AUSTRIANS START DRIVE AGAINST THE ITALIANS

Attack Made on Important Positions Northwest of the Asiago on a Front of Nearly 100 Miles---The Enemy Claims to Have Captured Ten Thousand Prisoners Besides a Number of Guns---Fighting on the Western Front Has Simmered Down

The Austrian forces are attacking along the front of the Italian theatre from the northwest of the Asiago Plateau eastward to the Piave river and thence along that stream to where it joins the headwaters of the Adriatic Sea, a front of nearly 100 miles.

Having made extensive preparations for the drive by bringing up strong reinforcements in men and guns, many of them brought from the former battle line in Roumania and Galicia as a result of the debacle in the east, the enemy is using them without stint in order to debouch from the mountain passes and cross the Piave river and gain the Venetian Plains.

Everywhere the fighting is of an extremely sanguinary character, especially east of the Asiago Plateau, in the Brenta Valley and on Mont Grappa. In the initial struggle the enemy succeeded in capturing several front line positions in the mountain region from the British and also in crossing the Piave. Counter attacks however, have restored all the positions in the mountains including territory to a depth of 1,000 yards along a 2,500 yard front captured from the British.

At last accounts the Allied troops everywhere were strongly holding the enemy and King Victor Emmanuel's men were gallantly striving to throw back the invaders across the Piave. The Italians have taken more than 3,000 Austrians prisoner, among them 89 officers. As yet the Vienna war office has given but brief mention to the battle, saying that the Austrian armies had invaded the Sette Comuni Plateau lying at an altitude of 3,400 feet northwest of Asiago, and that up to noon Sunday more than 10,000 Italian, English and French soldiers and a considerable number of guns had been captured.

With the commencement of the long expected Austrian offensive the fighting in France has simmered

down almost to sub-normal except southwest of Soissons, where the French have delivered several violent attacks against the Germans holding territory captured last week. Where the enemy a week ago was throwing thousands upon thousands of men against the Allied lines between Mont-dider and Noyon, Sunday saw him worn out with his useless efforts and his forces sadly depleted through men killed and wounded, unwilling or unable further to give battle.

In the famous St. Mihiel sector, where the Americans took over their first sector of the battlefield the Germans have delivered a stroke and were rewarded by being able to gain the village. Shortly afterwards, however they were expelled and the position regained. Prisoners were taken from the Germans, who in their anger throughout Sunday "strafed" villages in the rear with their artillery.

Probably having in mind President Wilson's promise that the war should not be ended until wrongs of Alsac-Lorraine are righted, forces of American troops now are occupying sectors in the picturesque territory of Alsac. They have been there since May 21 and possibly sensing the importance of the move, both from the strategic and moral standpoint, the Germans already have delivered an attack against them. The American casualties were light.

In Macedonia the operations daily increase in importance. Along the greater part of the front there have been heavy reciprocal bombardments and Bulgarian troops several times have endeavored to penetrate the allied lines. All their efforts, however, met with ill-success.

That enemy submarines still are at work in the North Atlantic adjacent to the American coast, is shown by the fact that two more Norwegian vessels, the barque Samoa and the sailing ship Kringsjas were sunk ninety miles off the Virginian coast last Friday. The crews were saved.

A NERVOUS BREAKDOWN

When the Blood is Out of Order the Nerves are in a Starved Condition.

The nerve system is the governing system of the whole body, controlling the heart, lungs, digestion and brain; so is it not surprising that nervous disturbances should cause acute distress. The first stages of nervous debility are noted by irritability and restlessness, in which the victims seem to be oppressed by their nerves. The matter requires immediate attention, for nothing but suitable treatment will prevent a complete breakdown. The victim, however, need not despair for even severe nervous disorders may be cured by improving the conditions of the blood. It is because Dr. Williams' Pink Pills actually make new, rich blood that this medicine has cured extreme nervous disorders after all other treatment had failed. The nerves thrive on the new blood made by these pills; the appetite improves, digestion is better, sleeplessness no longer troubles the former nerve-shattered victim, and life generally takes on a cheerful aspect. Every sufferer from nerve troubles, no matter how slight, should lose no time in giving Dr. Williams' Pink Pills a fair trial, thus regaining their old-time health and comfort. Mrs. Victor Booth, Parry Sound, Ont., offers proof of the value of Dr. Williams' Pink Pills in nervous troubles. She says:—"Some years ago I was taken ill with typhoid fever. The attack was not a severe one and after a few weeks I was around again. But I did not recover my former strength and my nerves began to give me trouble. The trouble went on from one stage to another until finally St. Vitus dance developed. I was under the care of our family physician but my condition appeared to be growing worse. It was at this stage I decided to try Dr. Williams' Pink Pills, and after taking a couple of boxes I could see they were helping me. I continued taking the pills until I had used eight boxes when my health was fully restored, and I have since continued to enjoy that blessing. I have recommended the pills to others and I always keep them in the house, having proved their great value."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Mr. H. W. Martin of Toronto is a guest at the Queen.

PERSONAL.

Moncton Transcript: Miss Fannie McLatchey of Hillsboro has graduated from the Hartford Hospital in professional nursing. She arrived home last week to be the guest of her parents, Mr. and Mrs. J. F. McLatchey.

Sergt. R. Whalley, formerly of the "Fighting 26th" and now of the Staff of the new Military Hospital in this city returned from a business trip to St. John, today. While in St. John he was the guest of Mr. Julian McMann.

Mr. R. W. Walton of St. John is in the city.

Dr. and Mrs. F. W. MacDonald and Mrs. Ellis Mersereau of Blissfield are in the city today.

Messrs W. R. Bennett and C. E. Dalton of St. John are at the Barker House.

SOMETHING NEW.

Do you know that charcoal is recommended to prevent the absorbing by milk and other foods of foul gases? It should be freshly powdered and kept in the pantry or ice chest continually, especially in hot weather, when unwholesome odors are most liable to infect the milk.

A teaspoonful of borax put in the last water in which clothes are rinsed will whiten them surprisingly. Pound the borax so it will dissolve easily. This is especially good to remove the yellow that time gives to white garments that have been laid aside.

Salt will curdle new milk. Hence in preparing porridge, gravies, etc., salt should not be added until the dish is prepared.

When boiling rice, add a little lemon juice to the water. This makes the rice white and separates the grains.

Ottawa, Ont., June 15.—That a higher standard in the manufacture of Canadian cheese has been attained during recent years is indicated in an analysis by C. McGill, chief analyst, and reported to the Inland Revenue Department. Of one hundred and sixty-six samples analyzed, only six were found to contain less than forty-five per cent. milk fat, the minimum percentage allowed in the manufacture of good cheese.

Her Ear Was Tired

The young man had talked for 10 or 15 minutes without break, when the girl at the other end of the wire interrupted:

"Just a moment, Guy," she said.

"What is it, Freda?"

"I want to change the receiver to the other ear. This one's tired."
