MAIL CONTRACT

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until noon on Friday, the 27th December, 1918, for the conveyance of His Majesty's Mails on a proposed Contract for four years, 6 times per week on the Stanley Rural Route, No. 1, commencing at the pleasure of the Postmaster General.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Stanley and at the Office of the Post Office Inspector.

H. W. WOODS,
Post Office Inspector.

Post Office Inspector's Office,
St. John N. B., Nov. 15th, 1918.

TOOK SEVERE COLD
ON HIS LUNGS
Coughed Phlegm and Blood.

On the first appearance of a cough or cold, do not neglect it, but get rid of it at once before it has a chance to grow worse, and gets settled on the lungs, causing bronchitis, pneumonia and other serious lung troubles.

Dr. Wood's Norway Pine Syrup will cure the cough or cold on its first inception and perhaps save you years of suffering.

Mr. G. F. Stratychuk, Canora, Sask., writes: "Last winter I took a most severe cold on my lungs, and was coughing up phlegm and blood most of the time. I had the cough for over two months, and took a great deal of different medicines, but found no relief from them. At last a friend advised me to take Dr. Wood's Norway Pine Syrup, which I did, and it gave me great relief in a very short time, and today I am enjoying good health again."

The marvellous results that Dr. Wood's Norway Pine Syrup has achieved in its cures of coughs, and colds has caused many so-called "pine" preparations to be put on the market, which do not contain any pine whatever. See that you get the genuine when you ask for it.

Put up in a yellow wrapper; three pine trees the trade mark; price 25c. and 50c. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

WILL APPEAL TO
PRIVY COUNCIL

Halifax, Nov. 22—Mr. Justice Drysdale, of the Admiralty Court has rendered judgment in the case against the Swedish steamer Svithoid seized in the early days of the war and brought to Halifax, confiscating the ship and her cargo of rubber. Counsel for the ship have applied for permission to appeal to the Privy Council. Mr. Justice Drysdale in his judgment finds that the captain of the Svithoid acted in collusion with people in Pernambuco in attempting to smuggle the third officer of a German steamer interned there to Germany. The judgment relates that the Svithoid's captain protested on his arrival here that he did not know he had the interned officer on board. The admiralty judge holds that the captain lied in so protesting and finds that this alone is justification for the confiscation of the ship. The cargo of rubber is condemned because it was contraband and carried without authority.

CHURCH SERVICES.

St. Paul's Presbyterian.

Rev. J. S. Sutherland, M. A., minister. Morning service at 11 o'clock; evening service at 7 o'clock; Sunday school in the afternoon at 2.30. A cordial welcome to all.

Methodist Church.

Rev. Geo. M. Young, pastor. Services at 11 a.m. and 7 p.m., preaching by the pastor. Sunday school at 2.30. Seats free; all welcome.

Gen. Joffre

It takes one woman twenty years to bring up her son, and another woman all the rest of his life to bring him down a little.

THE AFTER EFFECTS
OF DREADED LA GRIPPE

Worse Than the Disease Itself
—Victims Left Weak, Nervous and Worn Out.

La Grippe, or Spanish influenza as the epidemic now sweeping over all America is called, is one of the most dangerous diseases known to mankind. Anyone who has felt its pangs is not likely to forget the trouble. La Grippe or influenza starts with a slight cold and ends with a complication of troubles. It lays the victim on his back, it tortures him with fevers and chills, headaches and backaches. It leaves him a prey to pneumonia, bronchitis, consumption and other deadly diseases. Its after effects are often more serious than the disease itself. It is quite possible to avoid la grippe by keeping the blood rich and red by the use of Dr. Williams' Pink Pills—a tonic medicine which enriches the blood and strengthens the nerves. If, however, the disease attacks you, the patient should at once go to bed, and call a doctor before complications set in. That is the only safe thing to do. But to recover your strength after the severity of the attack has passed you will find Dr. Williams' Pink Pills an unsurpassed tonic. Through the use of this medicine all the evil after effects of this trouble will be banished. This has been proved in thousands of cases throughout Canada, where in previous seasons la grippe has attacked them. Among the many thus restored to full health is Miss Irene Bootes, Portsmouth, Ont., who says: "I take much pleasure in recommending Dr. Williams' Pink Pills, because I have proved their worth in my own case. Last winter I had a severe attack of la grippe and it left me weak and all run down. I had severe pains in the chest and under the arms, palpitation of the heart and attacks of neuralgia which left me with a feeling that life was scarcely worth living. I was advised to try Dr. Williams' Pink Pills and began their use only on the principle that I would try anything that might better my condition. I had only been using the pills a couple of weeks when the pains began to leave me. Gradually my strength returned, my appetite improved, and in a little more than a month I felt all my old time vigor had returned. I am sincerely glad I was persuaded to try Dr. Williams' Pink Pills, and I shall always have a good word to say for them."

Dr. Williams' Pink Pills not only cure the disastrous after effects of la grippe, but are also a specific for all troubles due to poor blood, such as anaemia, rheumatism, indigestion, women's ailments, and the generally worn out feeling that effects so many people. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

AGED JURIST
PASSES AWAY

Judge Wilkinson, the Oldest Member of the N. B. Bar, Dies at Chatham, Aged Ninety-three.

