

WILL NOTIFY RELATIONS WHEN THE SOLDIERS RETURN

Names and Addresses of Men will be taken
Before they Leave the Discharge Depots,
and Relatives Notified---Conference of
Hospital Commission Secretaries Held
at Ottawa.

As the result of the representations made by the secretaries of the various provincial returned soldiers aid commissions to the Hon. S. C. Mewburn, Minister of Militia, during the recent conference held in the headquarters of the Military Hospitals Commission in Ottawa, the military authorities have agreed to hold the returning soldiers long enough in the discharge depots

at St John, Halifax and Quebec to secure their names and addresses, and the names and addresses of those whom they wish to notify by wire of their return.

The difficulties arising from the abolishment of the discharge depots as conducted by the Military Hospitals Commission has disrupted the work of the provincial committees seriously as well as caused a great hardship to the relatives of the men who have desired to welcome them home.

Uniform Name Taken.

Secretary E. H. Scammell of the Military Hospitals Commission presided over the conference in which it was agreed that hereafter the provincial organizations should be uniformly designated "Returned Soldier Commissions," the name in each case to be preceded by the name of the province. The secretaries will be recognized channels of communication for complaints to the militia department. Heretofore such complaints have been forwarded to the Military Hospitals Commission through the provincial commissions and in turn

TROUBLED WITH CONSTIPATION

From 16 to 20.

Constipation is one of the commonest ills of mankind, and one too often allowed to go unlooked after until some serious complication sets in.

If the bowels are properly looked after there will be no constipation, jaundice, sick or bilious headaches, heartburn, coated tongue, sour stomach, floating specks before the eyes, etc.

Milburn's Laxa-Liver Pills will keep your bowels so regulated that in no time the constipation will disappear. Miss Emma E. Melanson, Halifax, entirely.

N. S., writes: "I am now 20 years of age and since I was 16 I have been greatly troubled with constipation, so much so that at times I would be in bed three or four days a month. I tried all the old fashioned remedies, castor oil, cascara, etc., with only temporary relief until my sister-in-law gave me some of Milburn's Laxa-Liver Pills. From the first they seemed beneficial and I gave them a fair trial. This was two years ago, and with an occasional dose I have kept entirely free from constipation for the period mentioned."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

passed on to the authority in question.

It was recorded as the opinion of the meeting that land granted to soldiers desiring to settle on the land should be within a reasonable distance from a railroad and that the government should be asked to make arrangements to buy land in any province whether it be federal land, the property of the province or privately owned.

The secretaries conferred with Mr. W. E. Segsworth, administrator of the vocational work of the Military Hospitals Commission, who explained to them that the industrial surveys made by his department were not intended to tabulate employment possibilities, but to discover where facilities could be secured for training men in the factories.

He pointed out that in most cases men remained in the employment of the factories in which they were trained when their term of training had been completed. (3)

Since the War.

(Chicago News.)

The showman was in a pensive mood. Scratching his right ear with his left forefinger, he cast a melancholy eye upon the gentlemen of the press who had come to gather items from the annual convention of the outdoor showmen of the nation at the Auditorium hotel.

"There ain't anybody," he began, "is stronger for this war than I am. But it wasn't till Minnie died that I see what a horrible thing war is—in general, you understand. Minnie who? Minnie was an elephant, one of the swellest and most comical elephants in the business. There wasn't anything Minnie didn't know, from playin' 'Nearer, My God to Thee,' with the cowbells, to giving imitations of a drunken man layin' down for a snooze.

Fate of Jake, Minnie, Etc.

"It was last year that Minnie was gathered to her rest. Followin' this, Jake had to cash in. Jake was the lion, you understand. There was three of them originally. Martin per-

PATRIOTIC SONGS FOR HIS DINNER

New York, Feb. 24.—The chairman of the dinner committee of the Sprague Electrical Works convention left the private dining hall at the Hotel McAlpin in haste and sought a hotel detective.

