

ECZEMA FACE NOTHING BUT RUNNING SORES FROM

No rest day or night for those afflicted with that terrible skin disease, eczema, or, as it is often called, salt. With its unbearable burning, itching, torturing day and night, relief is gladly welcomed.

There is no remedy like Burdock Blood Bitters for giving relief to such sufferers; no other remedy has done or can do so much for those who are almost driven to distraction with the terrible torture. Apply it externally and it takes out the stinging, itching and burning, and promotes a healthy healing.

Take it internally and it gets at the source of the disease in the blood and completely and permanently drives it out of the system.

Miss Mary V. Chambers, Ananace Ridge, N. B., writes: "I used Burdock Blood Bitters for eczema. I had it when an infant, but it left me. Two months later a running sore. I saw in the paper what B.B.B. did for people. I took it, and today I am free from that terrible disease."

YARNS OF THE TICKET AGENT

(Kansas City Journal.)

It was a slack hour at the Union station, and the ticket agent in charge was inclined to be talkative.

"Like many another supposed snap" he remarked by way of opening conversation, "this business of selling tickets to different railway points isn't as easy as it may look to the outsider. A new woman soon learns the fare and railroad to the principal cities but many blunders, and sometimes amusing ones, are made by new ticket agents selling to way stations during a rush. I hadn't been here very long when some long whiskered gent walked up to the window and said he wanted a ticket to Morrow."

"That's all right, I said, 'we're open every day in the week.'"

"Then Jimmie, an old timer at the adjoining window, poked me in the ribs and gave it to me sotto voce that Morrow was on the Burlington in Kansas. The laugh was on me around the office until a blue shirted husky who looked like one of those moving picture cowboys pulled out a roll of bills and shouted at Jimmie, 'I'm going to Kild, Montana.' Jimmie didn't know just what was up and came back with:

"That's all right with me brother, but that's no reason why you should try to kid me."

"Say, back that comedy into a stall and sell me a ticket to Kild," comes back the blue shirted gent, and Jimmie got hep to himself and after consulting the railroad guide finds Kild, Mont., on the Union Pacific.

"But the best one was the conversation of a couple of travelling men the other day. One says to the other: 'Where you en?' and here's the come-back: 'Just been to Kaiser and I'm going to Killam. Then I'll jump to Berlin and Killmore'—but the conversation was getting a little too much for the susceptible listener whose coat tails were to the north as the ticket agent looked up from his pipe.

Many Invalided Soldiers.

Major Gerald P. Loggie, son of Lt. Col. and Mrs. T. G. Loggie, of this city, who is district ordnance officer for the Alberta Military District, has as part of his duties the furnishing of stores for ten thousand invalided soldiers who are in hospital in that province.

ELSIE FERGUSON
in "Rose of the World"
An Arctcraft Picture

The film is replete with tense dramatic situations, and is the first photoplay Miss Ferguson has appeared in which gives her an opportunity of displaying to the fullest extent her well-known ability to portray heavy emotional roles.

Miss Ferguson is one of the few actresses blessed with great beauty as well as talent, and she makes an ideal screen star. She is supported by a strong cast, and the picture is a typical Arctcraft offering, which means that no expense has been spared to make it attractive.

Palmer's Summer Packs

are sometimes called plough shoes or harvest shoes because they are especially designed for wear in the ploughing and harvesting seasons.

You will not be troubled with tired, aching feet after doing a hard day's work in Palmer's Summer Packs, because they are light in weight, durable, roomy, comfortable and waterproof.

Ask your dealer for a pair of these. "Moose Head Brand" shown above is stamped on every pair.

Dunlop "Gibraltar RedSpecial" Belting

Abnormal Friction Pull
vs. Elasticity of Friction

BETWEEN every ply of specially-selected, heavy Cotton Duck in Dunlop "Gibraltar RedSpecial" Belting is a layer of pure Rubber which, through a Dunlop calendering process, so permeates the fabric that it binds the several plies into one integral piece.

Some belt manufacturers offer to sell their product on the basis of "Heavy-Poundage in a Friction-Pull" Test. To obtain the latter result it is not necessary to secure such an expensive Rubber Friction as is used in "Gibraltar RedSpecial." This fact alone ought to be a pretty good gauge of the value of the "friction-pull" test.

In buying "Gibraltar RedSpecial" you get the advantage of years of careful laboratory work on our part with this result: The friction is of that "just-right" elastic quality which allows for the give and take necessary in rounding the pulleys; hence the reason "Gibraltar RedSpecial" is known for maximum Power, Speed and Service.

Note the Short Grain Rubber Friction

This Belt Section illustrates a Heavy "Poundage-Pull" Friction. To secure this result the Friction Grain is short and stiff. Elasticity and Flexibility have been sacrificed to secure such a result.

Note the Long Grain Rubber Friction

Dunlop "GIBRALTAR REDSPECIAL" has a Friction of Special Dunlop Rubber that retains its life indefinitely. "Note the long grain Rubber Friction," as illustrated. Elasticity has not been sacrificed for Abnormal Friction Pull.

UNLIMITED capacity for service is an intrinsic quality with Dunlop "Gibraltar RedSpecial" Belting. The success of nearly a quarter of a century in the manufacture of Rubber Products is built into Gibraltar. The original Made-in-Canada Red Rubber, Frictioned Surface Belting, "Gibraltar RedSpecial" has stood the infallible test of time in turning the wheels of industry in a multitude of Canadian plants from the Atlantic to the Pacific.

The Dunlop Unreserved Guarantee

If you have a difficult drive anywhere in your factory drop a line to our Head Office, or to our nearest branch, and we will send a man experienced in belt engineering to consider your requirements. If it is an instance where the "Gibraltar" Belting may be suitably employed we will recommend it with the fullest guarantee ever issued by a firm producing rubber products.
