

MANY FEMALE SPIES ARE OPERATING IN LONDON

Carry on Their Nefarious Work in Hotels and Restaurants, Where They Overhear Gossip on War Movements---Huns Had Advance Information of the Raid on Ostend and Zeebrugge

London—London is infested with women spies.

In the hotels, cafes and restaurants they carry on their nefarious work, their chief occupation apparently being to keep their ears open and to overhear all the gossip they possibly can about England's war movements.

They are difficult to trap because London is still the world's most cosmopolitan city, and the west end is crowded with male and female adventurers from every land—including Germany.

The women spies are of all nationalities, but Russians seem to predominate. If they were captured they undoubtedly declare loudly their loyalty to the allies, but there is little doubt that a vast number of them are in the pay of Germany.

The war has shown men to be worse gossipers than women. In the hotels and restaurants, therefore, these women, most of them beautiful, scrape acquaintances with soldiers and civilians, talk with them, draw them out on military subjects, and without question turn over the information they gather to some master spy in England, Holland or some other neutral country for transmission to Berlin.

6 Huns Knew of Ostend Raid

The most insignificant appearing bit of intelligence collected in this way may be the final item in a vast patchwork of information that will enable Germany to piece together and verify England's military plans.

It is known that the Huns had advance information of the English naval raid on the submarine bases at Ostend and Zeebrugge, obtained merely through the fact that for days before the raid it was common gossip about the east coast that the navy was preparing for it.

One mystery of a London hotel is at present intriguing Londoners.

A little cluster of Russian women young, pretty, and with attractive manners, went about the hotel unchaperoned, and soon found plenty of admirers.

Talked to Army Men

It was noted that they confined their attentions exclusively to soldiers, sailors and airmen. They never spoke to civilians, but no sooner did an officer appear in the lobbies than they managed in one of the thousand and one ways known to women to scrape an acquaintance with him.

They would have a cup of tea and a cigarette with him, talk for a half hour, and then make some excuse and get away.

MARRYSVILLE HAPPENINGS

Marysville, July 10—Mrs. George F. Cole of Minto spent the week-end with her parents Mr. and Mrs. Harry Osborne here.

Mrs. Herbert Brewer and Miss Nellie Brewer are visiting relatives at Waterville, Me.

Misses Ivy and Alice Cooper have returned to Milltown after visiting their parents Mr. and Mrs. George Cooper.

Mr. Thomas Flanagan, Engineer at the Canadian Cottons has recovered from his recent illness.

Mr. F. T. Gilbert has disposed of his Chevrolet touring car to Mr. G. H. Pryor.

Mrs. Watson McLean has returned to Kingsclear after visiting relatives here for a few days.

Mrs. Robert Basinger and child of Auburn, Me., are visiting relatives here.

Mr. M. F. Reid is making preparations for the erection of a residence on the property recently purchased from Mr. A. G. Robinson. The house will be erected of concrete and will be up-to-date in every particular.

The work of erecting dwelling houses in place of those destroyed by the recent conflagration at Sandyville is proceeding with considerable rapidity. Messrs E. B. Walker Randolph Titus and Garfield Peterson are each building residences there.

Miss Hattie Durose is quite seriously ill at the Victoria Hospital having recently undergone an operation.

Messrs J. W. and Edgar Everett of Minto spent the week-end with relatives here.

CURED MY COUGH IN ONE NIGHT

Relieved Me of a Throat Weakness That Resisted Every Treatment.

"SUFFERERS, FOLLOW MY PLAN."

"After being loaded down with a chronic hacking cough for months, you can imagine my joy at finding even a relief from it," writes Mrs. O. A. Tooker, of Monson, Mass., U.S.A. "I was troubled with an irritable throat weakness and asthma that simply defied every medicine I ever used. I was discouraged until a friend recommended Catarrhazone so strongly that I bought a dollar outfit from my druggist. I breathed in the healing fumes of Catarrhazone very deeply—used the inhaler five minutes every hour. After the first day I was better, and next morning my cough was gone. My asthma is cured, my throat weakness is gone, and I am well. For two years indeed, with the aid of Catarrhazone, I have kept perfectly well. I have also used Dr. Hamilton's Pills for constipation with grand results, and consider your remedies have done wonders for me."

