## JEWS AWAITING CHANCE TO RETURN TO HOLY LAND

**Large Part of Jewish People Possessed With Irrepressible Impulse to Strike Tents and March—The Jewish Homeland in Palestine—Tremendous Work Done by Organization and Societies Preparing for Exodus of People—A New National Existence for the People of Israel.**

New York, Aug. 1.—Everywhere impatient thousands of Jews, a total of more than 1,000,000 are waiting with eagerness for the League of Nations which will fix the political status of Palestine as the Jewish homeland, so that they may proceed to the liquidation of their assets and go to the place where they may live the rest of their lives in peace and with the satisfaction of national existence.

This statement is made by the Zionist organization of America, and based on what the organization says are authentic reports from responsible individuals furnished to the immigration division in preparing for organizing, regulating and absorbing this immigration.

In the preface to a survey revealing these conditions the immigration division says, "It is a literal fact that at the present moment a large part of the Jewish people is possessed with an irrepressible impulse to strike its tent and march."

**Thousands of Applicants**  
Immigration committees have been formed by the Zionist organization in a number of countries. Thousands of young men of every class and occupation, of service to the development of the country, have organized agricultural training groups for the study of all technical and scientific questions which bear upon the settlement of Palestine.

England and the United States both expect to make man-power contributions to the re-settlement of Palestine. The organization in both of these countries is preparing to furnish the administrators, engineers, specialists, and civil servants for the task of helping Palestine to absorb the migration. The American organization has recently reported that the roster of the first 5,000 applications showed 134 occupations, including all forms of manual labor and professional and administrative callings. Jewish farmers headed the list with a capital running into several millions of dollars.

Boris Goldberg, chairman of the Zionist organization of Great Russia, reports that during the last 20 months under the pressure of the revolution the basis of the economic existence of the Jews has been undetermined. The subsistence of 70 to 75 per cent of the Jewish population has been destroyed.

**Exodus from Russia**  
"It was only natural that, when the news arrived of the prospect of creating a Jewish homeland in Palestine, there should have arisen an enormous agitation for re-settlement in Palestine," says Mr. Goldberg. "Whole Jewish towns and townships began to make themselves ready to move as soon as communications should be opened."

"Cooperative societies are being organized experimental farms are being established for the training of Jewish young men, and builders, carpenters, bricklayers, joiners, locksmiths, blacksmiths, all kind of skilled laborers, engineers and teachers are being classified."

In Odessa, preparations are underway for handling the throngs that are expected to congregate as soon as traveling is safe. Dr. Saalkind, a member of the Jewish National Council for the Ukraine, and former president of the Jewish community of Petrograd says:

"There is no risk of exaggeration in assuming that several hundred thousand, perhaps a million people, are preparing to leave Russia at the first opportunity."

From Siberia came a request on April 15 to the London Zionist Bureau to obtain permission from the British authorities for a great number of wealthy persons to settle immediately in Palestine. Inquiries have come also from Irkutsk, Omsk, and Harbin.

**Poland's Contribution.**  
N. Farbesten, reporting for the Jewish National Council of Poland says: "The persecution suffered by the Jews under the present political regime has given an immense impetus to the migration movement. The general political situation and fear of pogroms, on the one hand and on the other the absolute stagnation of trade and industry, have combined with the Balfour declaration and the fero of Bolshevism and confiscation to create an intense longing for Palestine; so

much so that large groups, and, in many cases, whole Jewish communities have firmly resolved to leave Poland and migrate to Palestine."

**Tzecho-Slovak Plane**  
The report from Tzecho-Slovakia says:

"Jewish young men, returning from the army find themselves unable to recover their positions owing to the strong anti-semitic feeling which has been aroused by certain interested circles to divert public attention from their own extortions. Between October 1918 and February 1919, Jewish businesses were pillaged in from 50 to 60 towns in Bohemia and Moravia. To avoid a repetition of this experience the Jews are more anxious than ever to secure for themselves a firm economic position in Palestine. In Jugo-Slavia 100,000 Jews and Jewesses of every class even down to domestic workers, have organized."

Holland reports vast preparations, especially among the 7,000 Russian Rumanian and Galician Jews who came there from Antwerp when the war broke out.

University students lead the list from Germany. The Jewish refugees from Russia and Poland who found their way into German Austria at the beginning of the war are unwilling to remain in that country mainly because they are not allowed civil rights, and they are also unwilling to return to the countries whence they came. Their favored objective is Palestine.

Reports from Morocco, Algiers, Tunis and Egypt, indicate a similar movement and a large number of well-to-do Jewish farmers are prepared to leave Canada for Palestine. This is also true of some 500 Jewish farmers in Chile, Nicaragua, and Venezuela. Mexico and Brazil are represented in the groups that are preparing to migrate. In the Argentine the younger men among the Jewish colonists have begun to organize themselves in groups of 50.

