

CHAUTAUQUA

A Cheerful and Patriotic Program

President Wilson says: "The work that the Chautauqua is doing has not lost importance because of the war, but rather has gained new opportunities for service. Let me express the hope that you will let no discouragement weaken your activities and that the people will not fail in the support of a patriotic institution that may be said to be an integral part of the national defence."

COMMODORE TRAVELLED IN AN AIRPLANE

London, July 30—"We are nearly overwhelmed with our experiences," declared one of the Canadian press party last night on returning to England after ten days' tour of the English, French, Canadian and American lines in France. The whole party is safe and sound and deeply impressed by the wonderful kaleidoscope of war activity they have been privileged to witness.

The newsmen were greatly gratified at encountering many American units, where kindly hospitality was shown them. A visit was also paid to the Canadian hospitals, which were bombed by the enemy. The party had some interesting talks with nurses and patients, and opportunity was taken to observe the excellent Canadian Red Cross work in different parts of France.

One of the most amusing incidents occurred when the party visited Vimy Ridge. J. L. Stewart, of Chatham, N. B., aged 75, probably the oldest journalist to visit the war zone, had unfortunately to be left behind because he had not been provided with a gas mask. Disappointed but undaunted, this veteran newsman took matters into his own hands, going to the Ridge on his own account, with the result that while his confreres travelled to the famous battlefield on foot, Stewart went over it serenely in an aeroplane. "I put it over a 'whole lot,'" declares Stewart gleefully.

TAKES A SLAM AT UTILITIES COMMISSION

Opposition Organ at St. Stephen is Very Sarcastic—
An Unfortunate Break.

(St. Croix Courier)

Last week, on Thursday, the town was favored with a meeting, convention or session of the Public Utilities Commission of the province, just as those few who attended chose to regard its importance and its weight. Legally considered, probably it was a "session."

G. O. D. Otty, a St. John lawyer, was the chairman. Mostly he impressed those in attendance as very firmly of the opinion that corporations are the "real thing" in any community and that it is not worth while for any rank outsiders to "kick against the pricks" while he was present.

A. B. Connell of Woodstock, reputed a "distinguished member of the bar" was his associate, but if he ever had any ideas that were different from those of the "big chief" he never showed them or ventured to hint that they were in his possession.

The "big interests," a la the Calais Street Railway Co., which, reduced to its component parts is George A. Curran, could not have wished for a more compliant board before which to make its appearance.

Oh yes, we almost forgot, but there really was another member of that "board" Mr. Michaud of Kent county was there in all his dignity and played just the same part in the hearing that a bump plays on a log. But he was from Hon. Mr. Veniot's county and he draws his salary "just the same." Neither Mr. Otty or Mr. Connell ever consulted him and all that he had to do was to look wise and wait until pay day.

Then there were two others present drawing public salary, a secretary and a lady stenographer. The latter kept busy all the time, but the former realizing her presence, had nothing to do but to "sit back and look pleasant," but two good salaries from the pockets of the people were in operation all the time. Either one of the duet could have done all that was required, but the Veniot-Foster government is an "economy" government and that would never do.

Benj. Y. Curran appeared for the Street Railway and N. Marks Mills appeared for the town councils of Milltown and St. Stephen in opposition to the proposed increase in rates. Mr. Mills soon found that board opposed to him and had difficulty in getting even his contentions before the members.

GIRLS! YOU CAN LIFT THEM OFF

Doesn't hurt a bit to lift your sore, touchy corns right out

A noted Cincinnati authority discovered a new ether compound and called it freezone and a quarter ounce of it now can be had for a few cents at any drug store.

You simply apply a few drops of this magic freezone upon a tender corn or painful and instantly the soreness disappears, then shortly you will find the corn or callous so loose that you can lift it off with the fingers.

You feel no pain, not a particle of soreness, either when applying freezone or afterwards, and it doesn't even irritate the skin.

Hard corns, soft corns or corns between the toes, also toughened callouses, just shrivel up and lift off so easy. It is wonderful! It works like a charm. Try it!

Women should keep it on their dressers and never let a corn ache twice.

ACQUITTED OF MANSLAUGHTER

Halifax, N. S., Aug. 2—Donald Shaw, Chief officer of a ship in port charged with manslaughter of Arthur McBride, an oiler on the same ship who died last Tuesday night following a clinch with Shaw, was today honorably acquitted of the charge by stipendiary McDonald. The only witness today was medical examiner Finn who had made an autopsy of the body. Dr. Finn reported that McBride's heart and lungs were diseased and that there were no indications on the body that his death was due to the blows or external violence.

When the word was spoken "He that is without sin among you, let him first cast a stone at her," no one present had the nerve to heave a pebble. But later several threw a little mud, no doubt.