"There's a ringer in our gathering," he complained. "He just came in and sat down at a table. We can't begin our business talks until he goes, and we've been singing patriotic songs for an hour."

The "ringer" was hoarsely chanting "Over There" with a look of patient suffering when the detective approached him.

"Isn't this the Home Life Insurance convention 'dinner'?" he asked.

"No, that was last night," he was informed. Whereupon he departed with abject apologies.

"My train was delayed," he explained outside the dining hall, "and I knew I would miss the convention, but I thought I would get here in time for the dinner and when I saw everything apparently ready I felt sure of it. I'm about worn out. I'll bet I've sung a hundred patriotic songs."

Ford ONE-TON TRUCK

COUNTRY-WIDE interest and comment have followed the recent appearance on the market of the new Ford One-Ton truck.

It is now possible to get a serviceable commercial car of one-ton carrying capacity that also embodies the desirable qualities of Ford sturdy construction and low up-keep expense.

The Ford passenger car has proved itself the most economical and serviceable automobile in the world. And this latest Ford model differs from the standard Ford chassis only in being constructed for heavy-duty service.

The frame is built of heavy steel, and the wheel base has been lengthened to 124 inches. A worm drive is used, and rear wheels are equipped with solid tires. Front tires are pneumatic. The standard Ford motor, transmission and ignition are embodied in the truck.

The Ford truck is supplied as a chassis only. This allows the purchaser to equip his car with any style of commercial body to suit the individual requirements of his business. It is an easy matter to get this equipment, for many of the leading body builders of Canada already have developed standard bodies of the various styles, made specially to fit the Ford truck.

Ford service has contributed in no small way to the reputation of the Ford car for day-in-and-day-out dependability. This same universally satisfactory service is available to owners of Ford trucks—an important thing to consider.

Realizing that a Ford model of the popular one-ton capacity would find immediate favor, this new truck is announced. Don't fail to see it on exhibit at the Ford service station in your town.

THE VALUE OF ADVERTISING

The value of Advertising in all cases must be based on the return for the outlay. No better opportunity in this respect can be found in this locality than

THE DAILY MAIL

This paper has a special value to the local advertiser, as the majority of its readers are in this city and the immediate surrounding country.

Our Advertising Rates will be found decidedly reasonable in view of the results obtained.

PEOPLE READ ADVERTISEMENTS

They are trying to buy as wisely as they can. It is necessary that they should.

They are eager to know what the local merchants have to offer, and good live advertising is interesting reading to them.

Most of our enterprising business men have already realized this fact and their advertising appears regularly in the Mail.

If you are not a regular advertiser in the DAILY or SEMI-WEEKLY MAIL, you are overlooking an opportunity that no business man in this locality ought to be too busy to appreciate.

In spite of increased prices of materials and the upward tendency in rates for all services in the business world, the subscription price of the Mail has not been increased, and we are daily booking new subscribers, which means more readers and customers for our advertisers.

"I've been in the show business for fourteen years and I know where to go for anything from a trained goldfish to a man-chewing rhinoceros. And what do I find? I find that there has not been a lion or an elephant left

Africa since 116. I find that you can just as easily lay in a stock of lions and elephants by capturing them in your back yard as you can by ordering them from Africa or India.

Not Even Any Freaks Left.

"That's what the war's done. And it ain't all. I kin maybe figure a way out by putting on a stuffed elephant act. It ought to go big. But there's the freaks. Every two or three years I stock up fresh on the queer acts. And this year when I start getting anxious about fire eaters and three legged skeletons and such, what do I find? Say, there ain't a cow faced man to be had for love or money. And as fer aninja rubber lady, you might as well cry for the moon.

"Most of the freaks come from France, Belgium, Spain and Italy, owing, I s'pose, to the lot of intermar-

"And this ain't certain, either. 'Cause Bosco, the wild man, is in the draft, and it looks as if he'll have to light out before summer."
