THE GOD OF BRUTE FORCE MUST BE FOREVER BROKEN

Stirring Speech by Lloyd-George at Banquet to Canadian Editors --- The Overseas Dominions to Have a Voice in Determining the Terms of Peace--Anything Less Than a Real Peace Will Be a Fraud

London, July 14—The governments of the British dominions will have a voice in determining the terms of peace, according to Mr. Lloyd George. The prime minister made this statement in a speech at a dinner given in honor of the Canadian editors who are visiting England, at which Lord Beaverbrook was the host.

"This is a war in which we engaged the empire," said the premier, "when we had no time to consult the dominions as to policy and it is perfectly true that the policy which we adopted to protect small nations in Europe was a policy which we embarked upon without any consultation with the dominions. But you approved of it. Henceforth you have the right to be consulted as to the policy before-hand and this is the change which has been effected as a result of the war.

"The contributions which you have made to enforce these treaties have given undeniable right to a voice in fashioning the policy which may commit you, and for that reason an imperial war cabinet is a reality.

Dominions to Share

"Another point in which you must have a voice is the settlement of the conditions of peace. We have discussed war aims and the conditions under which we are prepared to make peace at the war cabinet. We arrived at the agreement on the subject last year with the representatives of the dominions, and we shall reconsider the same problems in the light of events which have occurred since—and we shall consider the whole of these problems, I have no doubt, in the course of the next few weeks.

"Canada and Australia and New Zealand, yes—and Newfoundland—have all contributed their share of

sacrifice and they are entitled to an equal voice with the representatives of these islands—will determine the conditions under which we are prepared to make peace. Unless I am mistaken, we are pretty well in agreement upon them.

"There must be no hugger-mugger peace. It must be a real peace. We are not waging war for the sake of killing or being killed, but for the sake of establishing a just and durable peace for the world. You cannot make peace unless it is both just and likely to endure.

Defrauding Humanity

"We in this country, who have lost hundreds of thousands and have had millions maimed, and slain, whose casualties have amounted to scores of thousands, and Australia who has played her share in these things—we are not making these sacrifices in order to establish a fraud on this earth and anything less than a real peace will be defrauding, not this generation but the next generation; it will be defrauding humanity.

"Germany has waged three wars, and each time she has added, through those wars, to her strength, to her power, to her guidance, to her influence, and each successive war she has waged has inevitably encouraged her on to the next. If she had had one check you would not have had this war. If this war succeeds in adding one square yard to her territory, of adding one cubit to her stature, of adding a single iota to her strength, it will simply raise their idea of militarism, for which the world is being sacrificed at the present moment.

"The God of brute force must this time be forever broken, and burnt in its own furnace."

MUST NEVER FORGET THE BRITISH NAVY

Paris, July 15—Under the caption "Let us never forget the British sailors," the Midi says: "Let us acclaim the American soldiers but never forget the British sailors, without whom Germany would continue to utter slurring remarks on the vain menace and fruitless effort of America. She already knows, and will know better too, all that this menace means. The day when the American army gains the magnitude to which we are looking forward let us pay homage to the British sailors, those unseen and silent conquerors who are guarding the seas for us."

KERENSKY SAYS ALLIES MUST HURRY

(Canadian Press direct wire.)

Paris, July 15—Alexander F. Kerensky, former premier of the Russian provisional government, yesterday declared to a committee of the French radical socialist party that the repeated attempts made by the Russians to shake off the German yoke not only in Siberia, but along the Volga and even north of Moscow, are being carried out according to a plan formulated while he was in Russia.

Kerensky suggested that all the Entente should give military aid by sending a small number of troops to Russia and above all, munitions of war were needed in that country. The Allies must hurry, he declared, because before they knew it it would be too late.
