A few more Preserving Jars left. Same low prices while they last.

Don't forget our low prices on Patent Medicines, Pills and Liniment.

HUNS ON WESTERN FRONT ARE GETTING HARD KNOCKS

A Blow Delivered by the French North of Rheims Adds to the Menace Which is Hanging Over the Whole Enemy Front -- No Peace for the Huns in the Field -- Naval Base Captured From the Turks

New York, Oct. 7.—The Associated Press tonight issued the following:

The troops of the French General Berthelot have delivered a successful blow against the Germans northwest of Rheims which adds materially to the menace that is hanging over the German front from the North Sea to the Swiss border. This was the capture of Berry-Au-Bac, on the north side of the Aisne about ten and a half miles northwest of Rheims and only a scant five miles from the eastern end of the famous Chemin-Des-Dames ridge at Craonne. A further advance northward across the railroad not alone will put the great stronghold of Laon in a pocket, but also will outflank Neufchatel, another enemy stronghold on the west.

The Turks also have suffered a serious blow in the loss to the French of Beirut, capital of the Vilayet of Syria. The occupation of this seaport on the Mediterranean by a French naval division gives the Allies a base for the landing of men who can operate in all directions against the Turks over the roads radiating from it.

Although peace talk is still in the air, there is no peace for the Germans and Austro-Hungarians in the field.

While attempts are being made in "well informed circles" in Germany and Austro-Hungary to show that the latest peace proposals of the Central Powers are honest expressions of a desire for a just peace, Marshal Foch's armies are proceeding without pause in their task of clearing Belgium and France of the invader. And they are continuing to meet with success. Likewise in Serbia and Albania the Serbs and Italians are fast reclaiming enemy occupied territory, while at last reports the British General Allenby in Palestine was still hard after the retreating Turks.

While further good gains have been made by the British east of Arras, where the operations have in view the capture of the highly important town of Douai, and other advances have been recorded between Cambrai and St. Quentin, chief interest for the present centres in the fighting in Champagne and between the Argonne Forest and the Meuse, where the French and Americans are driving the enemy steadily northward, despite great resistance on positions of high strategic value.

Along the front from Rheims to the Meuse a distance of more than fifty miles, the enemy everywhere has met with serious reverses and is falling back under the heavy pressure that is being imposed against him, at some places in disorder. Where the enemy is trying to resist the French and Americans are meeting their counter-thrusts with splendid stamina and gradually forcing them to give ground step by step.

East of the Argonne Forest between that great wooded bastion and the Meuse, the Americans have further advanced their line, notwithstanding the fact that the enemy has thrown in large reinforcements to hinder the blotting out of the forest and the forming of a junction by way of the Aire Valley between the Americans and the French troops on its western side. In the latest fighting the Americans drove the Germans out of Chatel Chehery northwest of Apremont and obtained command of the heights west of the Aire. The latest German official

communication reports that the Americans in the evening began a new attack in this region.

Taken together the entire southern front of the Germans seems to be in a rather serious situation from La Fere to the north of Verdun, Laon, the great storehouse of the Germans northeast of Soissons is reported to be on fire, indicating the possibility of an early falling back; the Chemin Des Dames defences are outflanked at both ends; Rheims has been restored and the Germans pushed back more than ten miles north of it, while eastward General Gouda's armies and the American First army are brilliantly carrying on their part of the great converging movement that seemingly at no far distant date will force the enemy materially to readjust his line.

A further indication of the trouble materially to readjust his line.

A further indication of the troublesome times in the German army is the report that Field Marshal Von Hindenburg has resigned after a stormy interview with Emperor William during which Von Hindenburg informed the emperor that a German retreat on a large scale was necessary.

DOW WING NOT FOR INFLUENZA

(Continued from Page 8)

consultation with the medical staff through chairman Mullin that in view of the present exigencies it might prove unwise to use the contagious wing for this purpose. With a strong desire to assist the military, the Trustees regretted they could not yield to the request of Major Ludon, officer commanding.

In her monthly report the superintendent reported eighty-six patients treated during the month of September. Of these 63 were surgical and 18 medical cases. Several donations were received including three bottles of pickles from Mrs. H. D. Richards; ice caps from Mrs. Wm. Anderson; and a beautiful and costly embroidered table cover for the superintendent's office, from Dr. R. H. McGrath.

Miss McKim and Miss Kee have finished their three years' training and have carried with them from the hospital the good will of all their instructors and associates. Miss Palmer who served in the capacity of a nurse-in-training for a time has withdrawn from the institution. Three new probationers have been installed viz Miss Lyons, Miss Whitehouse, Miss Stewart. The course of lectures by the medical staff, for the present year, to the nurses is now being delivered. The Trustees are still unable to arrange for a course in obstetrics, but hope some day to give the students this important training.

Necessary Improvements

A new furnace is being installed in the Dow Wing by D. J. Shea & Son, and other necessary repairs are in progress. Through Trustee Kitchen it was reported that the acetylene plant has been going wrong for a long time and he will make further investigation.

The Trustees are becoming somewhat nervous over the prospect of obtaining the necessary supply of coal for the winter, and this important matter was assigned to Dr. Kierstead for unravelling.

A number of local matters received attention and an application was received for position on the medical staff made vacant by the removal from the city of Dr. Weaver. No action was taken upon the application further than to file it for the present.

INFLUENZA CASES HAVE NOT INCREASED

Indications today indicate that there is no spread of Spanish Influenza in Fredericton. The Military Hospital reports that eleven cases are under treatment there. These include cases which developed among soldiers who were living outside hospital but who since have been taken to hospital and isolated. Major Luton, officer commanding the hospital states that there
