may start in to prove it.

Every time the Russian news manufacturers run short of raw material they kill some Romanoff or other, or revive Gen. Korniloff once more.

One young lady is helping the government immensely. According to her story, she has already sent seven sweethearts to France and is still out recruiting.

WHEN YOUR COLOR FADES

When a girl—or a woman—finds her color fading, when her cheeks and lips grow pale, and she gets short of breath easily and her heart palpitates after slight exertion, or under the least excitement, it means that she is suffering from anæmia—thin, watery blood. Headache and backache frequently accompany this condition, and nervousness is often present.

The remedy for this condition is to build up the blood, and for this purpose there is no medicine can equal Dr. Williams' Pink Pills. They build up and renew the blood, bring brightness to the eyes, color to the cheeks, and a general feeling of renewed health and energy. The only other treatment needed is plenty of sunlight, moderate exercise and good, plain food. The girl or woman who gives this treatment a fair trial will soon find herself enjoying perfect health.

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

COULD NOT STOP THE HEADACHES

Until She Tried "Fruit-a-tives"—Made From Fruit Juices

112 Cosburg St., St. John, N.B.
 "I feel I must tell you of the great benefit I have received from your wonderful medicine, 'Fruit-a-tives'. I have been a sufferer for many years from *Violent Headaches*, and could get no permanent relief.

A friend advised me to take 'Fruit-a-tives' and I did so with great success; and now I am entirely free of Headaches, thanks to your splendid medicine."

MRS. ALEXANDER SHAW,
 50c. a box, 6 for \$2.50, trial size 25c.
 At all dealers or sent on receipt of price, postpaid, by Fruit-a-tives Limited, Ottawa.

THE ART OF LIVING IN TIMES OF STRESS

(Minneapolis Journal.)

The art of living has to do both with high productive efficiency and with high recuperative ability. Rest must be of the same high quality as the work it prepares one for. A tired horse is a poor worker.

Overwork is usually the result of work plus fret. A great war that hangs in the balance year after year creates an atmosphere heavily charged with fret. Millions have died or may die prematurely in this war because of the physical depression resulting from a troubled mind.

The art of living includes the art of making a small, quiet spot in the midst of existing confusion and danger.

David had reached this point when he wrote: "Thou preparest a table before me in the presence of mine enemies." Deliberately forgetting the war for an hour or two a day is not disloyalty nor any remote kin to it. Men in the trenches do this to keep themselves fit. So must the "base line forces" at home. When fed up on war news to the point of nerve-breaking, and before, get a strong, hopeful, cheerful story, one with a glorious last chapter, and read that for purposes of rest. Read the 40th chapter of Isaiah, the 37th Psalm or the Sermon on the Mount. These are life-preservers.

To keep fit in this fight and at the same time do the utmost to carry it through one must hold an unshaken faith in a beneficent Being back of it all who fights for the Allies against the stark malevolence of Germany. The art of living includes a living faith in the immediate and ultimate triumph of Right. And finally, "Fret not thyself because of evil-doers, for evil-doers shall be cut off."

SWISS ATTORNEY RAISES HUN IRE

Geneva, July 23—For pleading that leniency should be extended to his client, accused of the theft of some clocks, "because he lived for a long time in Germany," M. Auberson, a Geneva attorney has incurred the wrath of the German legation in Switzerland.

At the instance of Baron von Romberg, German Minister, the Attorney-General of the confederation has been asked to proceed against Atty. Auberson. The complaint has just been filed with the authorities by the German consul at Geneva.

The thief's case was drawing to a close and it was evident to his attorney that a conviction was probable. The latter elected therefore to throw his client on the mercy of the court. He counted too liberally on the anti-German sentiment prevailing in western Switzerland when he pleaded long-time residence in Germany as extenuating circumstances for theft, for his client was convicted, and he himself is apt to face prosecution for violation of Swiss neutrality.

Suspensory Bandages in Cotton, Linen or Silk. Sanitarily perfect goods, well fitting, comfortable and particularly desirable for bicycle riders, workers and walkers. Prices low.

STAPLES' PHARMACY

ALONZO STAPLES, Prop.
 Agency for Miller Standard Rubber Goods.

WHOLESALE

RETAIL

Sheep on Every Hill Side in New Brunswick

The New Brunswick Government through the Department of Agriculture has arranged with the Chartered Banks to help the Farmers -- where assistance is needed--to buy sheep.

The Department will not only arrange to buy Sheep FOR the Farmers, but will also buy good breeders FROM the Farmers --- in other words, this branch of the Agricultural Department WILL SUPERVISE ALL PURCHASES AND SALES OF SHEEP.

IF A FARMER NEEDS CREDIT TO BUY SHEEP he should consult his local banker who has the necessary forms.

If you cannot buy sheep in your locality, inform the nearest banker who will notify the Agricultural Department, or, better still, notify the Department yourself and say how many Sheep you want.

KEEP YOUR EWE LAMBS

Every Ewe Lamb weighing 80 pounds and over and of reasonable quality, should be retained by farmers for breeding purposes. Sell the males and the inferior females for butcher purposes. If you have more ewe lambs than required, induce your neighbor to purchase.

THE VALUE OF WOOL

Unwashed wool of the best quality brought 80 cents a pound this spring, or about \$5.00 a fleece.

SIXTY MILLION SHEEP

Have been lost in Europe since the war started. Wool in enormous quantities is now required to clothe the soldiers. It will take an immense quantity to reclothe the returned men in civilian dress. Prices will likely be high for ten years.

New Brunswick has the pasture, hay, roots and a climate suited to sheep. Every farmer should consider investing in a small flock as a foundation. The first year will give approximately \$4.00 worth of wool per sheep; the sheep will cost about \$15.00. Is it not a good business proposition?

If you cannot purchase locally, place your order with your banker. Orders will be filled, if possible, in the order filed at this office through the banks.

For further information apply to

J. F. TWEEDDALE,
 Minister of Agriculture.
