MIRACLES IN RECONSTRUCTION OF SOLDERS

Canada Salvaging 95 p.c. of the Victims of War and Re-establishing Them in Civil Industry.

Toronto, Aug. 8.—I talked today with a man who has had a bullet through his right lung, a dozen shrapnel injuries in his back, a smashed hip and an arm injured so that he can only lift ten pounds with it.

He was a busy man doing a man's work at a big lathe. He is one of the modern miracles—a "reconstructed man" turned out by the department of soldiers' civil re-establishment.

There are 300 of him in sixty shops, offices, factories and plants in Toronto. They are working beside whole men, doing the same work, asking no favors and receiving none, fitting themselves to go back into the army of civil life with the same courage and confidence with which they faced the Hun bullets, shells, gas and bayonets.

Orthopaedic Centre.

Toronto is the orthopaedic centre of Canada. The vast majority of men who have had amputations, or suffered loss of function of muscles, hands, fingers, arms and legs, are sent here to be fitted with new appliances that will restore their lost functions. Then they are trained in schools and shops for the job for which they are best fitted in civil life.

So far Toronto is the only Canadian city where artificial limbs are manufactured for injured soldiers. The fac-

tory is in a specially constructed building on the grounds of the Orthopaedic Hospital in North Toronto. The hospital is the home of injured Canadian soldiers waiting to be fitted with and learning to use their artificial limbs.

This factory at the hospital is not only turning out artificial limbs, but training disabled soldiers as limb makers. One of these men has invented a new type of artificial arm little short of miraculous. It is controlled principally by the shoulder muscles. A slight backward movement of the shoulder closes the fingers and brings up the forearm; a forward movement lowers the arm and opens the fingers. The new arm is equipped with a "Sunday hand" that looks like a hand, and, with a glove on it, cannot be distinguished as artificial; for practical everyday use, however, a tool or tool-holder is screwed on. In the hooks of which this is composed anything from a pin to a sledge hammer can be firmly grasped and used.

Special Appliances.

Of course only in the exceptional cases are such elaborate appliances necessary. The percentage of amputation cases to total injuries is small and a great many of these are leg amputations.

Many times the stump of an arm is almost as useful as the whole arm.

An optical company in Toronto has taken a number of disabled men for training. One man with a leg off is learning lens grinding. He will be able to get a job anywhere, because Germany used to furnish the world with lenses before the war and lens grinders are scarce.

In the machine shop two men, each with a leg off, are among the best me-

AMERICAN AVIATORS HAVE DEVELOPED NEW DIALECT

A Gimper is Some Class as an Air Fighter
---The First Group of Americans Trained to Take the Air--A Good Aviator Does Not Need to be Foolhardy

(New York Sun)

With the American Airmen in France, July 10 (by mail)—"So you want some gimper talk?" said Lieut. Eddie Rickenbacker, all American ace and former speed king in the auto racing world, today.

"We'll call a bunch of the gimpers in, and there will soon be plenty of gimper talk. But you'll have to translate it or the people back home will never understand this aviation dialect we have developed over here."

Rickenbacker, who downed his five Germans in less than two months and became the second all-American trained ace, is a tall, strapping chap with a fine sense of humor and a winning smile. In his escadrille they call him "Head Gimper" just because he is naturally a leader and the life of the unit. The escadrille is known as the "Gimper Squadron" and was the first group of American trained air fighters to take the field, or the air, away from the German airmen.

"A gimper is a bird who would stick by you through anything," explained Rickenbacker. "If you were up in the air and ran into a dozen Boches and were getting the worst of it, perhaps, and the fellow with you stuck

with you and gave it to them until the Heinies went back into Hunland, you'd know he was a gimper.

Easy to Be Second Best

"If he didn't have motor trouble, and his gun didn't jam, or he didn't accept any one of a dozen good excuses for zooming off home and leaving you to do the same if you could get away, he'd be a gimper all right. A gimper is a scout who does everything just a little better than he has to.

"We call this the Gimper Squadron because every man has to prove himself a gimper by his actions. When a new chap arrives he's an egg. All good egg's son become vultures, and they're promoted to goopher standing. Then is when they have to prove themselves gimpers, and they'll be gimpers, just as long as they make good. A man who isn't a gimper can't stay with the squadron—it's zoom for him back to the woods.

"Gimper means a lot to us. It means more than good scout, or pal or comrade. I got the word from a mechanic I had when I was in the racing game. He was a gimper, and I knew when he finished with a motor she would run. In this man's life there were two kinds of people—gimpers and bums.

"This pursuit and fighting part of aviation requires a type of aviator who will stick, especially the way we fly in groups. To do your best work you must have a mutual feeling of confidence in the gimper flying beside you that is unequalled anywhere else. If you have a gimper with you, you know he won't make a mistake in judgment or lose his nerve at the critical time. He couldn't do that—if he lost his nerve just once he'd never be a gimper again.

Knowing When and How

"I don't mean he will always pique into a crowd of Huns, no matter their number. He knows when to fight and when not to fight. If he hasn't a chance he draws off, flies around until he gets his altitude and then drops on the Heinies. A gimper doesn't need to be foolhardy. He watches his chances, but never gives up when another is being strafed.

