New Baptist Pastor.
Maritime Baptist. We take great pleasure in announcing that Rev. C. T. Clark, now of Houlton, Me., has accepted a call extended to him by the Pokiok-Southampton field and will take up his work there at once. The United Baptists of Houlton may be pardoned if they hold a slight grudge have lured away the pastors of both against us in these provinces, as we churches within a year. Rev. H. G. Kennedy having come from Houlton to Windsor. But both men were merely returning home again. Pastor Clark is a son of Mr. D. C. Clark of St. John West, well known in connection with the work of the denomination.

Wedding Yesterday.
The home of Mr. and Mrs. Bert Moore, King street, was the scene of a very pretty wedding yesterday afternoon, when Frank Stanley Miller of Antelope, Sask., and formerly of Southampton, was united in marriage to Cora Amelia Moore of this city. The ceremony was performed by Rev. G. C. Warren in the presence of the immediate friends of the contracting parties. The happy couple were unattended. The bride, who was given away by her brother, Corp. Harry Moore, was becomingly gowned in a dress of point d'esprit over white silk, and wore the conventional wedding veil and orange blossoms. She carried a bouquet of carnations and maiden hair fern. After the ceremony and refreshments the bridal party left on the evening train for Millinocket, Me., and other points. After a visit to the groom's old home in Southampton, Mr. and Mrs. Miller will leave for their future home in Antelope, Sask., where the former is a prosperous farmer.

Announcement has been made that men who were in the C.E.F. and who received an honorable discharge and who have been drafted, may choose any combatant unit in which to serve. NEW BRUNSWICK
WHEAT GROUND
IN LOCAL MILL

Five Thousand Bushels Ground
During Present Season—
Low Yield in This
Section.

Ald. F. H. Everett has so far this season ground of his mill here, no less than 2,500 bushels of wheat grown in New Brunswick. This means an output of five hundred barrels of flour and is about double last year's total upto date. He expects to handle at least another 2,500 bushels before the season closes. Ald. Everett operates an up-to-date roller process mill and turns out a high grade of flour.

Yield Low Last Season.
Talking to The Mail Ald. Everett stated that there was a lot of seed wheat planted in this section last spring but owing to wet weather and other causes it did not turn out quite as well as expected. In some cases the yield was as low as five bushels to the acre but in the case of Mr. Arthur Kelly of Upper Kingsclear, there was a notable exception. He was able to harvest twenty-five bushels to the acre, which was a yield not exceeded by a great many farmers in the great wheat growing belts of the west. Ald. Everett looks for a much large acreage in wheat during the coming season.