"The Avalanche," adapted from Gertrude Atherton's novel by the same title, has recently been produced by the Famous Players-Lasky Corporation with Elsie Ferguson in the leading role.

## MOVEMENTS OF THE STARS IN FILM LAND

Jack London's "The Sea Wolf" will be pictured soon by the Famous Players-Lasky Corporation.

Lumsden Hare is again leading man in "The Avalanche." Others in the cast are Warner Oland, William Roselle and Frederick Esmelton.

Miss Billie Burke's next picture will be called "The Misleading Widow," taken from the play "Billeted," by F. Tennyson-Jesse and H. M. Harwood.

Major Ian Hay Belth (Ian Hay) wrote the scenario for the forthcoming production of Sir James Barrie's "The Admirable Crichton."

Pearl White asserts that she is the largest individual owner of property in New York City, as her recent purchase of a 20-acre estate in Bayside which is within the New York city line, gives her this distinction.

To make an elephant, a five months human baby, and an ourang-outang synchronize their movements for the cinema camera is the task which Mr. William Campbell has had at Universal City in making a spectacularly funny animal comedy soon to be released.

Here is a tailor with an imagination Alice Joyce left hurriedly on her vacation a few weeks ago and grabbed a bunch of scenarios to take with her to read on the train. On top was one marked "Personal". She scanned it and laughed at scenario. It told of a famous motion picture star who went off on a vacation, and forgetting to pay her bill, caused great hardship in the family of the tailor.

Miss Joyce looked at the name on the top of the page and suddenly had a glimpse of the name of her own tailor. She had a laugh at his unique way of presenting a bill, and you may be sure their was no delay in sending a cheque.

William Farnum has been keeping the tuna off Catalina Island in a state of worry. He recently took a two week vacation, and during that time went after these big fish with Captain Newberry in the latter's boat the "Ruth."

Mr. Farnum's first day's catch, with light tackle, was five tuna, the largest weighing 72 pounds. For landing a fish over 50 pounds with light tackle, the Fox Star was presented with the Red button by the Tuna Club. The

## A Pimple Face or Poor Complexion Quickly Restored

Thousands of young men and women would be handsome and attractive were it not for unsightly pimples, blackheads, and rough uneven skin. Custom seems to recommend lotions and salves, but unfortunately their effect is but temporary. These disfiguring blemishes do not originate in the skin—their birth in every case goes further back, to the blood, which must be cleansed of humors before the pimples depart for good.

A physician who has made a careful study of such cases, says that the quickest cure comes from a blood-building medicine like Ferrozone. The minute Ferrozone strikes the blood its good work begins. Poisons and foul matter are expelled. Every trace of humor is driven out, and the whole life current is supplied with nutriment and health giving qualities. You can always tell a Ferrozone complexion when you see it—the cheeks are clear and rosy, no signs of sallowness—the eyes are bright and expressive because rich, red blood is circulating through the whole system carrying health, energy, and strength with it. Not only will all skin eruptions disappear, but an increase in vital strength an all-round improvement will be apparent. No rebuilding tonic could be more efficient. Get Ferrozone today—Good for young and old, for well folks and sick ones, too. 50c. per box or six boxes for \$2.50, at all dealers, or direct by mail from The Catarrozone Co., Kingston, Ont.

record in this direction is 30 pounds.

The Blue button was given to him the next day, when he brought an 118½ pound tuna to gaff on heavy tackle. Mr. Farnum declares that on his next fishing trip in the Pacific he will smash his own splendid record.

The making of a recent Harold Lloyd comedy required that the entire Rolin Film Company lineup make the boat trip from Los Angeles to San Diego. Two miles off shore a deathly pallor began to show through Harry "Snub" of Pollard's make-up.

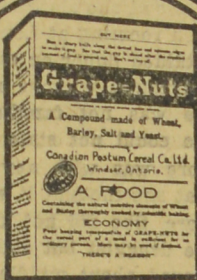

"What's the matter?" asked Harold. "I thought you told me you were a good sailor."

"I am," gurgled the unhappy Harold "but I always feel messy when they start shaking the water."

Hal. E. Roach, general director of the Rolin Film Co. where the Harold Lloyd comedies are produced, has vowed never again except a "collect" telegram until he has read and re-read the same.

Mr. Roach was born in that dear Elmira, N. Y., and he has been boasting that place ever since. One of Mr. Roach's California friends recently went east and in due course of time the following wire, dated Elmira, was received at the Los Angeles studio, collect \$1.00.

"Just passed through your home town. She ain't much."

**When You Feel Dumpy And Out of Sorts Generally**

Look around a little and see if the trouble is perhaps with the food. A lot of people need better nourishment.

## Grape-Nuts

Contains marvelous nutriment—all the goodness of wheat and barley, including their rich mineral elements. Have Grape-Nuts as a daily ration with other food and see if life doesn't take on a brighter look. A delicious, economical food! You'll like it.
