Foch Preparing to Strike Another Blow at the Huns

American Forces Likely to Play a More LINER HAS Important Part in Future Operations---Peace Offensive Movement is Growing in Germany and Austria

(Canadian Press direct wire.)

LONDON, Sept. 41.—The British public is now speculating with confidence on where and how Marshal Foch will strike his next blow, and it is firmly believed that it will not be long before the great American forces will be found taking a more prominent part in the operations. In the meantime all despatches from Germany and Austria bring evidence of a new and rapid growth of the peace offensive movement and the tottering of the enemy on the home front.

There is nothing definite or official in these reports, but should they materialize they will bring to the front new men, able to inaugurate new lines of diplomacy, especially in the direction of support to the idea of a league of nations.

REPORTED THAT DR. W. S. SOLF MAY SUCCEED VON HERTLING AS IMPERIAL CHANCELLOR

Rumors are persistent that Dr. W. S. Solf, Secretary of State for the Colonies, is about to succeed Imperial Chancellor Von Hertling, and that Count Czernin will return to the helm of Austrian politics either as premier or foreign secretary.

It is stated, but denied by the Berlin Vorwaerts, that Philip Scheidemann and Matthias Erzberber, the former a socialist and the latter a leader of the Catholic Centre Party, would be members of the new Solf government and that the members of majority parties in the German Reichstag are holding conferences to draft a programme of war and peace aims which they will endeavor to get the new government to adopt.

GERMANS OPEN UP A STRONG ARTILLERY FIRE ON THE AMERICANS IN THE VOSGES

With the American Troops in France, Sept. 11.—At 5.30 o'clock this morning, the Germans began a heavy artillery action on the American front lines in the Vosges region, sending over some two hundred projectiles from their mine throwers and thousands of heavy calibre shells. At 6.20 the enemy began a strong fire on the communication trenches.

Reports from two observation stations were that sixty Germans were observed entering their own lines with wounded, land. but no reports from the American front lines had been received at this hour. It seems probable that the raid which developed after the artillery fire, was beaten off with loss to the enemy.

Another Village Captured.

PARIS, Sept. 11.—The village of Travecy, near the southern end of the main Hindenburg line, has been captured by the French, according to reports received here. If the French can DIFFERENCE AMONG ANGLICANS hold this town, the important enemy position at Lafere, a northerly defence of the St. Gobain massif, two miles south of Travecy, will be virtualy outflanked.

Wonderful Tactics of Airmen Helped to Make Recent Victories Possible ---Many Enemy Machines Brought Down in Flames---Some Cases Cited

(By Canadian Press direct wire.)

With the British Army in France, Sept. 11.— Amazing eats by British airmen during the recent fighting may now be mentioned. After driving down in flames one of two enemy two-seaters, a British scout had engine trouble, which compelled him to spin to the ground. As the scout's machine touched the ground, a German fired at the pilot from 15 yards, puncturing the gasoline tank. At that moment the engine picked up sufficiently to carry the pilot to the rear of the British lines, where he was forced to come down again. Being under a heavy fire, he removed the gunlocks and sights and all receipts, which had been adopted by his instruments before abandoning the machine, which could

GALLANT OBSERVER ON A BRITISH MACHINE WAS WOUNDED TEN TIMES DURING A PLUCKY FIGHT

A pilot and observer, returning in their machine from a bombing raid, fell behind their formation because of engine trouble and were attacked by Fokkers. The elevator controls were immediately shot, and the observer badly wounded; but he continued to fight and shot down one Fokker in flames and put another out of control. By this time all the gasoline tanks had been shot through and the engine hit in several places. All the instruments on the dashboard were smashed by enemy bullets and both rear guns were disabled and the observer was oleeding badly.

The pilot succeeded in getting his machine into action and went through a cloud and reached the British lines. The gallant observer was found to have been wounded ten times.

SPLENDID TACTICS OF THE AIR SCOUTS MAKE THE SPLENDID BRITISH VICTORIES POSSIBLE

Attacked by a squadron of enemy airplanes, a lone British scout spun downward, but on the way saw that only one of the enemy was following him, so he came suddenly out of the spin ust above a grove of trees and caught the enemy machine crossing in front of him and shot it to earth, where it burst into flames. There are many stories of such brilliant airplane actions. One report winds up by saying that a scout machine crossed a battery position several times later, but was not fired upon, all the gunners apparently having been killed.

OVER REVISED BOOK OF PRAYER

in Toronto on Thursday-Montreal Resolution on Marriage Also to Come Up-Church will be Asked to Reaffirm Its Position in Regard to Marriage and Divorce.

(By Canadian Press direct wire.)

TORONTO, Sept. 11.—Anglicans are by no means agreed on the ques tion of the Revised Book of Common Prayer, which is the most important matter that will come up for consideration at the General Synod of the Church of England in Canada, which opens its triennial session here tomorrow.

Three years ago the Revised Book was tentatively accepted and submitted to dioceses for consideration. Three years' probation has not brought it into popular approval. There are those who would postpone its approval further and there are others who would hold it over until after the war.

A resolution from the Diocese of Montreal, on marriage, which is to come up, is as follows: "That, in view of the grave moral dangers which must in evitably result should the proposed alterations in the English marriage law at present standing in the name of Sir A. Conan Doyle, be put into effect, the General Synod of the Church of England in Canada be respectfully petitioned "The truth is," said Mr. Dumont. to reaffirm the Church's belief in the indisputability of holy marriage and her "that he died in his home on Rougerou Road. ARCHANGEL, Sept. 11.-More Allied troops are urgently needed if the Russo-Allied campaign in northern Russia is to be carried to speedy success in the opinion of virtually every officer and civilian observer here. The Rusmonia proved too much for his consian winter will soon be at hand and before that time it is hoped to reach the hard pressed Czecho-Slovaks, establish a front against the Germans and open an uninterrupted line of communication from Vladivostok to Archangel by way of Vologua. POLITICAL **EXECUTIONS**

Stockholm, Sept. 9—Despatches received from Russia announcing that the neutral ministers have protested against the wholesale shooting of political prisoners and threatening to expel the Bolsheviki from neutral countries if the political executions continue caused no surprise to travellers who, recently returned from Russia. Ten thousand officers of the field army who were ordered to register at Moscow were held prisoners for nearly a week without food. Cholera broke out among them, because of the crowded and unsanitary conditions of their quarters.

London, Sept. 10—Field Marshal Haig's historic order issued today set beside his famous "Back to the Wall" order of six months age pointedly marks the end of one of the most critical periods in British history. That the country has triumphantly issued from that dark period is ungrudingly and gratefully attributed to the timely assistance given by the American nation, no tonly in the fiel dof arms, but also in the economic field.

It is universally felt that Field Marshal Haig's order marks the beginning of a new period in the world struggle to which the nation is able to look forward with hope and confidence. There
