WHAT THE VICTORY LOANS NOW MEAN TO CANADA

(Continued from page 2.)

Large quantities of fir and spruce are being purchased by the Imperial Munitions Board in British Columbia for aeroplanes. The Board now has 67 logging camps in operation.

Made Possible Big U. S. Orders

As a collateral advantage to Canada by reason of the development of capacity to manufacture in a large way, the United States have found it to their advantage to place orders for the production of munitions in Canada to an important extent; the United States supplies all the raw materials Canada supplying the labor and experience. The benefit of this to the United States, as well as to Canada, will be understood from the fact that the 75 millimetre shell which is the size for which the largest number of orders have been placed both in the United States and Canada, were produced in Canada last month in a quantity in excess of the total production in the United States. The production of this size of shell in Canada now on account of the United States Government is 255,000 per week and is steadily increasing.

As a further evidence of the interest of the United States in the developed capacity of Canada representatives of the marine section of the Imperial Munitions Board were asked to attend a conference called by the Emergency Fleet Corporation of the United States in Philadelphia on the 21st June, for the purpose of ascertaining what assistance Canada could give to them in the production of marine engines and marine supplies. Already large orders have been placed in Canada for marine castings and winches, and general supplies for the shipbuilding program in the United States. Of course, it is obvious that this business from the United States will have a marked effect upon the exchange situation, as the money is practically all for wages, as the material is practically all from the United States.

Labor Demand Maintained

The success of the Victory Loan insured a continued demand for all kinds of skilled and unskilled labor. High wages have been received and have helped to cope with the increased cost of living resulting from the effects of war for a long period. Agricultural, factory and other labor have earned good wages, giving a margin for saving.

The placing of \$400,000,000 by the subscribers to the Victory Loan, in the hands of the Government enabled the authorities to continue to finance the basis of our prosperity, namely war orders from the United Kingdom. It assisted them also to a marked degree in seeing that Canada does a full part to support our troops at the front, to help feed the Allies, and to bring the war to a successful conclusion as speedily as possible.

The flotation of the Victory Loan, in short, has kept in motion and in good running order the complex economic machinery of the country.

New Loan Must Be Over-subscribed
Now with regard to Canada's 1918 Victory Loan, it is imperative that it should be well over-subscribed and even more successful than the 1917 Loan.

This is necessary, firstly, because we cannot continue to do our part in the war without the required funds; secondly, because we cannot obtain those funds unless the national activities are maintained at high pressure; and thirdly, because that end cannot be accomplished unless we finance the national activities which have such a vital bearing on the International situation and the conclusions of the war.

It would be a disastrous error were we to be lulled, because of our prosperity, into a misunderstanding of the real situation. It cannot be emphasized too frequently that the safety of our national structure and our participation in the war, depend entirely upon the results of the 1918 Victory Loan.

Our Prosperity Depends on It
Our prosperity during the past year was a direct result of the response to the loan issued last fall. The continuance of our prosperity during the coming year will depend upon the degree of success achieved by the Victory Loan of 1918. Unless we do even better than a year ago, we will jeopardize the prevailing prosperous conditions and activities which, in turn allow us to participate freely in the conduct of the war.

There is not a legitimate reason why on this occasion we cannot better the results of the previous Loan. We have done well in the past, both in the aggregate and per capita. At the same time, we realize that our position in Canada is a fortunate one, compared with that in European countries which are in the immediate zone of war. No one can reasonably contend that we have yet achieved the best

possible results in regard to the raising of War Loans. The evidence of better latent efforts are apparent on every hand. It remains only to organize and give effect to them. For example, while the total bank deposits in Canada on the 30th November 1917 were \$1,547,000 they had decreased to only \$1,541,083,788 on 31st July 1918, a comparatively trifling decline of under \$6,000,000, while the deposits in Canada at 31st July 1918 are \$160,000,000, greater than 31st July 1917. This excellent record was achieved despite the subscription of the 1917 Victory Loan of \$416,000,000 despite the absorption of \$50,000,000 of these bonds sold by holders during this year who desired to realize and despite the purchase by our investors of \$60,000,000 provincial and municipal bonds. These are substantial indications of Canada's ability to subscribe another large Victory Loan, because the national activities allowing the nation to make such a record as outlined above, have continued in a marked degree making it possible to repeat and better the 1917 Victory Loan and general record of the country.

We Must Finance British Purchases

Great Britain having borne a tremendous burden of war for four years cannot be expected to finance her war purchases in this country. The United States is perfecting a vast war machine. Her financial resources are required for that purpose and to place credits at the disposal of the Allies. It is necessary therefore, that Canada should raise the funds required not

AUSTRIA READY FOR CONCESSIONS TO POLAND

Basel, Oct. 16—An official publication is published in Lublin newspapers reaching here that Austria is ready to suppress military occupation of Poland and hand over the civil administration to the Polish government as soon as it is ready to undertake the task. Until then, the statement continues, Austria will do her utmost to assist in the reconstitution of the state, placing government employees at its disposal whenever necessary. In return Austria counts on Poland to export to Austria surplus food and raw materials.

The Frankfort Zeitung says these will begin shortly, but that it will be slow, on account of a lack of Polish officials. All services connected with the war, such as food supplies and munition making, will remain in the hands of Germany and that consequently military occupation will continue.

OUTBREAKS IN ROUMANIA

Paris, Oct. 17—Outbreaks against the Germans have occurred in Northern Rumania, in the province of Moldavia, says a despatch to the journal from Zurich. The population suddenly assumed an openly hostile attitude to the German authorities, according to the advices which come by way of Bucharest.