Thousands of wonderful cures are reported every year. Catarrhazone does all that is claimed for it, and is certainly most efficient for colds, bronchitis, throat trouble, asthma and catarrh. The two months' treatment (large size), price \$1.00, is guaranteed, smaller size 50c., sample size 25c., at all storekeepers and druggists, or The Catarrhazone Co., Buffalo, N. Y., and Kingston, Canada.

CATARRH OR COLDS NEVER QUICKLY CURED BY SWALLOWING DRUGS

Cough Syrup, Tablets, etc., Go to the Stomach, Perhaps Sicken It, But Don't Kill the Germs of Catarrh.

The Direct Breathing Cure is Best. To cure an ailment in the throat or chest, to rout out Catarrh or Asthma, it is essential that the medicine be conveyed direct to the affected parts. This is why no other remedy has achieved such world-wide success as Catarrhazone, which alone can be breathed in, so as to reach every air cell in the breathing organs. The healing vapors of Catarrhazone mix with the breath and descend through the throat, down the bronchial tubes, to the deepest air cells in the lungs—all parts are saturated with the rich piney essences that ease, heal and cure.

"No one ever contracted a more obstinate attack of nasal catarrh than I suffered a month ago," writes Mr. G. E. Root, a well-known resident of Bridgetown, W. I. "My head ached terrifically, I sneezed about every three minutes, but still my nostrils were entirely closed and I couldn't breathe through them. Ten minutes inhaling Catarrhazone gave me a little relief, so I continued to use Catarrhazone every hour, and before the day was out I had improved. Catarrhazone quickly cured me. I am well ever since."

There is no remedy so certain and sizes 25c. and 50c. At all storekeepers as Catarrhazone, but being a good remedy it is imitated. Beware of the substitutor. Large Catarrhazone lasts two months, price \$1.00; smaller sizes and druggists, or The Catarrhazone Co., Buffalo, N. Y., and Kingston, Canada.

DOWLING'S CASE ENDED

London, July 9.—The court martial of Corporal Joseph Dowling, who was seized by the British authorities on the coast of Ireland after landing in a German collapsible boat, was concluded today. The verdict will be promulgated later.

Corporal Dowling did not give any evidence in his own behalf, nor call any witness. His attorney, however, argued that the invitation the corporal offered to his men to join the Irish Brigade while in Germany was to get out of Germany to help his fellow-countrymen to fight against Germany.

How They Operate.

Have you ever watched the bugs eat? They don't all do it in the same way. Some bite out small portions of plants, then chew and swallow them in quite a human way. Other bugs belong to the nursing bottle class and suck their food—the juice or sap of plants.

The chewing class is killed by feeding them with poisons; the sucking class by remedies which kill by coming in contact with their bodies and smothering or dissolving them.

Worms and beetles should be killed by spraying or dusting on the plants arsenate of lead or Paris green. Some of the chewing insects, like the cutworm, can be killed by poisoned bait like bran mixed with molasses and Paris green. Garden slugs are also killed in this manner.

But these are different. They deal with bread-making, the cooking of fish, the cooking of fruit and vegetables, and preserving and canning. They have attractive covers which are but the outward index to the authoritative and practical contents.

CHARGED WITH THEFT

Toronto, July 9.—Eight non-commissioned officers of the Royal Air Force quartered at Burwash Hall, were taken into custody yesterday and await trial by court martial on charges of theft and conspiracy. The charges arose out of theft and sale of passes for the release of men from duty for certain periods of time.

These Russian women were seen to be constantly in the company of a young Russian civilian staying at the hotel, who appeared to be cross-examining them when in conversation.

Eventually their suspicious behavior attracted attention, and a watch was set for them. The next day they disappeared.

Another example is cited in the experience of a young aviator officer who had his wits with him.

Spurn Woman Spy
With another pilot, he was dining at a restaurant known for its foreign clientele. They were talking loudly and somewhat heedlessly.

A woman sitting at the next table—a total stranger to them—leaned over and asked:—

"I wonder if you can tell me where the—squadron is stationed now? I have a friend there."

The airmen had sense enough to say they did not know, and immediately changed the subject of their conversation to theatres and other harmless topics.

The English are waking up to this situation, and appeals are being made to everyone in strong language to cease discussing military affairs in public and talk to no strange women.