Chatham, N. B. Nov. 22—The death of William Wilkinson, formerly judge of the county court of Northumberland occurred at an early hour this morning at his residence in Bushville. His son, Rev. W. J. Wilkinson and daughter Mrs. J. P. Burchill were at his bedside when the end came. Until a few months ago his honor enjoyed his usual good health but had been sinking rapidly for the last ten days and his end was not unexpected. Judge Wilkinson who was in his ninety-third year was the oldest member of the legal profession in New Brunswick and probably in all Canada and will be remembered well by the older practitioners.

The funeral will be held on Sunday when he will be laid to rest in St. Paul's churchyard, Chatham Head.

Judge and the late Mrs. Wilkinson had six children, of whom three are now living; Eliza Bacon wife of John P. Burchill, M.P.P.; Rev. William James Wilkinson, B.D., rector of St. Peter's church, Kingsclear, and Mary Edith, wife of William R. Butler, M. I. C. E., until recently professor of mathematics and engineering at Royal Military College, Kingston (Ont.) He also leaves eleven grandchildren and two great-grandchildren.

CATS NAMED FOR HIM.

They were engaged to be married, and called each other Tom and Fanny. He was telling her how he had always liked the name of Fanny and how it sounded like music in his ear.

"I like the name so much," he added as a sort of clincher to the argument, "that when my sister Clara asked me to name her pea terrier I at once called her Fanny—after you, dearest!"

"But I don't think that was very nice," said the fair girl, edging away from him. "How would you like to have a dog named after you?"

"Why that's nothing!" said Tom airily, as he saw he'd made a mistake.

TORTURED BY
RHEUMATISM

"FRUIT-A-TIVES" Brought Quick and Permanent Relief

MR. P. H. MCHUGH

103 Church Street, Montreal.

December 10th, 1917.

"I was a great sufferer from Rheumatism for over 16 years, I consulted specialists, took medicines, used lotions; but nothing did me good."

Then, I began to use "Fruit-a-tives"; and in 15 days, the pain was easier and the Rheumatism was better. Gradually, "Fruit-a-tives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. Also, I had severe Eczema and Constipation, and "Fruit-a-tives" relieved me of these complaints; and gave me a good appetite; and in every way restored me to health." P. H. MCHUGH.

50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent post paid on receipt of price by Fruit-a-tives Limited, Ottawa, Ont.

THEIR ORIGIN.

"Where do jailbirds come from?"

Willie asked,

And pa replied as follows:

"Jailbirds, my son, are mostly raised from larks and bats and swallows."

We are still waiting to hear from Bill Hohenzollern where he left his friend and partner Gott.

"Half the cats in the country are named after me!"

THE VALUE OF IRRIGATION

Irrigated Wheat, 1918, Brooks, Alberta.

Alfalfa, Brooks, Alberta, 1918.

THE finest crops in the country are to be seen on the irrigated land in Southern Alberta. This is a remark invariably made by those who have travelled through Western Canada. And there is no doubt that this remark is true if all the crops on irrigated land in Alberta are as good as those near Brooks. This is a small town on the main line of the Canadian Pacific Railway, about a hundred miles from the city of Calgary, and the centre of one of the most fertile pieces of country on the continent. Though sparsely settled, it is estimated that a quarter of a million bushels of wheat will be harvested from irrigated lands in this district this year. Many fields will yield from thirty to forty bushels to the acre. While there is nothing extraordinary about yields of this kind, such being obtainable every year, the fields upon

which water has been applied afford a very striking contrast to those to which no water has been applied. The summer having been exceptionally dry and hot has made the crops on non-irrigated land in this territory in some cases almost a total failure. But where water has been applied healthy crops will not only remunerate the farmer for his labor and the capital invested in his land, but will also help to fill the Allies' granaries.

It is not only the older settlers who have these large crops. South of Brooks a farmer who came to Alberta last fall had about two hundred acres sown to wheat on new breaking. Parts of it were irrigated in the fall and twice in the spring and summer. Here a yield of forty bushels to the acre is assured. Other parts which were irrigated twice this spring and summer but not at all last fall, should yield up to thirty-five bushels to the acre. Still other parts were irrigated once only, this year, and the yield will not be so good. Altogether this farmer's crop on two hundred acres should average about thirty-five bushels to the acre, the returns from which at present market prices being not at all bad for the first year's working. One of the best yields is that of a farmer who settled in Alberta not quite two years ago. This field consists of ninety acres of wheat which the owner anticipates will thresh out at forty bushels to the acre. Two brothers who came from Nebraska two years ago with very little capital expect to thresh from their crop of two hundred acres of wheat at least thirty bushels to the acre. Doubtless there are several other cases similar to these.

Large crops of oats, barley, all kinds of grasses, clovers and alfalfa are also to be seen on land where water has been applied. The diversity and abundance of the crops that can be grown here surprise one. It is not difficult to realize the immense boon water is. Grains, grasses, alfalfa, vegetables, small fruits yield bountiful crops under its magic spell. Assuming the farmer, as it does of remunerative crops every year, it will

Cantaloupes, grown with Irrigation, Duchesne, Alberta.

make this part of Alberta one of the most prosperous districts on the continent.

These irrigated lands have immense possibilities in the raising of live stock, and their importance in this respect cannot be too greatly emphasized. The enormous crops of alfalfa and other fodder crops that can be grown, combined with the healthy climate, make the country an ideal one for the raising and finishing of cattle, sheep and hogs. Already there have been some great successes that indicate what can be done in this branch of farming. Unquestionably there is a great opportunity for the development of this industry here, conditions being ideal, less capital being required than on higher priced land in other parts of the continent, while results are satisfactory as anywhere may be looked for.
