DON'T DIET YOURSELF IT ISN'T NECESSARY. TO CURE DYSPEPSIA

The sufferer from dyspepsia and indigestion who has to pick and choose his food is the most miserable of all mankind.

Even the little he does eat causes such torture and is digested so imperfectly that it does him little good. What dyspeptics need is not dieting or artificial digestants, but something that will put their stomach right so it will manufacture its own digestive ferments.

For forty years now Burdock Blood Bitters has been making weak stomachs strong, and curing severe cases of dyspepsia and indigestion that other remedies were powerless to reach. It restores the stomach to a normal healthy condition, so that the food no longer causes distress, but is thoroughly digested and assimilated, and goes on its way making rich, red blood.

Mrs. Henry Shaw, Campbellton, N. B., writes: "I was for five years troubled with a weak stomach, and could not eat any food that would agree with me. I tried different medicines, but could not get cured. A friend advised me to take Burdock Blood Bitters. I took four bottles, and now I am in perfect health."

B.B.B. is manufactured only by The Milburn Co., Limited, Toronto, Ont.

BANKS HAVE 10,000 MEN IN KHAKI

Women Have Taken Their Places as Clerks—The Public Asked to Co-operate.

Canadian banks have ten full battalions in Khaki. This is the inspiring contribution of Canadian bankers to Canada's overseas forces as shown in figures recently compiled and just received by local bank managers. It is an inspiring indication of the patriotism of the staffs of the banks, for it represents a contribution of over half of the men employed in Canadian banking institutions.

At the beginning of the war there was 17,674 men and 1,609 women employed in Canadian banks. By January 15 1918, there were only 14,220 men on the staffs and the number of women clerks had increased by over 500 per cent. Enlistment up to January of this year having reached the figure of 7,741,820 additional men were called under the decision of Mr. Justice Duff on March 1st, 300 have volunteered since January of this year, and 1200 more men have been called under recent legislation. This makes a grand total of over 10,000 young men who have gone from Canadian banks to fight and die for their country in France and Flanders.

The places of the men have been taken by thousands of women clerks who are doing splendid work in their new sphere. When interviewed with regard to the work of the women, local bank managers said that all honor was due to the manner in which Canadian women had risen to the task of carrying on the growing banking business of the Dominion. However, they said it was out of the question to expect the women to work as rapidly or with the same knowledge of banking, as officers of many years' training in the profession. It is understood that the Canadian Bankers Association is about to issue as appeal to the public to co-operate as far as possible with the staffs in the handling of greatly increased business, under exceptionally difficult circumstances.