"When you're flying around up there over Germany, followed by a string of black puffs from the German Archies, and hear them exploding around you, and then see some Ger-

You May Find It In Stocking

Cincinnati authority says your troublesome corns just loosen and fall off

Sore corns, hard corns, soft corns or corns between the toes just loosen in their sockets and fall off the next day if you will apply directly upon the corn a few drops of a drug called freezone, says a Cincinnati authority.

You merely put a drop or two of this freezone on the tender, touchy corn today and instantly the corn stops hurting, then tomorrow sometime you may find the old torturous pest somewhere in your stocking, having fallen off entirely without a particle of soreness, pain or irritation. The skin surrounding and beneath the former corn will be as healthy, pink and smooth as the palm of your hand.

A quarter ounce of freezone is sufficient to rid one's feet of every corn and callous, and any druggist will charge but a few cents for it. It is a compound made from ether.

BIG MOOSE CARNIVAL AT HAVERHILL

The Williams Show, the Star Attraction, Coming to Fredericton Soon for a Week.

(Haverhill Gazette)

In spite of the extremely hot weather, people of all ages and from all parts of the city made their way to the River Street circus grounds last night to see the Williams Standard Shows, which opened a week's engagement under the auspices of Haverhill Lodge, Local Order of Moose.

The Williams Shows are well balanced, containing about everything the ordinary person could wish for, and the whole makes a midway that rivals Revere Beach. There is the ferris wheel, and the inevitable merry-go-round, both of which were well patronized; the whip and all sorts of amusements, such as ball rolling, hoop throwing, ring tossing, and the like with dolls, fruit, teddy bears, candy pillows, vases and jewelry for those who were able to display great skill in some particular line.

Gaily painted banners announce the

man planes off to one side of you, it is the easiest thing in the world to pretend you don't see them, and keep straight ahead until you pass them. Usually the Germans are willing to do that, too, unless you attack them. But a gimper never lets himself fail to see them. He manoeuvres until he can pique on them and let them have it until they run home. Then he's satisfied he's a gimper."

WANTED

TEACHER WANTED—Second class female teacher for School District No. 16, Parish of North Lake, York county. Apply, stating salary wanted, to Wm. E. Gould, Forest City, N. B.

WANTED—Second class female teacher wanted for School District No. 3, Burton, Sunbury county. Apply, stating salary wanted, to S. T. McMonagle, R. F. D. No. 1, Oromocto.

WANTED—Girl for general housework in small family. Apply to Mrs. R. P. Allen, 164 Charlotte street, city.

WANTED—Experienced accountant for our St. John plant; an excellent chance for advancement with large concern having numerous branches throughout Canada and United States. Apply by letter, giving age, experience and salary desired. Address R. T. Purdy, Booth Fisheries Co., Eastport, Me. 7-8 61

Spruce 8 millions s.f.
Fir 3 millions s.f.
Other Soft Woods . . . 4 millions s.f.
Hardwoods 9 millions s.f.

Undersized soft wood . . 24 millions s.f.
Total 54 millions s.f.

The remainder of the 400 sq. miles is situated in the Counties of Northumberland, Kent, Westmorland, Charlotte, Kings, Queens, Sunbury, York, Carleton, Victoria and Madawaska.

Berths are sold in ten square mile blocks and less.

For further information as to quantity of lumber, upset prices, plans, etc. apply to the Deputy Minister, Department of Lands and Mines, Fredericton, N. B.

E. A. SMITH,
Minister of Lands and Mines.
Fredericton, N. B., July 22, 1918.

SPEAKING OF GOOD MEMORIES

Notice—Party on Home avenue who called up and said they found my pocketbook, please give me their number again, as I lost it.

Why It Would Suit Her.

Officer—How would you fancy a sailor for a husband?

Miss Curtwun—Very much indeed if he were like yourself.

Officer (highly flattered)—It's very nice of you to say that; but why so?

Miss Curtwun—Because you would be home so seldom.

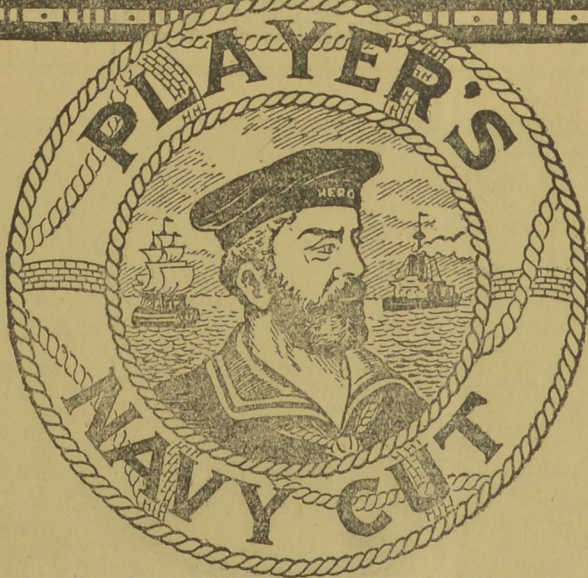

Some people talk so much about what they are going to do for you that they finally convince themselves that they have done it.
